A Long Walk in the Wintertime Libby Purves, 1999-12 **Taleworlds and Storyrealms** K. Young, 2012-12-06 Beginning is the hardest ITPment not because openers are all that scarce but because you're blowing into cracking a universe I Maurice Natanson openings are already directed toward closings The first question in presenting a body of work is where to cut in This is an especially difficult question since the cut in provides a perspective on what follows A cut is an angle of entry Wherever I enter from there a realm unfolds itself In that sense my angle of entry is my point of view A realm cut into has an orientation It evidences a hierarchy of importance relevance accessibility value or logic Its content is no longer neutral and equivalent From my perspective the realm is not only differentiated in substance but differential in significance There is a relation between angles and attitudes Where I look from is tied up with how I see The first cut opens out into a frame of reference What count as lines of evidence in that realm materialize along with its background expectancies its assumptions concentrations and confusions its cost/plogy quirks and enchantments Hence once I am committed to a perspective I am implicated in a methodology one possessed of puzzles of a certain shape ITPping toward solutions within its orthodoxy Openings are directed toward closings Another cut would open onto another realm The realm of events I cut into is a Taleworld inhabited by characters acting in their own space and time *Home Leave* Libby

Gender and Rural Geography Jo Little, 2017-09-29 Gender and Rural Geography explores the relationship between gender and rurality Feminist theory gender relations and sexuality have all become central concerns of geographical research and significant progress has been made in terms of our understanding of both the broad relationship between gender and

geography and the more detailed differences in the lives of men and women over space The development of feminist perspectives and the study of gender relations in geography has however been fairly uneven over the discipline Both theoretical and empirical work on gender has tended to be concentrated within social and cultural geography Moreover it has been directed largely towards the urban sphere *How Not to be A Perfect Family* Libby Purves,2011-04-14 Perfect Families Tick off museums in the guidebook Tidy everything away neatly Work hard and play fair Show respect for one another Real Families Start fights in the Louvre Keep all their worldly goods on the stairs and in the kitchen Do their homework on the school bus and cheat at Monopoly Tie the shoelaces of sleeping uncles together after Christmas dinner With her customary humour and reliably robust commonsense Libby Purves celebrates family life in all its aspects Her accounts of sibling rivalry and the pitfalls of family Christmas will provoke rueful laughter and strike chords of recognition her practical tips on dealing with everything from marriage maintenance to money matters testing times to trips and treats provide essential help for the hard pressed parent Best of all is her reassuring reminder that no one else has a perfect family either
