Lynching A Novel:

The Twenty-first Century African American Novel and the Critique of Whiteness in Everyday Life E. Lâle Demirtürk, 2016-05-25 This book examines the post 9 11 African American novels developing a new critical discourse on everyday discursive practices of whiteness The critique of everyday life in the racial context of post 9 11 American society is important in considering diverse forms of the lived experiences and subjectivities of black people in the novels They help us see that African American representations of the city have political significance in that the neo urban novel explores the possibility of a black dialogic communication to build a transformative social change Since the real power of Whiteness lies in its discursive power the book reveals the urgency to understand not only how whiteness works in everyday life in American society But it also explores how to cultivate new possibilities of configuring and performing Blackness differently as a response to the post 9 11 configurations of the culture of fear to produce new ways of interactional social relations that can eventually open up the space of critical awareness for white people to work against rather than reinforce discursive practices of White supremacy in everyday life This book explores how the multiple subjectivities and transformative acts of blackness can offer ways of subverting the discursive power of the white embodied practices What defines post 9 11 America as a nation that is consumed by the fear of racialized terrorists is its roots in the fear of uncontrollable Blackness as excess and ominous threat in the domestic terrain through which the ideology of White supremacy has constructed for governing through Whiteness African American urban novels published in the twenty first century respond to the discursive power of normative Whiteness that regulates black bodies selves and lives This book demonstrates how black people contest white dominant social spaces as sites of black criminality and exclusion in an attempt to re signify them as the sites of black transformative change through personal and grassroots activism through their performativity of Blackness as an agential identity formation in their interpersonal urban social encounters with white people Hence the vulnerable spaces of Whiteness in interracial urban encounters as it pervasively addresses those moments of transformative change enacted by Black characters in the face of the discursive practices of whiteness in the everyday life These novels celebrate multifarious representations of black individuals who are capable of using their agency to subvert White discursive power in finding ways in their personal and grassroots activism to transform the culture of fear that locates Blackness as such in an attempt to make a difference in the American society at large

Witnessing Lynching Anne P. Rice, 2003 Their words provide today's reader with a chance to witness lynching and better understand the current state of race relations in America BOOK JACKET

Lynd Ward's Wordless Novels, 1929-1937 Grant F. Scott, 2022-05-30 This book offers the first multidisciplinary analysis of the wordless novels of American woodcut artist and illustrator Lynd Ward 1905 1985 who has been enormously influential in the development of the contemporary graphic novel The study examines his six pictorial novels each part of an evolving experiment in a new form of visual narrative that offers a keen intervention in the cultural and sexual politics of the 1930s

The novels form a discrete group much like Beethoven's piano sonatas or Keats's great odes in which Ward evolves a unique modernist style cinematic expressionist futurist realist documentary and grapples with significant cultural and political ideas in a moment when the American experiment and capitalism itself hung in the balance In testing the limits of a new narrative form Ward's novels require a versatile critical framework as sensitive to German Expressionism and Weimar cinema as to labor politics and the new energies of proletarian homosexuality

Crime of Lynching United States. Congress. Senate. Committee on the Judiciary, 1940 [American Literature, Lynching, and the Spectator in the Crowd](#) Debbie Lelekis, 2015-10-08 American Literature Lynching and the Spectator in the Crowd Spectacular Violence examines spectatorship in American literature at the turn of the twentieth century focusing on texts by Theodore Dreiser Miriam Michelson Irvin S Cobb and Paul Laurence Dunbar The spectator functions as a lens through which we view the relationship between violence and social change as depicted in the politically charged crowds of fictional lynch mob scenes that expose the central tension of American democracy the struggle for balance between the rights of the individual and the demands of the community This has played out in American fiction through clashes between crowds and the primarily rural images that have so often been used to describe America While this pastoral vision of America has dominated the study of American literature this book argues for a reassessment of fiction that takes into consideration that the way the country defines itself collectively is as significant as the way its people define themselves individually This study distinguishes itself from others by bringing together journalism crowds lynching spectatorship and literature in new and innovative ways that uncover how American literature at the turn of the twentieth century confronted and pushed beyond passive observation and static visual performances which are traditionally associated with the terms spectator and spectacle The crowds in fictional lynch mob scenes clash with the idea of positive collective action because the crowd's vigilantism defies legitimate legal and democratic processes Lynch mobs in contrast to other crowds like strikes or political rallies do not reclaim the democratic process from the control of the powerful and wealthy but rather oppose those practices violently without regard to justice As a figure who is simultaneously within and outside the crowd the spectator often in the form of a reporter character is in a unique position to express the fractures occurring between the individual and the collective in American society Racial conflicts are a key aspect of the crowd scenes examined American writers contended with these issues by using the spectator to observe question and challenge readers to consider the impact on the structure of American society

