**Classroom-Ready Rich Math Tasks, Grades 4-5** Beth McCord Kobett, Francis (Skip) Fennell, Karen S. Karp, Delise Andrews, Sorsha-Maria T. Mulroe, 2021-04-08 Detailed plans for helping elementary students experience deep mathematical learning Do you work tirelessly to make your math lessons meaningful challenging accessible and engaging Do you spend hours you don't have searching for adapting and creating tasks to provide rich experiences for your students that supplement your mathematics curriculum Help has arrived Classroom Ready Rich Math Tasks for Grades 4 5 details more than 50 research and standards aligned high cognitive demand tasks that will have your students doing deep problem based learning These ready to implement engaging tasks connect skills concepts and practices while encouraging students to reason problem solve discuss explore multiple solution pathways connect multiple representations and justify their thinking They help students monitor their own thinking and connect the mathematics they know to new situations In other words these tasks allow students to truly do mathematics Written with a strengths based lens and an attentiveness to all students this guide includes Complete task based lessons referencing mathematics standards and practices vocabulary and materials Downloadable planning tools student resource pages and thoughtful questions and formative assessment prompts Guidance on preparing launching facilitating and reflecting on each task Notes on access and equity focusing on students strengths productive struggle and distance or alternative learning environments With concluding guidance on adapting or creating additional rich tasks for your students this guide will help you give all of your students the deepest most enriching and engaging mathematics learning experience possible Teaching Students with Disabilities Jeffrey P. Bakken, 2024-10-02 This book focuses on fundamental pedagogies implemented with students with disabilities resulting in positive outcomes and addresses the most current viewpoints and perspectives on best practices when teaching students with disabilities It is written by leaders in the field with particular expertise in these areas Chapters discuss best practices of special education but also new and innovative practices to consider The layout of this book allows readers to follow teaching students with disabilities in a very logical and thoughtful process from students with high incidence disabilities to those with low incidence disabilities as well as chapters that focus on specific academic content and other professionals that work with students with disabilities This book is an excellent resource for special educators administrators mental health clinicians school counsellors and psychologists and it addresses best practices and how special education is deeply rooted in the education of students with disabilities **Productive Math Struggle** John J. SanGiovanni, Susie Katt, Kevin J. Dykema, 2020-03-09 Seldom has a book been as timely or as necessary as Productive Math Struggle is today One of the remarkable accomplishments of SanGiovanni Katt and Dykema's work lies in how they seamlessly connect the research on high quality tasks high expectations identity and equity to productive math struggle This is perhaps their greatest contribution The authors see productive math struggle as a critical feature of mathematics classrooms that support access equity and empowerment

specifically arguing that every student is worthy of struggle From the Foreword by Matt Larson Ph D Past President 2016 2018 National Council of Teachers of Mathematics Associate Superintendent for Instruction Lincoln Public Schools Nebraska Struggle is hard Productive struggle is power All students face struggle and they should it is how they learn and grow The teacher s job is not to remove struggle but rather to value and harness it helping students develop good habits of productive struggle But what s missing for many educators is an action plan for how to achieve this especially when it comes to math Persevering through difficult challenges to reach new learning is the core of Productive Math Struggle When left unsupported struggle can become unproductive and demoralizing negatively influencing students mathematical identities The authors guide teachers through six specific actions including valuing fostering building planning supporting and reflecting on struggle to create a game plan for overcoming obstacles by sharing Actionable steps activities and tools for implementation Instructional tasks and vignettes representative of each grade level Real world examples showcasing classroom photos and student work samples A book study guide is available under the Free Resources tab that helps math educators to learn together on how to incorporate productive math struggle in their classrooms Revolving around the idea that math is a way of thinking and understanding and not just the pursuit of answers and procedures this book empowers students to embrace productive struggle to build essential skills for learning and living both inside and outside the classroom

The Five Practices in Practice [Elementary] Margaret (Peg) Smith,Victoria Bill,Miriam Gamoran Sherin,2019-08-14 Take a deep dive into the five practices for facilitating productive mathematical discussions Enhance your fluency in the five practices anticipating monitoring selecting sequencing and connecting to bring powerful discussions of mathematical concepts to life in your elementary classroom This book unpacks the five practices for deeper understanding and empowers you to use each practice effectively Video excerpts vividly illustrate the five practices in action in real elementary classrooms Key questions help you set learning goals identify high level tasks and jumpstart discussion Prompts guide you to be prepared for and overcome common challenges Includes planning templates sample lesson plans and completed monitoring tools and mathematical tasks      **Resources in Education** ,2001-04      **Catalog of Copyright Entries** Library of Congress.
