vernacular Italian and were specifically composed to make astronomical principles and practices available to a lay reader The book includes modern editions of the original Italian texts and an English translation of both treatises all appended as Electronic Supplementary Material to the online edition while also examining the contents of each treatise in depth It explores the way in which Piccolomini addresses the theoretical underpinnings of the science of astronomy in his *De la Sfera del Mondo* by providing a version of Sacrobosco's *De sphaera* which he has expanded and updated to include the views of more recent natural philosophers and astronomers The book also presents an extended study of *De le Stelle Fisse* and the unique method that Piccolomini devised for observing the stars as well as explanatory notes on the sources behind his explanations of the mythographic sources of each constellation In addition to this the book presents a detailed examination of the cultural context in which Piccolomini wrote his treatises focussing on such issues as how astronomy was taught in Italian universities in the 16th century the on going debates on the viability of Italian as language as a means for discussing scientific ideas and how Piccolomini navigated through the competitive and complicated world of book production in 16th century Venice Given that Piccolomini originally dedicated both treatises to his female friend the Sienese aristocrat Laudomia Forteguerri there is also a discussion of the mysteries behind their personal relationship of the dynamics of Sienese society at the time and in particular the role that the Sienese Accademia degli Intronati played in Piccolomini's own intellectual development and the composition of his astronomical treatises This book is a companion volume to Alessandro Piccolomini's *Early Astronomical Works II An Examination of Their Scientific Content* by Elly Dekker in the same series The two volumes are jointly available as print set with ISBN 978 3 031 76964 1 [The Female Voice](#) Petra Wend, 1990

[Music, Myth and Story in Medieval and Early Modern Culture](#) Katherine Butler, Samantha Bassler, 2019 The complex relationship between myths and music is here investigated Myths and stories offer a window onto medieval and early modern musical culture Far from merely offering material for musical settings authoritative tales from classical mythology ancient history and the Bible were treated as foundations for musical knowledge Such myths were cited in support of arguments about the uses effects morality and preferred styles of music in sources as diverse as theoretical treatises defences or critiques of music art sermons educational literature and books of moral conduct Newly written literary stories too were believed capable of moral instruction and influence and were a medium through which ideas about music could be both explored and transmitted How authors interpreted and weaved together these traditional stories or created their own reveals much about changing attitudes across the period Looking beyond the well known figure of Orpheus this collection explores the myriad stories that shaped not only musical thought but also its styles techniques and practices The essays show that music itself performed and created knowledge in ways parallel to myth and worked in tandem with old and new tales to construct social political and philosophical views This relationship was not static however as the Enlightenment dawned the once authoritative gods became comic characters and myth became a medium for ridicule Overall the book provides a

foundation for exploring myth and story throughout medieval and early modern culture and facilitating further study into the Enlightenment and beyond KATHERINE BUTLER is a senior lecturer in music at Northumbria University SAMANTHA BASSLER is a musicologist of cultural studies a teaching artist and an adjunct professor in the New York metropolitan area Contributors Jamie Apgar Katie Bank Samantha Bassler Katherine Butler Elina G Hamilton Sigrid Harris Ljubica Ilic Erica Levenson John MacInnis Patrick McMahon Aurora Faye Martinez Jacomien Prins Tim Shephard Jason Stoessel F rdia J Stone Davis Amanda Eubanks Winkler

Baudelaire's Bitter Metaphysics Aaron Brice Cummings, 2024-09-12 Baudelaire's Bitter Metaphysics Anti Nihilist Readings by Fondane Benjamin and Sartre reconstructs a philosophical dialogue that might have been expected to take place between Benjamin Fondane Walter Benjamin and Jean Paul Sartre over their philosophical readings of Charles Baudelaire an exchange preempted by the untimely deaths of two of the interlocutors during the Nazi holocaust Why did three of Europe's sharpest minds respond to the terror of 1933-45 by writing about a long dead poet Aaron Brice Cummings argues that Fondane Benjamin and Sartre turned to the poet of nihilism's abyss because they recognized a fact of cultural history that remains relevant today until sometime in the 2080s the literary world will have to confront even if to deny the two century window forecast by Nietzsche as the age of cultural and existential nihilism Accordingly the author examines the bitter metaphysics latent in Baudelaire's motifs of the abyss clocks brutes streets and bored dandies In so doing this book confronts the nothingness which modern life encounters in the heart of art ethics ideality time memory history urban life and religion