Disabilities of the Color Line Dennis Tyler, 2022-02-15 Winner of the 2023 Phi Beta Kappa Christian Gauss Award Honorable Mention for the 2022 Robert K Martin Book Prize from the Canadian Association for American Studies CAAS ASALH 2023 Book Prize Finalist Reveals how disability and disablement have shaped Black social life in America Through both law and custom the color line has cast Black people as innately disabled and thus unfit for freedom incapable of self governance and contagious within the national body politic Disabilities of the Color Line maintains that the Black literary tradition historically has inverted this

casting by exposing the disablement of racism without disclaiming disability In place of a triumphalist narrative of overcoming where both disability and disablement alike are shunned Dennis Tyler argues that Black authors and activists have consistently avowed what he calls the disabilities of the color line the historical and ongoing anti Black systems of division that maim immobilize and stigmatize Black people In doing so Tyler reveals how Black writers and activists such as David Walker Henry Box Brown William and Ellen Craft Charles Chesnutt James Weldon Johnson and Mamie Till Mobley have engaged in a politics and aesthetics of redress modes of resistance that in the pursuit of racial and disability justice acknowledged the disabling violence perpetrated by anti Black regimes in order to conceive or engender dynamic new worlds that account for people of all abilities While some writers have affirmed disability to capture how their bodies minds and health have been made vulnerable to harm and impairment by the state and its citizens others assertion of disability symbolizes a sense of community as well as a willingness to imagine and create a world distinct from the dominant social order

Literary Executions John Cyril Barton, 2014-07-15 In Literary Executions John Barton analyzes nineteenth century representations of responses to and arguments for and against the death penalty in the United States The author creates a generative dialogue between artistic relics and legal history Novels short stories poems and creative nonfiction engage with legislative reports trial transcripts legal documents newspaper and journal articles treatises and popular books like *The Record of Crimes and The Gallows the Prison and the Poor House* all of which participated in the debate over capital punishment Barton focuses on several canonical figures James Fenimore Cooper Nathaniel Hawthorne Lydia Maria Child Walt Whitman Herman Melville and Theodore Dreiser and offers new readings of their work in light of the death penalty controversy Barton also gives close attention to a host of then popular but now forgotten writers particularly John Neal Slidell MacKenzie William Gilmore Simms Sylvester Judd and George Lippard whose work helped shape or was in turn shaped by the influential anti gallows movement As illustrated in the book's epigraph by Samuel Johnson Depend upon it Sir when a man knows he is to be hanged in a fortnight it concentrates his mind wonderfully Barton argues that the high stakes of capital punishment dramatize the confrontation between the citizen subject and sovereign authority In bringing together the social and the aesthetic Barton traces the emergence of the modern State's administration of lawful death The book is intended primarily for literary scholars but cultural and legal historians will also find value in it as will anyone interested in the intersections among law culture and the humanities

Lynchings in Mississippi Julius E. Thompson, 2015-06-08 Lynching occurred more in Mississippi than in any other state During the 100 years after the Civil War almost one in every ten lynchings in the United States took place in Mississippi As in other Southern states these brutal murders were carried out primarily by white mobs against black victims The complicity of communities and courts ensured that few of the more than 500 lynchings in Mississippi resulted in criminal convictions This book studies lynching in Mississippi from the Civil War through the civil rights movement It examines how the crime unfolded in the state and assesses the large number of deaths

the reasons the distribution by counties cities and rural locations and public responses to these crimes The final chapter covers lynching s legacy in the decades since 1965 an appendix offers a chronology

Preaching the Blues Maisha S. Akbar,2019-10-02 *Preaching the Blues* Black Feminist Performance in Lynching Plays examines several lynching plays to foreground black women s performances as non normative subjects who challenge white supremacist ideology Maisha S Akbar re maps the study of lynching drama by examining plays that are contingent upon race based settings in black households versus white households She also discusses performances of lynching plays at Historically Black Colleges and Universities HBCUs in the South and reviews lynching plays closely tied to black school campuses By focusing on current examples and impacts of lynching plays in the public sphere this book grounds this historical form of theatre in the present day with depth and relevance Of interest to scholars and students of both general Theatre and Performance Studies and of African American Theatre and Drama *Preaching the Blues* foregrounds the importance of black feminist artists in lynching culture and interdisciplinary scholarship

