The Dead Survivors KJ Erickson, 2007-04-01 Frank Beck a man with terminal colon cancer a new divorce and a stack of debts hangs himself It s an open and shut suicide except for a string of numbers inscribed on Beck s right arm Minneapolis Homicide Detective Marshall Bahr can t make sense of the numbers or the fact that a guy everyone describes as sloppy tied a perfect hangman s noose for himself But then he uncovers an obscure fact in the dead man s ancestry a connection to the Battle of Gettysburg and to make sense of its bearing on this homicide he needs to understand ninety seconds of action at the end of this historical battle Mars and his partner Nettie Frisch begin to theorize based on the idea that this death by hanging just might be related to the Civil War Then another body turns up and before Mars can even believe it s true they re are on the trail of a serial killer whose motive seems to be related to a contemporary controversy about Gettysburg and the descendants of the First Minnesota Volunteers the legendary northern regiment who turned the tide against the Confederacy on that fateful day In this enormously compelling follow up to Third Person Singular KJ Erickson delivers a top notch police procedural full of twists and turns pitting a relentless cop against an equally determined killer

Human Vision and The Night Sky Michael Borgia, 2006-12-11 For years the images have blazed through your imagination They are the magni cent full color photographs returned by the Hubble Space Telescope and 1 its sister Great Observatories of the grand depths of the cosmos From the pillars of creation considered to be Hubble s signature image to the incomprehensible depths of the Hubble Deep Fields to the intricate details imaged in the surface and cloud tops of Mars or Jupiter the power of the Hubble Telescope to turn on the public to science is unparalled in the history of modern culture They also have spurred new telescope sales to unimagined highs And after years of watching the heavens through the eyes of NASA you ve decided it s time to see it for yourself You make the trip to the department store and pick up that shiny new 500 te scope set it up and soon you re in business Unfortunately the high initial expectations usually give way to disappointment Instead of seeing the magni cent swirling clouds of gas in the Orion Nebula you see a pale green gray cloud with a couple of nondescript stars lurking nearby The swirling red yellow and brown storms of Jupiter are nowhere to be seen only varying shades of gray in the planet s cloud bands assuming you can see bands at all And Mars After waiting all night for the red planet to rise up over the morning horizon you are greeted by nothing more than a featureless reddish orange dot

The Body Tax Joe Vasicek, Our

government's most heinous crimes are the ones we never question In a future society where citizens pay a quarterly body tax by serving as mindless automatons under the watchful eye of an all seeing police state a young woman discovers that she's unexpectedly pregnant after completing her term of servitude Determined to preserve her freedom and the life of her unborn child she becomes a fugitive risking everything to uncover the dark secrets that her government is hiding from the public

Foundations of Writing for University Study David Fonteyn, 2024-06-21 This textbook explains the fundamentals of effective academic writing for university studies across multiple genres and formats It is intended for students who are either in the early stages of their university studies or are preparing to enter a university degree One of the ways this textbook differs from other textbooks on academic writing is its focus on the organisation of the English sentence through Theme and Rheme The Theme is what the sentence is about while the Rheme is what is being said about the Theme In the English clause the Theme is at the beginning and the Rheme follows At the same time as the English clause is divided into Theme and Rheme the clause can be understood as a unit of information where New information is provided to Given information One of the central aims of the textbook is to increase awareness of the flow of Given and New information from sentence to sentence and for students to have greater ability in its organisation Moreover New information is formally organised through prosody or rhythm and intonation patterns This approach takes account of English rhythms intonation and stress patterns that accompany sentences and how this relates to writing sentences Through the Theme Rheme and Given New approach combined with an understanding of Genre this book aims to both increase awareness of these aspects of the English sentence and explore how this aspect of English facilitates clearer and more effective writing

Third Person Singular KJ Erickson, 2010-04-01 Set against the black backdrop of a ruthless Minnesota winter KJ Erickson's debut novel is bursting with masterfully plotted suspense and intricately rendered characters Prickly but gifted Minneapolis Special Detective Marshall Mars Bahr is a man whose devotion to his eight year old son is eclipsed only by his love of the hunt Mars hasn't won any popularity contests among his fellow officers but his commitment to his job and his investigative talents have gotten him a plum assignment Special Detective in charge of the First Response Unit reporting directly to the chief On a winter morning when Mars is called to the scene of a homicide near the outskirts of town his first thought is that a homeless drunk passed out in the wrong place on a freezing cold night What he finds turns out to be much more menacing a nightmare case involving a teenage girl from the right side of the tracks With few clues and increasing pressure from the mayor on down to apprehend the killer Mars is forced to turn away from the details of the crime on the bluffs and instead focus on the victim herself Mary Pat Fitzgerald seemed to have a storybook lifestyle at least from the outside With a little digging however it

becomes clear that appearances can be deceiving Mars and his partner Nettie Frisch turn up some provocative clues in the search to uncover the truth about the young woman s lonely death but can they trust them Third Person Singular is a multilayered screamer of a debut that will have readers breathlessly awaiting KJ Erickson s next effort *Twenty-Five Astronomical Observations That Changed the World* Michael Marett-Crosby, 2013-06-28 *Twenty Five Astronomical Observations That Changed the World* takes twenty five journeys through space back in time and into human history We begin with the simplest sight of the Tycho Crater on the Moon through a repeat of Galileo s observations of Jupiter s moons and then move out towards the nebulae stars and galaxies The astronomical observations repeat the original groundbreaking discoveries that have changed our understanding of science and ourselves This title contains graded observing challenges from the straightforward to the more difficult in chapter order It offers clear observing tips and lots of practical help presuming no prior in depth knowledge of equipment Binoculars and or a small astronomical telescope are all that is required for most of the observations Secondly it explores for each observation the science of what is seen adding to the knowledge and enjoyment of amateur astronomers and offering lots of reading for the cloudy nights when there is not a star in view Thirdly the book puts the amateur astronomers observations into a wider perspective *Twenty Five Astronomical Observations That Changed the World* makes the observer part of that great story of discovery Each chapter each observing challenge shows how to observe and then how to look with understanding The projects begin with practicalities where the object is how best is it observed and with what appropriate equipment usually a small to medium aperture amateur telescope binoculars even the naked eye *Twenty Five Astronomical Observations that Changed the World* guides even the inexperienced amateur astronomer beginners can use the book around a variety of night sky objects and reminds the more experienced how they can best be seen These practical observations put us in contact with all the history and culture surrounding them through scientific speculation and literature to those first fuzzy images made in 1959 by the Russian space probe Luna 3 **Golden Hours** ,1872 Scribner's Magazine ... ,1897 American Poland-China Record American Poland-China Record Association,1905 Scribner's Magazine Edward Livermore Burlingame,Robert Bridges,Alfred Sheppard Dashiell,Harlan Logan,1897 *The Atlantic Monthly* ,1871 **Transactions of the Royal Society of Victoria** Royal Society of Victoria (Melbourne, Vic.),1878 List of members in each volume except v 6 new ser v 27
