The Minor Poems of John Lydgate
John Lydgate,1911 **Oxford University Press** Oxford University Press,1924 **Reference Catalogue of Current Literature** ,1924 *Interpreting Nightingales* Jeni Williams,1997-07-01 The poetic nightingale is so familiar it seems hardly to merit serious attention Yet its ubiquity is significant suggesting associations with erotic love pathos and art that cross culture and history This book examines the different nightingales of European literature starting with the Greek myth of Philomela the raped girl silenced by having her tongue cut out and then transformed into the bird whose name means poet poetry and nightingale simultaneously Moving from the classical to the Christian worlds Jeni Williams discusses nightingales and nature in the early church and sees the emergence of the figure as an emotive emblem of the aristocracy in mediaeval vernacular debate poetry Her final chapters use the nightingale and the myth to examine Elizabeth Barrett Browning's struggle for an active female voice in Victorian poetry

Mandeville's travels John Mandeville,1919 *The Earliest Arithmetics in English* Robert Steele,1922 **Fatherhood and Its Representations in Middle English Texts** Rachel E. Moss,2013 The figure and role of the late medieval father is reappraised through a close reading of a range of documents from the period including both letters and romances Late medieval English society placed great weight on the practices of primogeniture patrilineal descent and patriarchal government and the significance of the father had cultural resonance beyond the rule of law Yet despite aburgeoning interest in both the family and gender the father has to date received little attention from medievalists This book takes an interdisciplinary approach to the analysis of the fictions of fatherhood the ideological constructs that underpinned late medieval conceptions of fathers and patriarchy Its focus on gentry and mercantile readers and writers also offers new insights into the literary culture of late medieval England by considering how texts were produced and received within gentry and bourgeois communities and demonstrates the ability of texts to not only reflect but also shape hegemonic norms and cultural anxieties Through close examination of late medieval letters and romances it shows how the father was the dominant figure not only of medieval domestic life but also of the medieval imagination Dr RACHEL E MOSS is a Lecturer in History at the University of Northampton