In the Shadow of the Black Beast Andrew B. Leiter,2010-05 Andrew B Leiter presents the first book length study of the sexually violent African American man or black beast as a composite literary phenomenon According to Leiter the black beast theme served as a fundamental link between the Harlem and Southern Renaissances with writers from both movements exploring its psychological cultural and social ramifications Indeed Leiter asserts that the two groups consciously engaged one another s work as they struggled to define roles for black masculinity in a society that viewed the black beast as the *raison d tre* for segregation Leiter begins by tracing the nineteenth century origins of the black beast image and then provides close readings of eight writers who demonstrate the crucial impact anxieties about black masculinity and interracial sexuality had on the formation of American literary modernism James Weldon Johnson s *The Autobiography of an Ex Colored Man* Walter White s *The Fire in the Flint* George Schuyler s *Black No More* William Faulkner s *Light in August* Margaret Mitchell s *Gone with the Wind* Allen Tate s *The Fathers* Erskine Caldwell s *Trouble in July* and Richard Wright s *Native Son* as well as other works provide strong evidence that perceptions of black male sexual violence shaped segregation protest traditions and the literature that arose from them Leiter maintains that the environment of southern race relations which allowed such atrocities as the Atlanta riot of 1906 numerous lynchings Virginia s Racial Integrity Act and the Scottsboro trials influenced in part the development of both the Harlem and Southern Renaissances While the black beast image had the most pernicious impact on African American individual and communal identities he says the threat of black masculinity also shaped concepts of white national and communal identities as well as white femininity and masculinity *In the Shadow of the Black Beast* signals a fresh interpretation of a literary stereotype within its social and historical context

Hollywood Riots Doug Dibbern, 2015-12-17 The large literature about the politics of Hollywood in the period of McCarthy and the blacklist has largely overlooked political filmmaking during those agitated years Hollywood Riots examines the most vibrant cycle of independently produced political films made while House Committee on Un American Activities was investigating communists in the film industry In doing so it shifts the focus from the politics of Washington to the politics of Los Angeles and from the films of the Hollywood Ten to the more politically complex films of the progressive community at large Dibbern shows how the movies produced by progressives at the end of the 1950s including The Lawless The Sound of Fury The Underworld were the logical cinematic parallel to their political and journalistic advocacy fighting the conservative newspapers In these films they were recasting political events from California s recent past as politically engaged narratives that were inflected with their own fears of persecution Hollywood Riots re views the work of notable directors like Joseph Losey and Cy Endfield as well as introducing unheralded political screenwriters and directors such as Daniel Mainwaring Jo Pagano and Leo C Popkin

Blood at the Root Jennie Lightweis-Goff,2011-08-31 In *Blood at the Root* winner of the SUNY Press 2009 Dissertation First Book Prize in African American Studies Jennie Lightweis Goff examines the centrality of lynching to American culture focusing particularly on the ways in which literature popular culture and art have constructed the illusion of secrecy and obsolescence to conceal the memory of violence Including critical study of writers and artists like Ida B Wells Barnett Richard Wright William Faulkner George Schuyler and Kara Walker Lightweis Goff also incorporates her personal experience in the form of a year long travelogue of visits to lynching sites Her research and travel move outside the American South and rural locales to demonstrate the fiction of confining racism to certain areas of the country and the denial of collective responsibility for racial violence Lightweis Goff seeks to implicate societal attitude in the actions of the few and to reveal the legacy of violence that has been obscured by more valiant memories in the public sphere In exploring the ways that spatial and literary texts replace lynching with proclamations of innocence and regret Lightweis Goff argues that racial violence is an incompletely erupted trauma of American life whose very hiddenness links the past to still present practices of segregation and exclusion

A History of American Crime Fiction Chris Raczkowski,2017-10-26 *A History of American Crime Fiction* places crime fiction within a context of aesthetic practices and experiments intellectual concerns and historical debates generally reserved for canonical literary history Toward that end the book is divided into sections that reflect the periods that commonly organize American literary history with chapters highlighting crime fiction s reciprocal relationships with early American literature romanticism realism modernism and postmodernism It surveys everything from 17th century execution sermons the detective fiction of Harriet Spofford and T S Eliot s *The Waste Land* to the films of David Lynch HBO s *The Sopranos* and the podcast *Serial* while engaging a wide variety of critical methods As a result this book expands crime fiction s significance beyond the boundaries of popular genres and explores the symbiosis between crime fiction and canonical literature that sustains and energizes both

Spiritual, Blues, and Jazz People in African American Fiction A. Yemisi Jimoh,2002 In this book A Yemisi Jimoh demonstrates the critical influence of music on the fiction of various twentieth century African American writers Exploring novels and short stories by Toni Morrison John Edgar Wideman Zora Neale Hurston James

