The Noumenal Republic Rainer Forst, 2024-04-15 All human beings are born with equal dignity and possess equal rights This statement appears normatively just as irrefutable as it is empirically refuted every day But what are the grounds of this principle and how should we think about its realization Its philosophical truth can best be explained by going back to and beyond Kant's notion of a noumenal republic in which every person is an equal co author of the laws that bind all At the same time a critical analysis of society and politics must show the extent to which the reality of power and ideology makes a mockery of this constructivist conception of dignity To bridge the gap between unworldly idealism and practical hopelessness we need a critical theory after Kant Rainer Forst one of the world's most influential political philosophers works to develop just such a theory in this powerful and illuminating volume It contains no less than a new systematic account of concepts such as alienation progress and regression solidarity human rights justice power and non domination The Palgrave Handbook of Critical Theory Michael J. Thompson, 2017-01-20 This handbook is the only major survey of critical theory from philosophical political sociological psychological and historical vantage points It emphasizes not only on the historical and philosophical roots of critical theory but also its current themes and trends as well as future applications and directions It addresses specific areas of interest that have forged the critical theory tradition such as critical social psychology aesthetics and the critique of culture communicative action and the critique of instrumental reason It is intended for those interested in exploring the influential paradigm of critical theory from multiple interdisciplinary perspectives and understanding its contribution to the humanities and the social sciences **Nineteenth-Century Philosophy of Religion** Graham Oppy, N. N. Trakakis, 2014-09-19 The nineteenth century was a turbulent period in the history of the philosophical scrutiny of religion Major scholars such as Hegel Fichte Schelling Newman Caird and Royce sought to construct systematic responses to the Enlightenment critiques of religion carried out by Spinoza and Hume At the same time new critiques of religion were launched by philosophers such as Schopenhauer and Nietzsche and by scholars engaged in textual criticism such as Schleiermacher and Dilthey Over the course of the century the work of Marx Freud Darwin and Durkheim brought the revolutionary perspectives of political economy psychoanalysis evolutionary theory and anthropology to bear on both religion and its study These challenges played a major role in the shaping of twentieth century philosophical thought about religion Nineteenth Century Philosophy of Religion will be of interest to scholars and students of Philosophy and Religion and will serve as an authoritative guide for all who are interested in the debates that took place in this seminal period in the history of philosophical thinking about religion *Governing the World* Mark Mazower, 2013-08-27 A majestic narrative reckoning with the forces that have shaped the nature and destiny of the world's governing institutions The story of global cooperation is a tale of dreamers goading us to find common cause in remedying humanity's worst problems But international institutions are also tools for the powers that be to advance their own interests Mark Mazower's *Governing the World* tells the epic two

hundred year story of that inevitable tension the unstable and often surprising alchemy between ideas and power From the rubble of the Napoleonic empire in the nineteenth century through the birth of the League of Nations and the United Nations in the twentieth century to the dominance of global finance at the turn of the millennium Mazower masterfully explores the current era of international life as Western dominance wanes and a new global balance of powers emerges

The Structure of World History Kojin Karatani, 2014-03-28 In this major paradigm shifting work Kojin Karatani systematically re reads Marx s version of world history shifting the focus of critique from modes of production to modes of exchange Karatani seeks to understand both Capital Nation State the interlocking system that is the dominant form of modern global society and the possibilities for superseding it In *The Structure of World History* he traces different modes of exchange including the pooling of resources that characterizes nomadic tribes the gift exchange systems developed after the adoption of fixed settlement agriculture the exchange of obedience for protection that arises with the emergence of the state the commodity exchanges that characterize capitalism and finally a future mode of exchange based on the return of gift exchange albeit modified for the contemporary moment He argues that this final stage marking the overcoming of capital nation and state is best understood in light of Kant s writings on eternal peace *The Structure of World History* is in many ways the capstone of Karatani s brilliant career yet it also signals new directions in his thought

Contractual Relations

David Campbell, 2022-09-15 Written by one of the leading contributors to the relational theory of contract *Contractual Relations* authoritatively explains the form of the existing law of contract by relating it to its economic legal and sociological foundations This volume demonstrates that economic exchange and legal contract rest on a moral relationship by which each party legitimately pursues its self interest through recognition of the self interest of the other This essential relationship of mutual recognition is in stark contrast to the pursuit of solipsistic self interest that is central to the classical law of contract Self interest of this sort is not morally defensible nor does it enhance economic welfare It is for these reasons that the classical law is legally incoherent The fundamental inadequacies of the classical law s treatment of agreement consideration and remedy have emerged as the doctrines of the positive law of contract have been progressively developed to give effect to the relationship of mutual recognition The welfarist criticism of the classical law has however failed to develop a workable concept of self interest and so is at odds with what must be retained from the classical law s facilitation of economic exchange and the market economy The relational law of contract restates self interest in a morally economically and legally attractive manner as the foundation of the social market economy of liberal socialism *Contractual Relations* is a fundamental critique of the classical law of contract and the welfarist response to the classical law and a major statement of the relational theory of contract This is an essential work for academics advanced students and others wishing to understand the fundamental law economics and sociology of contract and exchange

