Moral Imagination Confronting The Ethical Issues Of Our Day:

Moral Imagination Edward Tivnan, 1996-07-12 When it comes to the most controversial moral questions of our lives abortion euthanasia suicide capital punishment racial justice and affirmative action there is a right and wrong but no one owns the truth This book guides us through the opposing arguments on these profound issues opening up ways for our pluralistic society to think about them How does one make up one's mind about the difficult yet everyday inescapable social and moral problems we all face The public debate often degenerates into name calling and even violence Conservatives and liberals alike act as if there is only one way to think In a format that is accessible anecdotal and concrete Edward Tivnan lays out the best arguments on all sides of these visceral topics He explores the most sophisticated thinking from philosophy theology medicine and the law as well as examples from the emotional complexities of everyday life and carefully mediates between opposing ideals not to lead us to a position of convenience but to help us toward independent decisions of conviction Tivnan's analysis therefore does not dictate answers but calls for an effort to understand and respect why people believe so strongly in their own values Only by facing up to our differences of opinion can we make progress expand our moral imagination and achieve a decent and respectful society In concluding chapters Tivnan describes the peculiar nature of American democracy invented by men who knew that freedom would breed conflicting values and expected that such differences would secure the nation's future as a republican democracy The first premise of a decent free society Tivnan writes is tolerance the first sparks of tolerance and decency reside in the imagination what I want to call the moral imagination He concludes that expanding our moral imagination will cleanse debate of hatred and moral arrogance

The Moral Imagination John Paul Lederach, 2010 John Paul Lederach's work in the field of conciliation and mediation is internationally recognized He has provided consultation training and direct mediation in a range of situations from the Miskito Sandinista conflict in Nicaragua to Somalia Northern Ireland Tajikistan and the Philippines His influential 1997 book *Building Peace* has become a classic in the discipline In this book Lederach poses the question How do we transcend the cycles of violence that bewitch our human community while still living in them Peacebuilding in his view is both a learned skill and an art Finding this art he says requires a worldview shift Conflict professionals must envision their work as a creative act an exercise of what Lederach terms the moral imagination This imagination must however emerge from and speak to the hard realities of human affairs The peacebuilder must have one foot in what is and one foot beyond what exists The book is organized around four guiding stories that point to the moral imagination but are incomplete Lederach seeks to understand what happened in these individual cases and how they are relevant to large scale change His purpose is not to propose a grand new theory Instead he wishes to stay close to the messiness of real processes and change and to recognize the serendipitous nature of the discoveries and insights that emerge along the way overwhelmed the equally important creative process Like most professional peacemakers Lederach sees his work as a religious vocation Lederach meditates on

his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation Drawing on his twenty five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art http://www.loc.gov/catdir/enhancements/fy0616/2004011794_d.html **John Dewey and Moral Imagination** Steven Fesmire,2003-09-04 While examining the important role of imagination in making moral judgments John Dewey and Moral Imagination focuses new attention on the relationship between American pragmatism and ethics Steven Fesmire takes up threads of Dewey's thought that have been largely unexplored and elaborates pragmatism's distinctive contribution to understandings of moral experience inquiry and judgment Building on two Deweyan notions that moral character belief and reasoning are part of a social and historical context and that moral deliberation is an imaginative dramatic rehearsal of possibilities Fesmire shows that moral imagination can be conceived as a process of aesthetic perception and artistic creativity Fesmire's original readings of Dewey shed new light on the imaginative process human emotional make up and expression and the nature of moral judgment This original book presents a robust and distinctly pragmatic approach to ethics politics moral education and moral conduct Meeting the Ethical Challenges of Leadership Craig E. Johnson,2023-11-17 Ethics is at the heart of leadership Leaders must make every effort to make ethical decisions and foster ethical behavior among followers The Eighth Edition of Meeting the Ethical Challenges of Leadership Casting Light or Shadow explores the ethical demands of leadership and the dark side of leadership Bestselling author Craig E Johnson takes an interdisciplinary approach drawing from many fields of research to help readers make ethical decisions lead with integrity and create an ethical culture Packed with dozens of real world case studies examples self assessments and applications this fully updated new edition is designed to increase students ethical competence and leadership abilities

Spirit Ethics Paul T. Jersild, 2000 How can Christians responsibly derive moral guidance from the Bible on pressing issues of personal and social morality today Jersild s book sets the context for a study of Scripture and the moral life in a postmodern pluralist society with its impact on biblical studies The ethical contents and authority of Scripture are addressed and a Spirit ethics is proposed as a way of developing a biblically based Christian ethics Christians cannot simply adopt a once and for all set of rules nor simply cite Bible verses against the latest sins Absolutely

essential says Jersild is the ongoing engagement of the church with the moral environment of society and the issues that this raises for the church Jersild applies his model fruitfully and persuasively to three pressing and perplexing issues assisted suicide homosexuality and genetic programs **How to Talk About Hot Topics on Campus** Robert J. Nash, DeMethra LaSha Bradley, Arthur W. Chickering, 2008-02-04 How to Talk About Hot Topics on Campus fills a gap in the student services and teaching and learning literature by providing a resource that shows how to construct and carry out difficult conversations from various vantage points in the academy It offers a theory to practice model of conversation for the entire college campus that will enable all constituencies to engage in productive and civil dialogue on the most difficult and controversial social religious political and cultural topics Nation, Self and Citizenship Randolph S David, 2004-03-04 The present volume invites the student to learn sociology by looking at her own formation as a human being growing up and living in a society that time incessantly shapes and organizes in a specific but ultimately predictable way Instead of talking about society in the abstract we give it names our families our communities the Filipino nation or the vast planet that we must share with the different nations of the world Instead of talking about just anybody s biography we refer to one s own life long project of building and negotiating selfhood as ongoing achievements subject to the blind imprints of the past the contingencies of the present and our individual collective strivings for a better future The discourse of nationhood and social responsibility pervades every area of Philippine social science The Filipino nation is unfinished business and therefore it is understandable that in public discourse the nation s needs take moral precedence over individual fulfillment Thus the book takes up the troubled quest of the modern Filipino for autonomy and meaning in the bosom of his own society a young nation that is itself aspiring to grown into full modern nationhood in a globalized and some say postmodern era From the introduction Lingua Franca ,1995