Baldwin Ralph Ellison and others Jimoh shows how black musical traditions specifically Spirituals Blues and Jazz are used to shape characterizations and thematic content and to evince ideas emotions and experiences The author s analysis situates the literary texts she discusses within the diverse social energies of their times and locates important intersections where music history politics and literature meet Jimoh carefully distinguishes among the different musical forms and shows how in fiction they are transformed into rich metaphors She explains for example how characters and themes drawing on the Spiritual Gospel tradition de emphasize human agency depicting earthly survival as a transitory state and heavenly triumph as a victory By contrast in Blues fiction characters must often negotiate an environment of alienation change and uncertainty in order to achieve a more earthly triumph even if that triumph is only survival Jazz fiction meanwhile goes beyond Blues and Spiritual expressions to explore new realms revealing a space for infinite options radical change resistance and revolution This innovative book examines novels that have not previously received extensive attention including Albert Murray s *Train Whistle Guitar* Wallace Thurman s *The Blacker the Berry* and Ann Petry s *The Street* At the same time it brings fresh and intriguing readings to such widely studied works as Ellison s *Invisible Man* and Morrison s *Sula* Finally it suggests some exciting directions for future study as new generations of African American musicians and writers continue to develop and expand on established traditions and forms

The Author A Yemisi Jimoh is an associate professor of English at the University of Arkansas Fayetteville Her articles have appeared in *African American Review* *Contemporary African American Novelists* and other publications

Drawing the Line Doreen Fowler, 2013-05-06 In an original contribution to the psychoanalytic approach to literature Doreen Fowler focuses on the fiction of four major American writers William Faulkner Richard Wright Flannery O Connor and Toni Morrison to examine the father s function as a border figure Although the father has most commonly been interpreted as the figure who introduces opposition and exclusion to the child Fowler finds in these literary depictions fathers who instead support the construction of a social identity by mediating between cultural oppositions Fowler counters the widely accepted notion that boundaries are solely sites of exclusion and offers a new theoretical model of boundary construction She argues that boundaries are mysterious dangerous in between places where a balance of sameness and difference makes differentiation possible In the fiction of these southern writers father figures introduce a separate cultural identity by modeling this mix of relatedness and difference Fathers intervene in the mother child relationship but the father is also closely related to both mother and child This model of boundary formation as a balance of exclusion and relatedness suggests a way to join with others in an inclusive multicultural community and still retain ethnic racial and gender differences Fowler s model for the father s mediating role in initiating gender race and other social differences shows not only how psychoanalytic theory can be used to interpret fiction and cultural history but also how literature and history can reshape theory

McDonald, 2006-01-24 Erskine Caldwell has been compared to literary giants like Faulkner and Hemingway yet he has also been reviled as peddler of pop trash Was he a genius or just a shooting star whose brilliance faded long before he stopped writing Caldwell began his career in the late 1920s and gained fame for revealing the gritty backwoods South in novels such as his seminal *Tobacco Road* He wrote prolifically sometimes as much as a book a year As the editor of this book maintains perhaps anyone who wrote so much would inevitably stumble These 12 essays explore a variety of issues They discuss Caldwell as humorist social commentator modernist and revolutionary novelist They examine his themes and tropes political images social injustice the environment ideological struggles and his use of artistic devices short stories cubist strategies repetition A generous bibliography includes not only books on Caldwell but also chapters and forewords journal articles essays news items and obituaries The reader is encouraged to look at Caldwell with fresh eyes to press beyond his controversial image and to compare his works especially his early ones to those of any of the top names in literature

Violence, Visual Culture, and the Black Male Body Cassandra Jackson, 2011-04-13 From early photographs of disfigured slaves to contemporary representations of bullet riddled rappers images of wounded black men have long permeated American culture While scholars have fittingly focused on the ever present figure of the hypermasculine black male little consideration has been paid to the wounded black man as a persistent cultural figure This book considers images of wounded black men on various stages including early photography contemporary art hip hop and new media Focusing primarily on photographic images Jackson explores the wound as a specular moment that mediates power relations between seers and the seen Historically the representation of wounded black men has privileged the viewer in service of white supremacist thought At the same time contemporary artists have deployed the figure to expose and disrupt this very power paradigm Jackson suggests that the relationship between the viewer and the viewed is not so much static as fluid and that wounds serve as intricate negotiations of power structures that cannot always be simplified into the condensed narratives of victims and victimizers Overall Jackson attempts to address both the ways in which the wound has been exploited to patrol and contain black masculinity as well as the ways in which twentieth century artists have represented the wound to disrupt its oppressive implications
