Mathematical development depends on children becoming confident and competent in learning and using key skills.

This area of learning includes counting, sorting, matching, seeking patterns, making connections, recognising relationships and working with numbers, shapes, space and measures.

The following images give ideas and examples of how early years practitioners around the country are supporting this area of learning in their outdoor environment.

Text and captions sourced from Curriculum Guidance for the Foundation Stage

Mathematical understanding should be developed through stories, songs, games and imaginative play, so that children enjoy using and experimenting with numbers.

Spiritual Mathematics John Dunne-Brady,2014-02-13 This book opened an entirely new vista for organizing and using basic numbers It investigated standard linear numbers 1 2 3 4 5 and how they adversely affected our thinking and actions It carefully described a circular number system in which numbers were placed on concentric circles rather than on straight lines This new arrangement might very differently and beneficially affect our daily thought processes and activities The key discovery involved a series of ten mandalas circular patterns made from everyday numbers The book correlated these new breakthroughs with ancient spiritual patterns and practices found in the I Ching Yoga Kabala and in both Pagan and Christian mysteries These older

teachings included the chakras tree of life tarot cards and sacraments Spiritual Mathematics gave a scientific explanation for many spiritual values and sacred phenomena It also emphasized the underlying spiritual realities encountered within modern scientific dogmas
