Transforming Undergraduate Education in Science, Mathematics, Engineering, and Technology Committee on Undergraduate Science Education,Board on Science Education,Division of Behavioral and Social Sciences and Education,National Research Council,1999-04-08 Today s undergraduate students future leaders policymakers teachers and citizens as well as scientists and engineers will need to make important decisions based on their understanding of scientific and technological concepts However many undergraduates in the United States do not study science mathematics engineering or technology SME T for more than one year if at all Additionally many of the SME T courses that students take are focused on one discipline and often do not give students an understanding about how disciplines are interconnected or relevant to students lives and society To address these issues the National Research Council convened a series of symposia and forums of representatives from SME T educational and industrial communities Those discussions contributed to this book

which provides six vision statements and recommendations for how to improve SME T education for all undergraduates The book addresses pre college preparation for students in SME T and the joint roles and responsibilities of faculty and administrators in arts and sciences and in schools of education to better educate teachers of K 12 mathematics science and technology It suggests how colleges can improve and evaluate lower division undergraduate courses for all students strengthen institutional infrastructures to encourage quality teaching and better prepare graduate students who will become future SME T faculty
