States of Marriage Emily S. Burrill, 2015-04-30 States of Marriage shows how throughout the colonial period in French Sudan present day Mali the institution of marriage played a central role in how the empire defined its colonial subjects as gendered persons with certain attendant rights and privileges The book is a modern history of the ideological debates surrounding the meaning of marriage as well as the associated legal and sociopolitical practices in colonial and postcolonial Mali It is also the first to use declassified court records regarding colonialist attempts to classify and categorize traditional marriage conventions in the southern region of the country In French Sudan as elsewhere in colonial Africa the first stage of marriage reform consisted of efforts to codify African marriages bridewealth transfers and divorce proceedings in public records rendering these social arrangements legible to the colonial administration Once this essential legibility was achieved other more forceful interventions to control and reframe marriage became possible This second stage of marriage reform can be traced through transformations in and by the colonial court system African engagements with state making processes and formations of gender justice The latter refers to gender based notions of justice and legal rights typically as defined by governing and administrative bodies as well as by sociopolitical communities Gender justice went through a period of favoring the rights of women to a period of favoring patriarchy to a period of emphasizing the power of the individual but all within the context of a paternalistic and restrictive colonial state
