Looking After Children With Difficult:

Caring for Children with Complex Needs in the Community Jean Teare, 2009-01-22 Caring for the Child with Complex Needs in Community Settings provides a valuable overview of the key factors relating to caring for children with complex and continuing care needs. Despite its frequent and increasing use, complex care needs is a term without an agreed definition. This shortfall of knowledge is addressed in this book through critical discussion of evidence-based research and current health, social, and education policy. It brings together the latest knowledge into one text, providing practitioners with the crucial information needed when working with this diverse and broad group of children. Caring for the Child with Complex Needs in Community Settings explores caring for technology-dependent children who require respiratory assistance, caring for children who require home enteral tube feeds, and caring for children with complex disabilities. It looks at multi-agency care, respite care for families, social service support, and educational support of children with complex needs. Practitioners from health, social services, and education backgrounds have contributed to the chapters using case studies, while a parent of a child with complex needs has provided a personal view of caring. This accessible and practical text provides core knowledge and vital insight required for successful delivery of community care for children with complex and continuing care needs. **A Practical Guide to Caring for Children and Teenagers with Attachment Difficulties** Chris Taylor, 2010 It explains what attachment is, what the different patterns look like in children and young people, how early attachment experiences affect their lives, and how this understanding can help childcare workers to develop therapeutic ways of caring. An essential book for professionals such as residential carers, social workers, and foster carers. **Looking After Children in Primary Care** Ruth Chambers, Kirsty License, 2018-12-14 Highly Commended in the 2005 BMA Medical Book Competition. The Children's National Service Framework sets standards for children's and young people's services, outlining what support should be available to children and their parents in managing and preventing a wide range of conditions and problems. This book is a companion to the Children's NSF, enabling those that work within the NHS, social care, and education to put the NSF into practice in primary care. Contributions throughout from key professionals who were involved in the evolution of the framework help by providing guidance and expertise from the knowledge and background material gained throughout its development. The authors expand on the vision, themes, and goals published within the NSF and make recommendations for the ways that best practice can be implemented, particularly for children's healthcare throughout the UK and anywhere in the Western world. General practitioners, child health specialists, community nurses, and anyone with an interest in or responsibility for the care of children in primary care and the interface with social care and education will find this book invaluable reading. **Understanding family and friends care: the relationship between need, support and legal status**, *Observing Children with Attachment Difficulties in Preschool Settings* Ann Frost, Jane Fain, Sian Templeton, Eleanor Durrant, Kim S. Golding, 2012-11-15 This child observation tool has been designed to help structure

observations of children with emotional and behavioural difficulties in early years settings Simple checklists and diagrams help to identify particular behavioural patterns and attachment issues as well as appropriate interventions *Approaches to Needs Assessment in Children's Services* Wendy Rose, Harriet Ward, 2001-01-15 Examining the assessment of need in children's services this book addresses the full spectrum of practice policy and research developments in the field The contributors show how needs assessment in children's services can be used to tackle problems such as low achievement and social exclusion at both individual and strategic levels Helping Students with Learning Difficulties David W. Chan, 1998 How can we usefully understand the developments of special education in Hong Kong What lessons can we learn from the developments and provisions of special education services in other societies such as the United Kingdom Taiwan and mainland China What forms of educational or instructional practice can we envision as capable of offering new possibilities for helping Hong Kong students with learning difficulties This book addresses all these and a host of other questions In his extensive treatment of the topic David W Chan covers the role of special education in Hong Kong today and contrasts it with special education systems in the United Kingdom and mainland China Finally he devotes his attention to exploring the perspectives of students and teachers to learning difficulties and the issues and means of intervention in helping students with learning difficulties **Little Buddhas** Vanessa R. Sasson, 2013 Consideration of children in the academic field of Religious Studies is taking root but Buddhist Studies has yet to take notice Little Buddhas brings together a wide range of scholarship and expertise to address the question of what role children have played in Buddhist literature in particular historical contexts and what role they continue to play in specific Buddhist contexts today The volume is divided into two parts one addressing the representation of children in Buddhist texts the other children and childhoods in Buddhist cultures around the world The ground breaking contributions in this volume challenge the perception of irreconcilable differences between Buddhist idealism and family ties Little Buddhas will be an indispensable resource for students and scholars of Buddhism and Childhood Studies and a catalyst for further research on the topic **Children with Emotional and Behavioural Difficulties and Communication Problems** Melanie Cross, 2004-03-25 Children and young people with emotional and behavioural difficulties EBD are far more likely to have communication problems than their peers Exploring the ways in which children's language and emotional development are linked Melanie Cross considers the reasons why behavioural and communication difficulties often occur together Identifying the common causes of these problems and the reasons why they often go undetected she provides practical guidelines for assessing communication skills and the complexities of identifying communication problems in children including children in public care She shows how improving children's communication can also improve their behaviour and that speech and language therapy is an important although often absent service for children with EBD With a range of strategies to help children and young people to develop their emotional and communicative skills this accessible guide is an invaluable resource for speech and language therapists social

workers teachers and other health professionals working with young people with emotional behavioural and communication problems

Living Alongside a Child's Recovery Billy Pughe, Terry Philpot, 2006-12-15 This book asserts that a good understanding of child development and attachment theory is essential to effective therapeutic parenting of a traumatized child it details the roots of trauma as well as the impact this has on a child's ability to maintain normal family bonds whether with birth or foster parents or staff in a residential setting

Supporting Children with Learning Difficulties Christine Turner, 2011-08-11 How do you teach history to a child who can't remember what she had for dinner What difference will it make to a child's counting skills if you place the objects in a line rather than dropped randomly on the table Will breaking down a task into smaller steps help a young person learn how to dress himself Children with learning disabilities do not follow set patterns of learning and yet often they are expected to learn in the same way as their non-disabled peers Christine Turner draws on 25 years experience gained from teaching children with severe profound and multiple disabilities to provide an introduction to learning disabilities and the effect they have on the individual and the family She proposes holistic strategies to ensure that every child makes progress regardless of the extent of their disability All aspects of learning from the simplest forms of non-verbal communication to the way ICT can motivate and inspire are explored in this practical and informal guide for anyone wanting to support a child with learning difficulties
