Rausch,2010-01-01 Catholic colleges and universities play a crucial role in handing on a rich faith tradition to young adults today As these institutions have become more professional and pluralistic many are asking how effective they are at carrying out the religious mission which is central to their identity Are Catholic colleges and universities significantly different from less expensive state institutions or from other private colleges and universities Are they still committed to the search for truth which is really the search for God Thomas Rausch an eminent educator is a Catholic priest long interested in Catholic theology as a work of the church not just of the academy He insists we must also ask of Catholic higher education today Does it truly form students in the faith that does justice or does it simply speed their passage into successful corporate lifestyles Does it help students come to a personal encounter with the divine mystery revealed in Jesus Keeping these questions before them Rausch and five other contributors to this volume provide wisdom insight and concrete examples of how Catholic higher education can indeed foster faith that leads to a more just world Thomas P Rausch SJ is the T Marie Chilton Professor of Catholic Theology at Loyola Marymount University in Los Angeles He is author of numerous books including I Believe in God A Reflection on the Apostles Creed Being Catholic in a Culture of Choice and Towards a Truly Catholic Church Liturgical Press Faith and Work Timothy Ewest,2018-01-01 Those who adhere to a faith tradition are longing for theories and insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs Yet for Christians respect of other faith traditions is especially

difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off Within the multiple theoretical and research dimensions of management religion and spirituality this book explores theoretical conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace and how these groups attempt to change society as a whole This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace also deemed faith at work Historically Christian s faith integration is manifested individually or collectively and is demonstrated in the ways it shapes and informs the values systems ethics character and attitudes towards work This edited volume draws themes out of the three historical epochs of the faith and work movement traced by Miller 2007 in the book God at work The history and promise of the faith at work movement These organizing themes while not congruent to the historical epochs do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace These themes include Individual integration organizational strategies for integration and societal integration
