Moon Rocks:

Rocks: A Very Short Introduction Jan Zalasiewicz, 2016-12-01 Rocks more than anything else underpin our lives They make up the solid structure of the Earth and of other rocky planets and are present at the cores of gas giant planets We live on the rocky surface of the planet grow our food on weathered debris derived from rocks and we obtain nearly all of the raw materials with which we found our civilization from rocks From the Earth's crust to building bricks rocks contain our sense of planetary history and are a guide to our future In this Very Short Introduction Jan Zalsiewicz looks at the nature and variety of rocks and the processes by which they are formed Starting from the origin of rocks and their key role in the formation of the Earth he considers what we know about the deep rocks of the mantle and core and what rocks can tell us about the evolution of the Earth and looks at those found in outer space and on other planets ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Greatest Lie on Earth

(Expanded Edition) Edward Hendrie, 2018-09-12 This book reveals the mother of all conspiracies It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it

The Sphere of Influence Edward Hendrie,2019-07-07 This book is a sequel to The Greatest Lie on Earth Expanded Edition Proof That Our World Is Not a Moving Globe It will primarily focus on the infiltration into the church of the superstitious myth of heliocentrism and how that infiltration has served to undermine the gospel The gospel is the entire Holy Bible not just some of it Matthew 4 4 Christian belief is an all or nothing proposition All scripture is given by inspiration of God and is profitable for doctrine for reproof for correction for instruction in righteousness 2 Timothy 3 16 God s account of his creation is part and parcel of the gospel A person with genuine faith believes what Jesus said about both heavenly and earthly things If I have told you earthly things and ye believe not how shall ye believe if I tell you of heavenly things John 3 12 Jesus is God Jesus created all things in heaven and on earth See Colossians 1 16 18 God has revealed himself through his creation T hat which may be known of God is manifest in them for God hath shewed it unto them For the invisible things of him from the creation of the world are clearly seen being understood by the things that are made even his eternal power and Godhead so that they are without excuse Romans 1 19 20 If men have a misunderstanding of God s creation they will also have a misunderstanding of who God is If people believe in a creation that does not exist they consequently also believe in a creator that does not exist It is essential therefore to have an accurate understanding of God s creation God did not make a movable spherical earth If men believe in a heliocentric creation they will necessarily believe in a heliocentric creator A heliocentric creation does not exist So also a heliocentric creator does not exist A heliocentric creator is a false god We have been warned to avoid the preaching of a false gospel which presents a false Jesus For if he that cometh preacheth another Jesus whom we have not preached or if ye receive another spirit which ye have not received or another gospel which ye have not accepted ye might well bear with him 2 Corinthians 11 4

Solar System Exploration Committee,1986 The Universe Within Neil Shubin,2013-10-08 A Kirkus Reviews Best Nonfiction Book of the Year In *The Universe Within* Neil Shubin reveals the connection between the evolution of the cosmos and the evolution of the human body Just as the history of the earth is written in the rocks so too is the universe s 14 billion year history written in the human body Starting at the smallest level with our very molecular composition Shubin explores the question of why we are the way we are tracing the formation of the planets the moon and the globe of Earth through the development of the organs cells and genes that make up human life *Lies of Omission* Catherine DeSoto,2022-09-20 A lie of omission withholding needed information to correct a false belief There is a sharp and more hostile divide emerging in the United States The shift is documented by various polls and the speed of the change is alarming There are certainly contributing factors but one factor is unique to the contemporary era receiving the majority of our information via social media experiences Media algorithms and to some extent overt censorship serve users curated content that is unlike what their neighbors receive *Lies of Omission* brings together various perspectives on the causes and effects of the divided information streams Psychology and neuroscience combined with some historical jurisprudence are

woven together to spell out the dangers of the modern social media experience. Importantly, the human response can be understood as rooted in our psychology and neurochemistry. In part two of the book, eight hot button issues that have provoked deep divisions among American citizens are presented as well-researched, opposing view chapters with a goal to lay bare the extent of the disinformation gap that we are living in. With the rise of ephemeral smart media and the associated displacement of the permanently printed word, it is rare to have a clear idea of what persons who do not share our opinions actually believe or why. The decimation of communal information sources is nearly complete. What can one do? One concrete step is to turn some of your attention away from curated, impermanent news and read a book. Read this book. Dr. Catherine DeSoto spells out why it is worth our time to be informed regarding the issues we care about something your phone's curated media will never do for you. Open your mind to the quaint idea that one is not informed unless one understands the opposing view. Surprising, all new research regarding the political divide and the pandemic is included. Together with over 150 references, this book will be the definitive source documenting the effects of the media algorithm revolution.

Aliens in Ancient Egypt Xaviant Haze, 2013-10-31. The alien influences behind the rise and fall of Egypt's Golden Age. Explains how Akhenaten was the last pharaoh entrusted with the sacred and ancient alien knowledge of stargates, free energy, and antigravity technologies. Reveals how the Brotherhood of the Snake, a secret society of reptilian aliens, sought to destroy Akhenaten and suppress the sacred knowledge of the pharaohs. Explores the original purpose of the pyramids to transmit energy to expand consciousness and how they were decommissioned after the Great Flood. The sophisticated civilization of ancient Egypt arose seemingly overnight, complete with advanced levels of art, agriculture, astronomy, and physics. Then, with the death of Pharaoh Akhenaten, much of this higher knowledge was lost or suppressed. But evidence of this former Golden Age, the alien visitors behind its rise and those behind its decline, still exists, some of it in plain sight. Examining the purposefully obscured reign of Akhenaten and Nefertiti, Xaviant Haze explains how they represent the last dynasty with access to the sacred knowledge of stargates, free energy, and antigravity technologies, knowledge handed down from an advanced interstellar race in the remote past. He reveals how the reptilian race, known as the Shemsu Hor, infiltrated the Egyptian priesthood and banking systems and formed the Brotherhood of the Snake, a secret society set on destroying Akhenaten's flourishing kingdom and suppressing the sacred knowledge of the pharaohs. Haze examines the evidence of aliens in ancient Egypt, such as the reptilian beings depicted in the Temple of Hathor and Thutmose III's alien encounter. He shows how Akhenaten and his family are always portrayed with elongated skulls and explores the connection between ancient aliens and Mars, including the Martian materials used in Egyptian monuments. He explains the original purpose of the pyramids to transmit uplifting energy throughout the planet to help expand consciousness and explores how they were decommissioned after the Great Flood of prehistory. He reveals how the original builders of the pyramids foresaw humanity's fall from the Golden Age and strategically encoded these magnificent structures to wake humanity from the depths of the
