Watson,2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by

suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets *The Poetics of American Song Lyrics* Charlotte Pence,2012-01-02 The Poetics of American Song Lyrics is the first collection of academic essays that regards songs as literature and that identifies intersections between the literary histories of poems and songs The essays by well known poets and scholars including Pulitzer Prize winner Claudia Emerson Peter Guralnick Adam Bradley David Kirby Kevin Young and many others locate points of synthesis and separation so as to better understand both genres and their crafts The essayists share a desire to write on lyrics in a way that moves beyond sociological historical and autobiographical approaches and explicates songs in relation to poetics Unique to this volume the essays focus not on a single genre but on folk rap hip hop country rock indie soul and blues The first section of the book provides a variety of perspectives on the poetic history and techniques within songs and poems and the second section focuses on a few prominent American songwriters such as Bob Dylan Bruce Springsteen and Michael Stipe Through conversational yet in depth analyses of songs the essays discuss sonnet forms dramatic monologues Modernism ballads blues poems confessionalism Language poetry Keatsian odes unreliable narrators personas poetic sequences rhythm rhyme transcription methods the writing process and more While the strategies of explication differ from essay to essay the nexus of each piece is an unveiling of the poetic history and poetic techniques within songs *English-French Translation* Christophe Gagne,Emilia Wilton-Godberfforde,2020-12-29 English French Translation A Practical Manual allows advanced learners of French to develop their translation and writing skills This book provides a deeper understanding of French grammatical structures the nuances of different styles and registers and helps increase knowledge of vocabulary and idiomatic language The manual provides a wealth of practical tasks based around carefully selected extracts from the diverse text types students are likely to encounter from literary and expository to persuasive and journalistic A mix of shorter targeted activities and lengthier translation pieces guides learners through the complexities and challenges of translation from English into French This comprehensive manual is ideal for advanced undergraduate and postgraduate students in French language and translation *Natural Language Processing and Information Systems* Elisabeth Métais,Farid Meziane,Sunil Vadera,Vijayan Sugumaran,Mohamad Saraee,2019-06-20 This book constitutes the refereed proceedings of the 24th International Conference on Applications of Natural Language to Information Systems NLDB 2019 held in Salford UK in June 2019 The 21 full papers and 16 short papers were carefully reviewed and selected from 75 submissions The papers are organized in the following topical sections argumentation mining and applications deep learning neural languages and NLP social media and web analytics question answering corpus analysis semantic web open linked data and ontologies natural language in conceptual modeling natural language and ubiquitous computing and big data and business intelligence **Transnational Hallyu** Kyong Yoon Yong Jin,Kyong Yoon,Wonjung Min,2021-06-29 While the influence of Western Anglophone popular culture has continued in the global cultural market the
