Klähn,2023-12-04 This thirteenth volume of the International Yearbook of Futurism Studies explores some of the many facets  
of Neo Futurism from the second half of the twentieth century to the present day It looks both at the revival and the  
continuation of Futurist aesthetics whether in explicit or palimpsest form in a variety of media literature visual art design  
music architecture theatre and photography The essays delve into the broad spectrum of artistic research and offer a good  
dozen case studies that document with a transnational and interdisciplinary orientation the manifold forms of Neo Futurism  
in various parts of the world They investigate how historical Futurism's intellectual and artistic perspective was appropriated  
and developed further in a more or less conscious faithful and original way all the while confronting its progenitor's cultural  
social and political misconceptions Interdisciplinary contributions to neo futurism as a global phenomenon      **Massimo Iosa**  
**Ghini** Maurizio Corrado,1989      **Chronicles of Care: A Design History of the COVID-19 Virus** Paul A.  
Rodgers,Fernando Galdon,Craig Bremner,2024-04-16 The Covid 19 crisis and the designed interventions that the authors  
have catalogued in this book prove definitively that design does care The authors documented this as it evolved every day  
from the 1st January 2020 to 31st May 2020 inclusive Then they looked at all of this care and caring from the point of view of  
design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis What  
the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant Money could not  
save your life Only design could Rapidly designed masks shelters hospitals instructional posters infographics dashboards  
respirators sanitisers virtual and local communities emerged to save us From January 2020 design became king The Covid 19  
global pandemic presented an ontological reality design is more than margins or profit In fact design became extremely  
valuable when it stopped concentrating on those things and started to care about people's lives This brief episode in history is  
still repositioning the status of design and reconfiguring its signifier from consumption to care The contents of this book  
cover the outbreak lockdown and the beginning of the reopening in the UK In between the book functions as a history of  
pandemic crisis design interventions As such it is a research in the moment project where we have illustrated our thoughts  
and insights in tables charts and diagrams We have accepted all design interventions as valid and given them the same role  
and status by presenting each of them in a standard format No curation No selection No position The task of critical analysis  
must follow perhaps by us certainly by others      **Italian Interiors** Prestinenza Puglisi,2014-05-02 Italienische
