shifting points of view film noir's style both creates and comments upon a morally adumbrated world where the alienating effects of the uncanny the fetishistic and the surreal dominate What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality Much of the appeal of film noir concerns its commentary on social anxieties its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity This book examines the changing often volatile shifts in representations of masculinity and femininity as well as the genre's complex relationship with Afro American culture observable through noir's musical and sonic experiments Key features

*Berlin Coquette* Jill Suzanne Smith, 2014-02-28 During the late nineteenth century the city of Berlin developed such a reputation for lawlessness and sexual licentiousness that it came to be known as the Whore of Babylon Out of this reputation for debauchery grew an unusually rich discourse around prostitution In *Berlin Coquette* Jill Suzanne Smith shows how this discourse transcended the usual clichés about prostitutes and actually explored complex visions of alternative moralities or sexual countercultures including the New Morality articulated by feminist radicals lesbian love and the New Woman Combining extensive archival research with close readings of a broad spectrum of texts and images from the late Wilhelmine and Weimar periods Smith recovers a surprising array of productive discussions about extramarital sexuality women s financial autonomy and respectability She highlights in particular the figure of the *cocotte* *Kokotte* a specific type of prostitute who capitalized on the illusion of respectable or upstanding womanhood and therefore confounded easy categorization By exploring the semantic connections between the figure of the *cocotte* and the act of flirtation of being *coquette* Smith s work presents flirtation as a type of social interaction through which both prostitutes and non prostitutes in Imperial and Weimar Berlin could express extramarital sexual desire and agency

**Facing Fear** Michael Laffan, Max Weiss, 2012-10-14 Fear is ubiquitous but slippery It has been defined as a purely biological reality derided as an excuse for cowardice attacked as a force for social control and even denigrated as an unnatural condition that has no place in the disenchanted world of enlightened modernity In these times of institutionalized insecurity and global terror Facing Fear sheds light on the meaning diversity and dynamism of fear in multiple world historical contexts and demonstrates how fear universally binds us to particular presents but also to a broad spectrum of memories stories and states in the past From the eighteenth century Peruvian highlands and the California borderlands to the urban cityscapes of contemporary Russia and India this book collectively explores the wide range of causes experiences and explanations of this protean emotion The volume contributes to the thriving literature on the history of emotions and destabilizes narratives that have often understood fear in very specific linguistic cultural and geographical settings Rather by using a comparative multidisciplinary framework the book situates fear in more global terms breaks new ground in the historical and cultural analysis of emotions and sets out a new agenda for further research In addition to the editors the contributors are Alexander Etkind Lisbeth Haas Andreas Killen David Lederer Melani McAlister Ronald Schechter Marla Stone Ravi Sundaram and Charles Walker      **Women in German Yearbook 2005** Marjorie Gelus, Helga W.

symptomatology The essays explore the personal traumas of soldiers and civilians in the wake of the First World War they also discuss how memory and representations of trauma are transmitted between patients doctors and families across generations The book argues that so far the traumatic effects of the war have been substantially underestimated Trauma was shaped by gender politics and personality To uncover the varied forms of trauma ignored by medical and political authorities this volume draws on diverse sources such as family archives and narratives by children of traumatized men documents from film and photography memoirs by soldiers and civilians This innovative study challenges us to re examine our approach to the complex psychological effects of the First World War      *International Adventures* Tim Bergfelder, 2005-09-01 West German cinema of the 1960s is frequently associated with the emergence of a new generation of filmmakers collectively known by the 1970s as the New German Cinema Yet for domestic and international audiences at the time German cinema primarily meant popular genres such as exotic adventure films Gothic crime thrillers westerns and sex films which were dismissed by German filmmakers and critics of the 1970s as Daddy s Cinema *International Adventures* provides the first comprehensive account of these genres and charts the history of the West German film industry and its main protagonists from the immediate post war years to its boom period in the 1950s and 1960s By analyzing film genres in the context of industrial practices literary traditions biographical trajectories and wider cultural and social developments this book uncovers a forgotten period of German filmmaking that merits reassessment *International Adventures* firmly locates its case studies within the wider dynamic of European cinema In its study of West German cinema s links and co operations with other countries including Britain France and Italy the book addresses what is perhaps the most striking phenomenon of 1960s popular film genres the dispersal and disappearance of markers of national identity in increasingly international narratives and modes of production
