

MORAL INTUITION

Moral Action v Moral Thought

Psychologist Jonathan Haidt says much of our morality is rooted in “moral intuitions” which are quick gut feelings or laden intuitions.”

- Morality run by human emotion?
- Sometimes talk is cheap and emotions are fleeting, morality involves doing the right thing
- Group mentality sometimes wins out (peer pressure in alcohol/drug use)
- Research shows that those who delay gratification become more socially responsible and productive

Moral Action In Young Adulthood

Moral Action In Young Adulthood:

Moral Action in Young Adulthood Ralph L. Mosher, 1999 The connection between knowing the right or good thing to do and then actually doing it has long been a puzzle Watch what we do not what we say goes beyond the revealing admission of a former Attorney General of the United States to the broader reality of human behavior Parents teachers employers religious educators and society at large have a deep vested interest in understanding the relationship between and in knowing how better to educate for consistency in moral knowledge and behavior The past twenty five years have seen much productive research on the development of moral reasoning Doing the right or good act now needs comparable study The unique contribution of this book is its exploratory study of the connection between moral thinking and action Research on this linkage is in its relative infancy A key aim is to begin to throw light on what factors intervene between a person's moral judgment and subsequent action Valuable although untested theoretical models have been put forward concerning this interaction they are used to guide the initial development of questions but not to the exclusion of focusing on the unique insights provided by the young adults as to the process and problems of living one's life morality This book begins with statements from the executive director John N Gardner and the President of the University of South Carolina John M Palms as well as a foreword by Ralph L Mosher Following the foreword this book contains four sections comprised of fourteen chapters Section 1 Origins and Results of the Original Sierra Project 1 Nevitt Sanford on Community and Concern with Moral Values in Higher Education Nevitt Sanford 2 The Aims of the Sierra Curriculum On Leaping Tall Buildings In A Single Bound Ralph L Mosher and 3 Character Development Over Four Years of Undergraduate Study John M Whiteley and Norma Yokota Section 2 Theoretical Underpinnings of the Sierrans Revisited Research 4 Young Adulthood in the Life Cycle 5 Doing the Right or Good Act Theories of Moral Action and 6 Further Theoretical Perspectives on Making Moral Choices Section 3 Narrative Insights into Moral Action in Young Adulthood 7 Moral Dilemmas from Young Adulthood 8 Moral Dilemmas in Interpersonal Relationships 9 Moral Dilemmas in the Workplace and 10 Exemplary Sierrans Moral Influences Section 4 Research Conclusions and Future Directions for Promoting Moral Action 11 Moral Dilemmas of Everyday Life Voices of the Sierrans 12 Exceptional Moral Behavior 13 Strength of Character and Moral Agency and 14 Toward Promoting Moral Action in Young Adulthood The following are appended 1 Moral Action Interview 2 Moral Behavior Interview and 3 The Moral Influence Interview Content and author indexes are included Individual chapters contain references **The Oxford**

Handbook of Emerging Adulthood Jeffrey Jensen Arnett, 2016 The Oxford Handbook of Emerging Adulthood is the first and only comprehensive compilation spanning the field of emerging adulthood **Flourishing in Emerging Adulthood** Laura M. Padilla-Walker, Larry J. Nelson, 2017 Flourishing in Emerging Adulthood highlights the third decade of life as a time in which individuals have diverse opportunities for positive development There is mounting evidence that this time period at least for a significant majority is a unique developmental period in which positive development is fostered Dr Lene Arnett

Jensen highlights the importance of this work in an engaging foreword and chapters are written by leading scholars in diverse disciplines who address various aspects of flourishing. They discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood e.g. identity, love, work, worldviews, the various unique opportunities afforded to young people to flourish, how flourishing might look different around the world, and how flourishing can occur in the face of challenge. Most chapters are accompanied by first person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood. Taken together, this innovative collection provides rich evidence and examples of how young people are flourishing as a group and as individuals in a variety of settings and circumstances. This unique resource will be useful to students, faculty, professionals, clinicians, and university personnel who work with young adults or who study development during emerging adulthood.