Critique, Social Media and the Information

Society Christian Fuchs, Marisol Sandoval, 2013-11-26 In times of global capitalist crisis we are witnessing a return of critique in the form of a surging interest in critical theories such as the critical political economy of Karl Marx and social rebellions as a reaction to the commodification and instrumentalization of everything On one hand there are overdrawn claims that social media Twitter Facebook YouTube etc have caused uproars in countries like Tunisia and Egypt On the other

hand the question arises as to what actual role social media play in contemporary capitalism crisis rebellions the strengthening of the commons and the potential creation of participatory democracy The commodification of everything has resulted also in a commodification of the communication commons including Internet communication that is today largely commercial in character This book deals with the questions of what kind of society and what kind of Internet are desirable how capitalism power structures and social media are connected how political struggles are connected to social media what current developments of the Internet and society tell us about potential futures how an alternative Internet can look like and how a participatory commons based Internet and a co operative participatory sustainable information society can be achieved

Dystopia and Dispossession in the Hollywood Science Fiction Film, 1979-2017 Harry Warwick, 2023-02-15

Offering a survey of Hollywood science fiction cinema from 1979 to 2017 from Ridley Scott's *Alien* to Denis Villeneuve's *Blade Runner 2049* *Dystopia and Dispossession in the Hollywood Science Fiction Film* argues that the trajectory of Hollywood's dystopianism in that period is inextricable from the phenomenon of the new enclosures the new dispossessions and privatisations sweeping across the United States since the 1970s More precisely it contends that the critiques of such dispossessions elaborated before the turn of the century consider the satire of private policing in *RoboCop* 1987 the portrayal of commodified air in *Total Recall* 1990 and the nightmarish extrapolations of postmodern urbanism in *Blade Runner* 1982 and *The Truman Show* 1998 begin to disappear in films such as *The Matrix* 1999 *The Island* 2005 *District 9* 2009 *Repo Men* 2010 and *The Purge* 2013 the further commodification of land forest reservoir ideas even the human genome having diminished the contrast between capitalist and non capitalist spaces on which the earlier critiques depended Bringing close readings of blockbuster films into dialogue with historical and theoretical scholarship on dispossession *Dystopia and Dispossession in the Hollywood Science Fiction Film* proposes a new understanding of the politics of science fiction in particular and utopian thought in general *Victorian Bloomsbury* Rosemary Ashton, 2012-11-13 While Bloomsbury is now associated with Virginia Woolf and her early 20th century circle of writers and artists the neighbourhood was originally the undisputed intellectual quarter of 19th century London This title presents a rich history of the great Bloomsbury pioneers the educational medical and social reformists who led crusades for all *Competition, Value and Distribution in Classical Economics* Heinz D. Kurz, Neri Salvadori, 2022-03-09 Drawing in particular on the work of Sraffa Smith Ricardo and Marx the essays in this volume explore the characteristic features of the Classical economists approach to economic problems and the renewal of interest in that approach in modern times In recent years new material has been made available on both Sraffa and Marx which have made new insights and interpretations possible The release of Sraffa's hitherto unpublished papers and correspondence has led to reconsideration of doctrinal questions such as to what extent Sraffa built upon or deviated from the analyses of Adam Smith David Ricardo and other representatives of the classical British school and Karl Marx A major theme is also to what extent we can today equipped with Sraffa's insights and analytical tools re interpret and develop ideas

of classical authors which they could present only in primitive forms on technological progress exhaustible resources and other contemporary issues On Marx the publication of the MEGA2 edition of the works papers and correspondence of Marx and Engels also gives rise to a reconsideration of this relationship given Marx's disenchantment with some of his own work and return to ideas advocated by Ricardo especially as regards the long term tendency of the rate of profits Finally the classical notion of competition and monopoly deserve to be scrutinized carefully again and frequent misinterpretations in the literature refuted This volume is vital reading for scholars of classical economics Marx and Sraffa and the history of economic thought more broadly It also deals with issues in the areas of machinery and technical progress joint production and economic development and growth

Idols of Nations Roland Boer, Christina Petterson, 2014 Roland Boer and Christina Petterson here produce a critical survey showing that the rise of capitalist theory was shaped by the way different economic philosophers Smith Hobbes Grotius Malthus Lock read the Bible Invoking Jeremiah 14 22 and Adam Smith who took the title of his Wealth of Nations from Isaiah 61 6 66 12 they show that early theories of capitalism were shaped by particular assumptions that these theorists brought to their readings of the story of Eden in particular They examine those assumptions and evaluate what has changed in subsequent centuries Idols of Nations shows that the Bible was central to the theorization and economic thought of these key thinkers as it explores the distinct problems each sought to overcome
