scene on the minute by minute events of September 11th before during and after As the Foreign Affairs columnist for the The New York Times Thomas L Friedman is in a unique position to interpret the world for American readers Twice a week Friedman s celebrated commentary provides the most trenchant pithy and illuminating perspective in journalism Longitudes and Attitudes contains the columns Friedman has published about the most momentous news story of our time as well as a diary of his experiences and reactions during this period of crisis As the author writes the book is not meant to be a comprehensive study of September 11 and all the factors that went into it Rather my hope is that it will constitute a word album that captures and preserves the raw unpolished emotional and analytical responses that illustrate how I and others felt as we tried to grapple with September and its aftermath as they were unfolding Readers have repeatedly said that Friedman has expressed the essence of their own feelings helping them not only by explaining who they are but also by reassuring us about who we are More than any other journalist writing Friedman gives voice to America s awakening sense of its role in a changed world
