stay organized and effective while conferring      **Technoscience and Cyberculture** Stanley Aronowitz, 2014-04-08

Technoculture is culture such is the proposition posited in Technoscience and Cyberculture arguing that technology's permeation of the cultural landscape has so irrevocably reconstituted this terrain that technology emerges as the dominant discourse in politics, medicine and everyday life. The problems addressed in Technoscience and Cyberculture concern the ways in which technology and science relate to one another and organize, orient and effect the landscape and inhabitants of contemporary culture      **Asia's High Performing Education Systems** Colin Marsh, John Chi-Kin Lee, 2014-07-17

Education officials, specialist leaders and teachers have all been involved in different ways to bring about school reform in Hong Kong. This book is a very current and relevant analysis of this reform, highlighting the way in which agencies have cooperated in bringing about change over the last several decades. Through a process of wide-ranging decision making, collaboration and consensus among key bodies and agencies of change, some important developments have occurred. The reforms collectively have had and are continuing to have a major impact upon schooling in Hong Kong. This volume represents a range of authors and specialists involved in a number of different reforms, covering themes such as historical policy contexts, new curriculum approaches, changing pedagogies, school leadership, implementation and change, and assessment and evaluation. This is a very topical book which provides a probing analysis of how an Asian education system has been able to reach and maintain a very high performing level      *Assessment in the Mathematics Classroom* Berinderjeet Kaur, Khoon Yoong Wong, 2011.
