Machiavelli's Prince Erica Benner, 2013-11 This book gives a radical new chapter by chapter reading of Machiavelli s The Prince arguing that it is an ironic masterpiece with a moral purpose It outlines Machiavelli s most important ironic techniques a normatively coded use of language **Machiavelli's Ethics** Erica Benner, 2009-10-26 Machiavelli s Ethics challenges the most entrenched understandings of Machiavelli arguing that he was a moral and political philosopher who consistently favored the rule of law over that of men that he had a coherent theory of justice and that he did not defend the Machiavellian maxim that the ends justify the means By carefully reconstructing the principled foundations of his political theory Erica Benner gives the most complete account yet of Machiavelli s thought She argues that his difficult and puzzling style of writing owes far more to ancient Greek sources than is usually recognized as does his chief aim to teach readers not how to produce deceptive political appearances and rhetoric but how to see through them Drawing on a close reading of Greek authors including Thucydides Xenophon Plato and Plutarch Benner identifies a powerful and neglected key to understanding Machiavelli This important new interpretation is based on the most comprehensive study of Machiavelli s writings to date including a detailed examination of all of his major works The Prince The Discourses The Art of War and Florentine Histories It helps explain why readers such as Bacon and Rousseau could see Machiavelli as a fellow moral philosopher and how they could view The Prince as an ethical and republican text By identifying a rigorous structure of principles behind Machiavelli s historical examples the book should also open up fresh debates about his relationship to later philosophers including Rousseau Hobbes and Kant Selected Political Writings Niccolò Machiavelli, David

Machiavellis Revivus Nevio Cristante,2011-05-25 From an intensive academic study based primarily on Machiavelli s works critical arguments arise in this text that undermine not only the current day political mind set framework and practices but also the views established academically up to the point where the body politic formed by the Western classical tradition is dissipated and dispersed Comprised in a contrary unconventional manner similar to Machiavelli the basic essential factors of history religion power and authority were formulated as the four main chapters in this work by Nevio Cristante From it one can readily see the flaws today in the false praise in nostalgic historical hubris the forgetting of a brand of religion that is essential for healthy politics the overlooking of coercive forces that reduce politics to power and the loss of true authority In this book Cristante comprises Machiavelli as a virtuous unprecedented extreme humanist in stark contrast to the common incessant interpretations of him being a teacher of evil a diabolical soulless political advisor A subversive satirical interpretation of The Prince has been formed herein extending from the generated knowledge of history and the history of Machiavelli s own experience From the vivacious and unraveling Italian Renaissance a cogent force prompted Machiavelli to create his literary works in order to form an educational cure for the deteriorating human condition of his time and any time There is in Machiavelli a differing sense of newness from that which is commonly known today which circumvents its worth in this distinct educative interpretation Machiavelli goes back in time in order to produce lessons applicable to correct the shortages in his and every present day With a divergent view of the works of art and literature outlined in this analysis Machiavelli s education becomes revived today in creating a virtuous political spiritual and cultural dynamism as a battle cry to repel the ignorance and great misfortunes in our human condition
