Luther And The Peasants War Luthers Actions And Reactions:

Luther and the Peasants' War Robert N. Crossley, 1974 The Concept of Just War in Judaism, Christianity and Islam Georges Tamer, Katja Thörner, 2021-09-07 For Jews Christians and Muslims as for all human beings military conflicts and war remain part of the reality of the world The authoritative writings of Judaism Christianity and Islam namely the Hebrew Bible the New Testament and the Koran as well as the theological and philosophical traditions based on them bear witness to this fact Showing the influence of different historical political situations various views sometimes quite similar sometimes more divergent have developed in the three religions to justify the waging of war under certain circumstances Such views have also been integrated in different ways into legal systems while in certain cases theologies have provide legitimation for military expansion and atrocities The aim of the volume *The Concept of Just War in Judaism Christianity and Islam* is to explore the respective understanding of just war in each one of these three religions and to make their commonalities and differences discursively visible In addition it highlights and explains the significance of the topic to the present time Can the concepts developed in the Jewish Christian and Islamic traditions in order to justify war serve as a foundation for contemporary peace ethics Or do religious arguments always add fuel to the fire in armed conflict The contributions in this volume will help provide answers to these and other socially and politically relevant questions *Martin Luther's Theology of Two Kingdoms in Buddhist and Christian Communities* Pa Yaw, 2024-05-29 Socially engaged religion teaches that people of faith have a responsibility to address and reduce suffering in all its forms both physical and spiritual including suffering resulting from social injustice exploitation oppression false faith and so forth True religion engages with society to alleviate suffering and bring transformation In other words religious violence is an obscenity a deviation from the true character of religion Martin Luther s *Theology of Two Kingdoms in Buddhist and Christian Communities* examines the principle of separation between religion and politics in the context of both Buddhist and Christian communities In predominantly Buddhist contexts such as Myanmar where a reciprocal relationship between religion and politics is expected separation is not effective Attempts by Christians to separate religion and politics cause the church to run away from tyranny and follow the state with blind obedience Martin Luther s model of two distinct but interconnected systems for religion and politics creates space for each institution to give constructive advice and criticism to the other for the health of all human beings

Protestant Resistance in Counterreformation Austria Peter Thaler, 2020-02-28 Protestant Resistance in Counterreformation Austria examines Austrian Protestants who actively resisted the Habsburg Counterreformation in the early seventeenth century While a determined few decided early on that only military means could combat the growing pressure to conform many more did not reach that conclusion until they had been forced into exile Since the climax of their activism coincided with the Swedish intervention in the Thirty Years War the study also analyzes contemporary Swedish policy and the resulting Austro Swedish interrelationship Thus a history of state and religion in the early modern Habsburg

Monarchy evolves into a prime example of *histoire croisée* of historical experiences and traditions that transcend political borders The book does not only explore the historical conflict itself however but also uses it as a case study on societal recollection Austrian nation building which tenuously commenced in the interwar era but was fully implemented after the restoration of Austrian statehood in 1945 was anchored in a conservative ideological tradition with strong sympathies for the Habsburg legacy This ideological perspective also influenced the assessment of the confessional period The modern representation of early modern conflicts reveals the selectivity of historical memory

Middle Ages to modernity brings that tumultuous period vividly to life Carlos Eire popular professor and gifted writer chronicles the two hundred year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day Eire connects the Protestant and Catholic Reformations in new and profound ways and he demonstrates convincingly that this crucial turning point in history not only affected people long gone but continues to shape our world and define who we are today The book focuses on the vast changes that took place in Western civilization between 1450 and 1650 from Gutenberg s printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years War Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism skepticism and secularism and he takes into account the expansion of European culture and religion into other lands particularly the Americas and Asia He also underscores how changes in religion transformed the Western secular world A book created with students and nonspecialists in mind Reformations is an inspiring provocative volume for any reader who is curious about the role of ideas and beliefs in history
