Matter Of The Facts:

A Matter of Facts Laura A. Millar, 2021-03-04 The safeguarding of authentic facts is essential especially in this disruptive Orwellian age where digital technologies have opened the door to a post truth world in which alternative facts can be so easily accepted as valid And because facts matter evidence matters In this urgent manifesto archives luminary Millar makes the case that authentic and accurate records archives data and other sources of documentary proof are crucial in supporting and fostering a society that is respectful democratic and self aware An eye opening treatise for the general public an invaluable resource for archives students and a provocative call to arms for information and records professionals Millar s book explains the concept of evidence and discusses the ways in which records archives and data are not just useful tools for our daily existence but also essential sources of evidence both today and in the future includes plentiful examples that illustrate the critical role evidence plays in upholding rights enforcing responsibilities tracing family or community stories and capturing and sharing memories and examines the impact of digital technologies on how records and information are created and used With documentary examples ranging from Mesopotamian clay tablets to World War II photographs to today s Twitter messages and Facebook posts Millar s stirring book will encourage readers to understand more fully the importance of their own records and archives for themselves and for future generations [The Facts of the Matter](#) David Parish, 2018-08-31 Too Green to Be True Does all the positive press about hybrid cars alternative fuels and the next green must have product sound too good to be true Well maybe it is In [The Facts of the Matter](#) Alaskan author David Parish provides a clear explanation of the environmental technology energy and resources issues we face and shows how readers can move politicians regulators environmental groups media and businesses to truly take the action society needs to prosper Parish helps readers cut through the noise and focus on an optimistic approach to green issues He argues that the best way to conserve the planet and ourselves is the natural convergence of smart natural resource development with improving the lives of the growing population [The Facts of the Matter](#) is the basis for a conversation based on solutions rather than rhetoric and will cause a rethinking of our biases to the benefit of the greater good **Do Facts Matter?** Jennifer L. Hochschild, Katherine Levine Einstein, 2015-01-20 A democracy falters when most of its citizens are uninformed or misinformed when misinformation affects political decisions and actions or when political actors foment misinformation the state of affairs the United States faces today as this timely book makes painfully clear In [Do Facts Matter](#) Jennifer L. Hochschild and Katherine Levine Einstein start with Thomas Jefferson s ideal citizen who knows and uses correct information to make policy or political choices What then the authors ask are the consequences if citizens are informed but do not act on their knowledge More serious what if they do act but on incorrect information Analyzing the use nonuse and misuse of facts in various cases such as the call to impeach Bill Clinton the response to global warming Clarence Thomas s appointment to the Supreme Court the case for invading Iraq beliefs about Barack Obama s birthplace and religion and the Affordable Care

Act Hochschild and Einstein argue persuasively that errors of commission that is acting on falsehoods are even more troublesome than errors of omission While citizens inability or unwillingness to use the facts they know in their political decision making may be frustrating their acquisition and use of incorrect knowledge pose a far greater threat to a democratic political system Do Facts Matter looks beyond individual citizens to the role that political elites play in informing misinforming and encouraging or discouraging the use of accurate or mistaken information or beliefs Hochschild and Einstein show that if a well informed electorate remains a crucial component of a successful democracy the deliberate concealment of political facts poses its greatest threat *Matter of fact for the Multitude. [In defence of the Pitt Ministry.] By a True Patriot ,1798* Facts Don't Matter Dixie Burkhart,2008-11-20 In order to reach the outcome she wanted the facts were ignored and she refused to rule on laws that were violated Under the guise of judicial discretion the judge s erroneous opinion was nothing less than court assisted business fraud When we allow our judges to ignore the facts in evidence and the law to make rulings by opinion it opens the door for political favor and judicial corruption When a judge s opinion defies common sense and the law one can only wonder what motivated that opinion *Problems of Mind and Matter* John Wisdom,1970 Professor Wisdom gives an elementary introduction to the applications in philosophy of the analytical method He believes that the aim of analysis is clarity whereas the aim of speculative philosophy is truth After a brief introduction on what analysis is he discusses the relation of body and mind and seeks for causal relations between mental and material events He concludes this section with a chapter on Free will before turning to perception and the external world