Handbook of Moral Behavior and Development William M. Kurtines, Jacob Gewirtz, Jacob L. Lamb, 2014-01-02. The publication of this unique three volume set represents the culmination of years of work by a large number of scholars, researchers, and professionals in the field of moral development. The literature on moral behavior and development has grown to the point where it is no longer possible to capture the state of the art in a single volume. This comprehensive multi volume Handbook marks an important transition because it provides evidence that the field has emerged as an area of scholarly activity in its own right. Spanning many professional domains, there is a striking variety of issues and topics surveyed: anthropology, biology, economics, education, philosophy, psychology, psychiatry, sociology, social work, and more. By bringing together work on diverse topics, the editors have fostered a mutually beneficial exchange not only between alternative approaches and perspectives but also between applied and pure research interests. The Theory volume presents current and ongoing theoretical advances focusing on new developments or substantive refinements and revisions to existing theoretical frameworks. The Research volume summarizes and interprets the findings of specific theory driven research programs, reviews research in areas that have generated substantial empirical findings, describes recent developments in research methodology, techniques, and reports research on new and emerging issues. The Application volume describes a diverse array of intervention projects, educational, clinical, organizational, and the like. Each chapter includes a summary report of results and findings, conceptual developments, and emerging issues or topics. Since the contributors to this publication are active theorists, researchers, and practitioners, it may serve to define directions that will shape the emerging literature in the field.

Handbook of Adult Development Jack Demick, Carrie Andreoletti, 2003-01-31. The Handbook of Adult Development is an overview of the major theories and research in the field. Included are sections on introductory theory and method, biocognitive development in adulthood, and social development in adulthood, in addition to an introduction and epilogue by the editors. This content will be useful for years to come. By soliciting contributions from current leading theoreticians and researchers in the field of adult development, the volume will present state of the art theory and research.

refreshed research base coverage of digital pedagogies out of school programs and informal learning and discussions about the role of reason emotion cultural processes and citizenship democracy in education Further the book s substantive emphasis on diversity and equity in the field results in greater racial ethnic and geographic representation among contributing authors inclusion of historically marginalized school communities and student identities and coverage of practices such as transformative social and emotional learning SEL restorative justice and education for environmental sustainability

Student Development in the First College Year Tracy L. Skipper, 2005-05-17 Student Development in the First College Year provides a detailed overview of some of the most commonly referenced theories of learning and development in the college years What sets this primer apart from other treatments of student development theory is its careful attention to the first college year and the wide range of educational environments in which learning and development take place The primer includes a discussion of moving from theory to educational practice and strategies for assessing developmental outcomes

Care for the Sorrowing Soul Duane Larson, Jeff Zust, 2017-10-26 Moral Injury is now recognized as a growing major problem for military men and women Operant conditioning can overwhelm moral convictions and yet the question of whether to shoot or not to shoot often will never have a settled answer Certain theories and treatment models about MI have been well developed but too often overlook root issues of religious faith The authors propose a new model for understanding moral injury and suggest ways to mitigate its virtually inevitable occurrence in pre combat training and ways to resolve MI post trauma with proven spiritual resources People outside the military too among whom the incidence of MI also is a growing threat will benefit from this analysis The stories of the injured their shaping and their telling are the key and there are many illumining stories of moral injury and recovery Those who suffer MI their families and caregivers including counselors pastors and faith communities will find hope giving first steps toward the healing of MI in this book

Handbook of Moral Motivation Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 The Handbook of Moral Motivation offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the

research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species *The Structure of Moral Action: A Hermeneutic Study of Moral Conflict* M. J. Packer, 1985-07-12 **Youth Movements and Generational Politics, 19th-21st Centuries** Richard G. Braungart, Margaret M. Braungart, 2023-04-11
