Rationed Freedoms:

Rationing and Rights in Health Care Jo Lenaghan, Joanne Lenaghan, 1996 *The Narrow Path of Freedom and Other Essays* Eugene Davidson, 2002 These essays deal with the history of the past half century facing the world's encouraging as well as saddening developments from the Nuremberg Trials to Saddam Hussein and the absurdities of Ezra Pound One group of essays confronts the idea of history and what the past should mean Rights and Resources Frances H.

Miller, 2018-05-08 This title was first published in 2003 The fulfilment of health care rights in a world where resources are scarce is a prominent issue In this volume Frances H Miller introduces studies on a wide variety of aspects of this important yet complex process **Rationing in Medicine** F. Breyer, H. Kliemt, F. Thiele, 2013-03-09 The book series on the ethics of science and technology assessment edited by the Europäische Akademie is devoted to the publication of the work reports of its project groups works on the foundations of ethics the philosophy science and other issues related to the work of the Europäische Akademie In addition the series comprises the proceedings of conferences organized by the academy The 13th volume documents the proceeding of the academy's spring symposium in 2000 on Rationing in Medicine which was held in Bad Neuenahr Ahrweiler on March 23-25 2000 An intense discussion on the future of health care in Europe has been stimulated by increasing difficulties of securing adequate and needs orientated medical care in the face of scarce resources and medical progress Unfortunately quite often a rational discussion of rationing is drowned out by the political talk of the day But only an open and well informed debate if anything at all can lead to transparent and just rationing procedures which eventually might be acceptable to the public at large For this debate much can be learnt from observing the experiences other countries have made with their health care arrangements What kinds of mistakes should be avoided and what might be useful in the different states and perhaps also in the supra national context of an emerging Europe are interesting and important issues

Hurst, Len Fleck, Reidun Forde, Anne Slowther, 2014-10-02 Health systems need to set priorities fairly In one way or another part of this important task will fall to physicians How do they make judgments about resource stewardship and how should they do so How can they make such decisions in a manner that is compatible with their clinical duties to patients In this book philosophers bioethicists physicians lawyers and health policy experts make the case that priority setting and rationing contribute significantly to the possibility of affordable and fair healthcare and that clinicians play an indispensable role in that process The book depicts the results of a survey of European physicians about their experiences with rationing and other cost containment strategies and their perception of scarcity and fairness in their health care systems Responding to and complementing these findings commentators discuss why resource allocation and bedside rationing is necessary and justifiable The book explores how bedside rationing relates to clinical judgments about medical necessity and medical indications marginal benefits weak evidence based medicine off label use The book highlights how comparative studies of health care systems can advance more effective and fair bedside rationing through learning from one another From a practical standpoint the book offers a number of strategies for health care systems and clinicians to work in tandem to allocate and ration resources as fairly as possible how to foster more attention to fairness when rationing at the bedside how to avoid exacerbating health disparities when allocating resources how to teach about bedside rationing to students how to discuss rationing more explicitly in the public arena and in the doctor s office *Mist of Time - Visitors* Chris Randall, 2013-07-02 The story opens on a cold and wintry evening in November 1996 Due to bad weather self motivated businesswoman Jacqui Ventura finds herself stranded at her workplace Whilst contemplating her actions she encounters an unusual stranger Curiosity and trust leads her to invite the man to take shelter in her office but as she gets to know him better things are not quite what they appear The entrancing story presented by the stranger Zorando seems unlikely When Jacqui puts the story to the test she is completely unprepared for the result Zorando is on a mission from the 34th century to take home Shanovia who has inexplicably travelled back to the 20th century Through an ingenious plan activated by Shanovia in the 20th century Zorando in the 34th century finds out where she is and how to get her back The story is told partly by Zorando and partly by Shanovia who tells her story through a hologram recording that Zorando has brought from his own time *Freedom's Vector* Richard C.
