Arquitectura II Marco Vitruvio Polión, 2022-05-06 El tratado del arquitecto ingeniero y tratadista Marco Vitruvio Polión es el texto de referencia para conocer de primera mano la teoría y las obras arquitectónicas grecolatinas. Con el *De Architectura* Vitruvio siglo I a C deseaba ofrecer un corpus que condensara todos los conocimientos alcanzados por la teoría arquitectónica griega, cosa que no se había hecho hasta entonces, a decir del propio autor. Además de cuestiones específicamente arquitectónicas: ordenes materiales técnicas de construcción tipos de edificios, el libro informa también sobre pintura y escultura griegas y romanas como artes auxiliares. El abundante contenido unido a las innegables cualidades formales otorga a esta obra una gran trascendencia y la convierte en fuente inestimable para el conocimiento de esta materia. En el Renacimiento fue un texto de primer orden para el acceso a la teoría y a las obras arquitectónicas grecolatinas. El presente volumen completa la actualizada versión castellana preparada minuciosamente por Francisco Manzanero Cano con los últimos cinco libros de los diez que tenía el original.

El jardín en la arquitectura del siglo XX Darío Álvarez, 2019-02-15 Este libro plantea una visión completa del jardín del siglo XX y sugiere los caminos de relación entre la arquitectura y el jardín en el futuro a partir de la experiencia de la cultura moderna. Esta visión general incluye análisis compositivos y espaciales de los jardines y de su relación con la arquitectura. De esta manera se ofrece con carácter exhaustivo una lectura crítica del desarrollo del jardín a lo largo de todo el siglo XX desde los proyectos del movimiento Arts & Crafts hasta las obras de Rem Koolhaas, Bernard Tschumi, Peter Eisenman, Peter Walker, West 8 etc.tera en sus diferentes escalas desde el edificio al paisaje pasando por el espacio urbano. Los ejemplos analizados se han escogido fundamentalmente por constituir aportaciones innovadoras por haber abierto caminos formales por haberse consolidado como modelos originales y por ser ejemplos muy didácticos.

Carlos Ferrater Joan Guibernau, Carlos Ferrater, William J. R. Curtis, 2000 This book provides an overview of the work of Carlos Ferrater one of the most active and internationally acclaimed Spanish architects working today. Recent projects such as the Fitness Center in Barcelona, the Impiva headquarters in Castellón and the Movie Studio in Barcelona represent a new level of architectural brilliance from Ferrater. With the close collaboration of the architect himself this book has been grouped according to the scale of his projects from private housing to urban developments. In addition to his architectural practice Ferrater serves as professor at the Architecture School of Barcelona and has lectured extensively at national and international seminars, congresses and symposia. He was also the director of the Sixth Biennial of Spanish Architecture.

Frank Kennedy, 2016-05-12 Recent years have seen scholars in a wide range of disciplines re-evaluate the history of the Society of Jesus. In 1997 a group of scholars convened a major international conference to discuss the world of the Jesuits between 1540 and 1773 the year of its suppression by papal edict. This meeting led to the creation of the first volume in this series *The Jesuits* which examined the worldwide Jesuit undertaking in such fields as music art architecture devotional writing mathematics physics astronomy natural history public performance and education with special attention to the Jesuits interaction with non European cultures. This second volume following a second conference in 2002 continues in a similar path as its predecessor complementing the regional coverage with contributions on the Flemish and Iberian provinces on the missions in Japan and in post Suppression Russia and the United States. The performing arts like theatre and music are broadly treated and in addition to continued attention to painting and architecture the volume contains essays on a range of objects of art including statuary reliquaries and altar pieces as well as on gardens mechanical clocks and related automata. Other themes include finances natural theology censorship within the Jesuit order and the Society's relationship to women. Perhaps most important the volume gives particular attention to the eighteenth century the age of disasters for the Jesuits the negative papal ruling on Chinese Rites the destruction of the Paraguay Reductions and the suppressions of the order that began in Portugal and that culminated in the general Suppression of 1773. With contributions from distinguished scholars from a dozen different countries *The Jesuits II* continues in the illustrious tradition of its predecessor to make an important contribution to religious memory **Memoria** Argentina.
