Revista de Occidente, 1992. **Contested Markets, Contested Cities** Sara González, 2017-12-12. Markets are at the origin of urban life as places for social, cultural and economic encounter evolving over centuries. Today they have a particular value as mostly independent, non-corporate and often informal work spaces serving millions of the most vulnerable communities across the world. At the same time, markets have become fashionable destinations for foodies and middle-class consumers and tourists looking for authenticity and heritage. The confluence of these potentially contradictory actors and their interests turns markets into contested spaces. *Contested Markets, Contested Cities* provides an analytical and multidisciplinary framework within which specific markets from Mexico City, Buenos Aires, Santiago de Chile, Quito, Sofia, Madrid, London and Leeds, UK are explored. This pioneering and highly original work examines public markets from a perspective of contestation, looking at their role in processes of gentrification but also in political mobilisation and urban justice.

LA ESTACION DE SERVICIOS. LABORATORIO DE ARQUITECTURA RODRIGUEZ ARIAS ALBERTO, 2025-01-15. Esta publicación muestra el importante papel que las estaciones de servicios tuvieron en las vanguardias arquitectónicas de la posguerra en España, además de destacar cómo estas construcciones de tamaño limitado dispersas por la geografía han servido casi desde el anonimato como laboratorio de investigación a sus creadores en una época de cambios radicales en la arquitectura. Desde 1927, año de la construcción de la gasolinera Porto Pi diseñada por Casto Fernández Shaw Iturralde y de la creación del Monopolio de Petróleos en España hasta mediados de la década de los sesenta, fueron numerosos los ejemplos de arquitectura vanguardista que se dieron cita en esta tipología que por otra parte parece estar próxima a su fin tras solamente cien años en servicio. Las estaciones de servicios representaron una nueva tipología arquitectónica sin apenas referencias anteriores, lo que facilitó la ruptura con las tradiciones. Su vinculación directa con el automóvil ya de por sí un invento representativo de la modernidad y su contenida escala la convirtieron en la tipología perfecta con la que experimentar y ensayar nuevas formas y conceptos acordes con las corrientes arquitectónicas llegadas de Europa, acercándolas a la sociedad de un modo más inmediato que otros edificios más arraigados en las tradiciones. Este libro no es solo un análisis del impacto que las gasolineras tuvieron en el panorama arquitectónico, sino que supone además un detallado catálogo de edificios arquitectónicamente interesantes: algunos desaparecidos, otros muy modificados y otros abandonados. A la vez que pretende colaborar con la difusión, puesta en valor y protección de los todavía existentes, evitando pérdidas irreversibles en el patrimonio arquitectónico español.

romana, 2010 *Making Waves Anniversary Volume* Ann Davies, Parvathi Kumaraswami, Claire Williams, 2021-02-10 Gender and women's studies have formed part of the academic landscape for many years but while the field is now established enough to have developed in depth and perspectives there remain many areas of significance yet to be explored most significantly much of the work carried out has remained rooted in the Anglo American context Those working outside this context are increasingly aware of the need to understand women in different cultural contexts in order to determine whether to what extent and how representations of women and cultural contexts are interactive and dynamic concepts The current volume contributes to the growing interest in the field of women and culture in the Hispanic and Lusophone worlds and shows how women writers researchers teachers and students have always made waves to counteract the complacency prejudice and tradition that threatens to ignore or subsume them The volume draws on literary study the starting point for much of the early work on gender in Spain the Lusophone world and Latin America but also goes beyond it to discuss women's interaction not only with literature but also with art and language itself in the Hispanic and Lusophone contexts It acts as a showcase for contemporary scholarship undertaken in Hispanic and Lusophone gender studies developing earlier insights and forging new ones to refine the debate continuing in the subject The contributors include both established scholars with a proven track record and promising newcomers to the field The volume arises from the individual research projects and sustained discussions of Women in Spanish Portuguese and Latin American Studies WiSPs an organisation that exists to promote scholarship by and about women in the field of Iberian Lusophone and Latin American Studies This volume celebrates the first seven years of WiSPs's life and presents some of the research presented under its auspices at annual

conferences and study days La ciudad: espacio colectivo; intereses privados David Porras-Alfaro, Julio Vinuesa-Angulo, 2019-10-17 Con el propósito de aportar al uso racional y sostenible del territorio este libro aborda la confrontación del interés público y privado en la construcción de ciudad desde enfoques teóricos y profesionales. A partir de una visión multidisciplinar y con base en el análisis de casos de estudio españoles y costarricenses la obra contribuye a la reflexión del problema mediante la aportación de 15 autores participantes quienes suman a la controversia entre los derechos de la propiedad privada y el derecho al espacio público como patrimonio común pues son la base del derecho a la ciudad y deben fundamentar las políticas urbanas. Por su carácter de abordaje novedoso el libro está dirigido a todos los profesionales del urbanismo así como a quienes estudian e investigan sobre la ciudad y a quienes tienen responsabilidades desde los poderes públicos para la utilización del espacio y el patrimonio público. La obra se estructura en cinco partes que comprenden una visión desde el suelo la vivienda y el planeamiento urbano la desigualdad y la segregación residencial el patrimonio cultural la propiedad pública y privada y el derecho urbano.
