Look Both Ways Jennifer Baumgardner, 2008-03-04 For author and activist Baumgardner bisexuality has always been more than the sexual non preference of the 90s Here she takes a close look at gay and bisexual people on the national cultural stage and the issues their growing visibility raises In a society supposedly grown more open and accepting what can it mean that bisexuality continues to be marginalized by both gay and straight cultures and dismissed either as a phase or worse a cop out Baumgardner discusses her own experience as a bisexual and the struggle she s undergone to reconcile the privilege of a woman who is perceived as straight and the empowerment and satisfaction she s derived from her relationships with women Her book is a study in bisexual lives lived secretly and openly and an exploration of the lessons learned by writers artists and activists who have refused the either or paradigm defended by both gay and straight communities From publisher description

Out Of The Spotlight James Quinn, 2024-06-25 I began my writing career as a nightside reporter for the Evening Bulletin a newspaper in Philadelphia I progressed to writing plays having spent seventeen years dancing and performing This transitioned into my own publication Stage Magazine about little theater in Pennsylvania I wrote news articles about the war in Vietnam and about the struggles our service men and women suffered especially friends Then life took a turn and I found myself wondering why so many friends were dying which led me to Out of the Spotlight Out of the Spotlight is about being in the right place at the right time and doing the right thing for your life to progress in a positive fashion It speaks about personal responsibility and accepting the reality of life and all that it has to offer Understanding and accepting your shortcomings helps you understand what it takes to be personally successful Out of the Spotlight speaks about the choices we make and the outcome of those choices The Great Globe and All Who It Inherit David Kellogg, 2014-11-04 Every storyteller soon discovers the difference between putting a story inside children and trying to extract it with comprehension questions and putting children inside a story and having them act it out Teachers may experience this as a difference in difficulty or in the level of motivation and enthusiasm or even in the engagement of creativity and imagination and leave it at that This book explores the divide more critically and analytically finding symmetrical and even complementary problems and affordances with both approaches First we examine what teachers actually say and do in each approach using the systemic functional grammar of M A K Halliday Secondly we explore the differences developmentally using the cultural historical psychology of L S Vygotsky Thirdly we explain the differences we find in texts by considering the history of genres from the fable through the plays of Shakespeare Inside and Outside the story turn out to be two very different modes of experiencing the one reflective and narrativizing and the other participatory and dialogic These two modes of experience prove to be

equally valuable and even mutually necessary but only in the long run different approaches are necessary at different moments in the lesson different points in development and even different times in human history In the final analysis though this distinction is meaningless to children and to their teachers unless it is of practical use Each chapter employs only the most advanced technology ever developed for making sense of human experience namely thinking and talking though not necessarily in that order So every story has a specific narrative to tell a concrete set of dialogues to try and above all a practicable time and a practical space for children their teachers and even their teachers teachers to talk and to think
