Queers in American Popular Culture Jim Elledge, 2010-10-06 This three volume collection of essays reveals the widespread existence of queer men and women in American popular culture and showcases their important yet little known role in shaping our society over the last 120 years The virtually unknown existence of gay bisexual and queer men and women in American popular culture from the late 1800s through the present day is a fascinating topic for many readers regardless of their own orientation Whether it's the father of bodybuilding famous closeted entertainers or sports stars or the leading characters in current television shows and films queer men and women have changed the face of American popular culture and society for over a century Ironically most of the fascinating information anecdotes and revealing facts about well known figures in American culture are virtually unknown to the typical U S citizen Elledge's Queers in American Popular Culture covers a wide variety of historical and current topics that documents how the queer community has been and continues to be one of the most significant shapers of American popular culture Currently no other book covers queer topics in American popular culture as broadly as this text Peterson Field Guide to Bird Sounds of Western North America

Nathan Pieplow, 2019 A comprehensive field guide that uses an innovative Sound Index to allow readers to quickly identify unfamiliar songs and calls of birds in western North America Bird songs and calls are at least as important as visual field marks in identifying birds Yet short of memorizing each bird's repertoire it's difficult to sort through them all Now with the western edition of this groundbreaking book it's possible to visually distinguish bird sounds and identify birds using a field guide format At the core of this guide is the spectrogram a visual graph of sound With a brief introduction to five key aspects speed repetition pauses pitch pattern and tone quality readers can translate what they hear into visual recognition without any musical training or auditory memorization The Sound Index groups similar songs together narrowing the identification choices quickly to a brief list of birds that are likely to be confused because of the similarity of their songs Readers can then turn to the species account for more information and or listen to the accompanying audio tracks available online Identifying birds by sound is arguably the most challenging and important skill in birding This book makes it vastly easier to master than ever before

The Way of the Human Being Calvin Martin, 1999-01-01 In this volume Calvin Luther Martin proposes that the Europeans learned what they wished to learn from the native Americans not what the Americans actually meant Drawing on his own experience with native people and on their stories he offers the reader a different conceptual landscape

Lost Mountain Anne Coray, 2021-03-16 The searing debut novel of poet and writer Anne Coray *Lost Mountain* is an impassioned story of love loss environment and politics against a landscape facing threat of destruction Anne Coray the author of three poetry collections has brought her observational and writing skills to fiction that demonstrates both her attention to language and her passion for her home place *Lost Mountain* is many things a love story between the two main characters a portrait of a small and isolated community a mystery a paean to salmon and lives that surround salmon a not very disguised critique of a megamine project and an example of eco fiction environmentally conscious literature Anchorage Daily News When news of an open pit mining project hits the remote Alaskan hometown of Whetstone Cove young widow Dehlia Melven barely takes in the town's nervous chatter The Ziggurat corporation promises the mine will be fifteen times larger than all the mines in Alaska combined but Dehlia's thoughts are consumed by the loss of her late husband and the future of her security At least the new arrival of solar energy expert Alan Lamb brings a distraction and a different dynamic to the small community one that's surprisingly more interesting than expected For Alan Whetstone Cove offers a fresh start to a job away from all the bureaucracy and politics he'd been running away from Plus there's Dehlia the beautiful and enigmatic artist who begins to occupy more and more of Alan's thoughts But

with Ziggurat's looming presence he knows it is only a matter of time before the corporation would take over his livelihood as well as the town's way of life. He can't bear the thought of being connected let alone paid by Ziggurat yet leaving would also mean losing Dehlia forever. Inspired by the Pebble Mine project in Alaska, *Lost Mountain* is an exploration on the interconnectivity of the natural world woven into the narrative of people's strength and resistance. Readers will enter a familiar world where environment plays an encompassing role in not just politics of society but in real relationships and careers and in the hopes and dreams we dare to have. **The Oölogist**, 1891 **Arctic Voices** Subhankar

Banerjee, 2012-07-03 One of the great strengths of *Arctic Voices* is that it shows how Alaska and the Arctic are tied to the places where most of us live. In this impassioned book Banerjee shows a situation so serious that it has created a movement where voices of resistance are gathering, are getting louder and louder. May his heartfelt efforts magnify them. The climate changes that are coming have hit soon and hard in the Arctic and their consequences may be starkest there. Ian Frazier, *The New York Review of Books*. A pristine environment of ecological richness and biodiversity. Home to generations of indigenous people for thousands of years. The location of vast quantities of oil, natural gas and coal. Largely uninhabited and long at the margins of global affairs, in the last decade Arctic Alaska has quickly become the most contested land in recent US history. World renowned photographer, writer and activist Subhankar Banerjee brings together first person narratives from more than thirty prominent activists, writers and researchers who address issues of climate change, resource war and human rights with stunning urgency and groundbreaking research. From Gwich'in activist Sarah James's impassioned appeal *We Are the Ones Who Have Everything to Lose* during the UN Climate Conference in Copenhagen in 2009 to an original piece by acclaimed historian Dan O'Neill about his recent trips to the Yukon Flats fish camps. *Arctic Voices* is a window into a remarkable region. Other contributors include Seth Kantner, Velma Wallis, Nick Jans, Debbie Miller, Andri Snaer Magnason, George Schaller, George Archibald, Cindy Shogan and Peter Matthiessen. *A Broken Flute* Doris Seale, Beverly Slapin, 2006-12-21 *The Winona dilemma* Lois Beardslee, No word for goodbye Mary TallMountain.
