Song of Sirius Dorothy McManus, 1989-12-01 On this planet everyone is given free will in order to literally experience any kind of life they wish to Then once we have made a choice we must accept our responsibility for it Take feelings for example Do you want to feel happy or sad It's entirely your choice of attitudes Are you honest or do you cheat and then feel guilty Remember you made the decision in the first place Why else would guilt appear Do you condemn others or do you feel compassion for your companions along the way Only you can make these decisions You see it is a process of thoughtforms The thoughts you think and the words you speak actually create and shape the physical world you live in You must never feel that you are alone in these decisions for you are an expression of your Creator who made you in his image Know that he is always with you and has time to listen and be a friend No matter where you are he will be there within you to guide you Discover for yourself your own strength and power within You weren't planted here on an alien planet to be a victim You can choose to walk with a spiritual strength Then you will be able to deal with whatever may come your way What you perceive as misfortune now will always prove to be a blessing for the future
