Mathew And Margins:

God Will Judge Each One According to Works Kyoung-Shik Kim, 2011 This monograph provides a fresh perspective on judgment according to works by challenging both the majority scholarly view and the new perspective advocated by E P Sanders James D G Dunn and N T Wright Employing intertextuality and early Jewish mediation of scripture this study examines the idea of judgment according to works with reference to Psalm 62 13 in early Jewish literature and the New Testament The originality of this study is to highlight the significance of Psalm 62 13 in the context of judgment according to works and to argue that the texts dealing with judgment according to works in the New Testament are to be understood as interpretations of Psalm 62 13 and its broad context

[Regulating Pharmaceutical Prices in India](#) Ajay Bhaskarabhatla, 2018-08-01 This book presents an extensive study on the effectiveness of recent regulations on pharmaceutical prices in India exploring the weaknesses in the design and implementation of pharmaceutical price controls and investigating what can be done to fix the broken system In addition it examines the extent to which essential medicines are actually made affordable by price controls The book argues that companies make the pharmaceutical price control regime largely ineffective by coordinating to increase pre regulation prices by diversifying horizontally away from the regulated markets and increasing prices in the unregulated markets by manipulating trade margins and by refusing to comply with the regulation because the penalties remains negligible The book draws on extensive empirical research involving India s 2013 Drug Price Control Order and widely used medicines such as paracetamol and metformin to illustrate how firms have weakened regulation It argues that the regulatory regime can be strengthened by using systematic analysis of product and region level data in the Indian pharmaceutical industry and by screening for the strategies that firms currently employ to circumvent regulation In closing it discusses recent efforts to strengthen the implementation of price controls in India and expanding the scope of price controls to medical devices

The European Garden Flora Flowering Plants James Cullen, Sabina Knees, H. Suzanne Cubey, J. M. H. Shaw, 2011-08-11 The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental flowering plants Designed to meet the highest scientific standards the vocabulary has nevertheless been kept as uncomplicated as possible so that the work is fully accessible to the informed gardener as well as to the professional botanist This new edition has been thoroughly reorganised and revised bringing it into line with modern taxonomic knowledge Although European in name the Flora covers plants cultivated in most areas of the United States and Canada as well as in non tropical parts of Asia and Australasia Volume 1 contains accounts of all the Monocotyledons which includes those groups known informally as the petaloid monocotyledons the Liliaceae and Amaryllidaceae in the first edition divided here among 17 families the grasses and sedges

Grimshaw,2008 This study of the Matthean narrative uses the interpretive lens of food exchange to explore the Matthean community s relationship with the wider world While many studies depict this community as withdrawing from or in conflict with the larger society James P Grimshaw s focus on the daily need for food reveals a community that while distinct progressively integrates itself into the larger Jewish and Gentile society and the natural world In addition this view of community corresponds to the view of a God who actively provides for and relates to all creation Grimshaw s alternative portrayal of the Matthean community whose interactions with its surrounding environment are more complex and sustained than often imagined is a compelling interpretation for today s stratified and disconnected world Journal of the Royal Horticultural Society of London Royal Horticultural Society (Great Britain),1926 Vols for 1869 1952 include Extracts from the proceedings of the Royal Horticultural Society **Powering Empire** On Barak,2020-03-03 The Age of Empire was driven by coal and the Middle East as an idea was made by coal Coal s imperial infrastructure presaged the geopolitics of oil that wreaks carnage today as carbonization threatens our very climate Powering Empire argues that we cannot promote worldwide decarbonization without first understanding the history of the globalization of carbon energy How did this black rock come to have such long lasting power over the world economy Focusing on the flow of British carbon energy to the Middle East On Barak excavates the historic nexus between coal and empire to reveal the political and military motives behind what is conventionally seen as a technological innovation He provocatively recounts the carbon intensive entanglements of Western and non Western powers and reveals unfamiliar resources such as Islamic risk aversion and Gandhian vegetarianism for a climate justice that relies on more diverse and ethical solutions worldwide Journal of the Royal Horticultural Society Royal Horticultural Society (Great Britain),1928 Vols for 1846 55 include Proceedings at meetings of the society **NAGA Report** ,1973 Along the Integral Margin Stephen Campbell,2022-08-15 In recent years anthropologists have focused on informal unfree and other nonnormative labor arrangements and labeled them as noncapitalist In Along the Integral Margin Stephen Campbell pushes back against this idea and shows that these labor arrangements are in fact important aspects of capitalist development and that the erroneous noncapitalist label contributes to obscuring current capitalist relations Through powerful intimate ethnographic narratives of the lives and struggles of residents of a squatter settlement in Myanmar Campbell challenges narrow conceptions of capitalism and asserts that nonnormative labor is not marginal but rather centrally important to Myanmar s economic development Campbell s narrative approach brings individuals who are often marginalized in accounts of contemporary Myanmar to the forefront and raises questions about the diversity of work in capitalism *Monsoon Voyagers* Fahad Ahmad Bishara,2025 *Monsoon Voyagers* follows the voyage of a single dhow the Crooked along with its captain and crew from

Kuwait to port cities around the Persian Gulf and Western Indian Ocean from 1924 to 1925 Through his account of the voyage Fahad Ahmad Bishara unpacks a much broader history of circulation and exchange across the Arabian Sea in the time of empire From their offices in India Arabia and East Africa Gulf merchants used the technologies of colonial capitalism banks steamships railroads telegraphs and more to remake their own regional bazaar economy In the process they remade the Gulf itself Drawing on the Crooked s first person logbooks along with letters notes and business accounts from a range of port cities Monsoon Voyagers narrates the still untold connected histories of the Gulf and Indian Ocean The Gulf s past it suggests played out across the sea as much as it did the land

Dark Commerce Louise I. Shelley,2020-11-10 Though mankind has traded tangible goods for millennia recent technology has changed the fundamentals of trade in both legitimate and illegal economies In the past three decades the most advanced forms of illicit trade have broken with all historical precedents and as Dark Commerce shows now operate as if on steroids tied to computers and social media In this new world of illicit commerce which benefits states and diverse participants trade is impersonal and anonymized and vast profits are made in short periods with limited accountability to sellers intermediaries and purchasers Louise Shelley examines how new technology communications and globalization fuel the exponential growth of dangerous forms of illegal trade the markets for narcotics and child pornography online the escalation of sex trafficking through web advertisements and the sale of endangered species for which revenues total in the hundreds of millions of dollars The illicit economy exacerbates many of the world s destabilizing phenomena the perpetuation of conflicts the proliferation of arms and weapons of mass destruction and environmental degradation and extinction Shelley explores illicit trade in tangible goods drugs human beings arms wildlife and timber fish antiquities and ubiquitous counterfeits and contrasts this with the damaging trade in cyberspace where intangible commodities cost consumers and organizations billions as they lose identities bank accounts access to computer data and intellectual property
