Four Plays by Aristophanes Aristophanes,1984-11-01 Whether his target is the war between the sexes or his fellow playwright Euripides Aristophanes is the most important Greek comic dramatist and one of the greatest comic playwrights of all time His writing at once bawdy and delicate brilliantly fuses serious political satire with pyrotechnical bombast establishing the tradition of comedy as high art His messages are as timely and relevant today as they were in ancient Greece and his plays still provoke laughter and thought This volume features four celebrated masterpieces Lysistrata The Frogs The Birds and The Clouds translated by three of the most distinguished translators and classicists of our time Aristophanes' Lysistrata, The Birds, The Clouds, The Frogs W. John Campbell,James L. Classical Reception Anastasia Bakogianni, Luis Unceta Gómez, 2024-07-22 In a time of acute crisis when our societies face a complex series of challenges race gender inclusivity changing pedagogical needs and a global pandemic we urgently need to re access the nature of our engagement with the Classical World This edited collection argues that we need to discover new ways to draw on our discipline and the material it studies to engage in meaningful ways with these new academic and societal challenges The chapters included in the collection interrogate the very processes of reception and continue the work of destabilising the concept of a pure source text or point of origin Our aim is to break through the boundaries that still divide our ancient texts and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world
