Why Marriage Matters

“God created marriage.

No government subcommittee envisioned it.

No social organization developed it.

in the Later Middle Ages (Routledge Revivals) Annie Abram, 2014-01-02 Annie Abram was born in London in 1869 and died in Sussex in 1930. As an historian she contributed significantly to the twentieth century historiography of late medieval England researching the social cultural and religious mores of the English laity and clergy. This title first published in 1919 comprehensively explores the fabrics of late medieval society using evidence drawn from historical and literary works, official documents and illustrated manuscripts. Largely concentrating on the years between the start of the Black Death in 1348 and the end of the fifteenth century, a period in which we see important developments in the character and organisation of medieval England, chapters discuss the make up of social order, life in a medieval town, the position of women in society and the Church's relationship with the laity. A complementary title to *Social Life in England in the Fifteenth Century*. Routledge Revivals. 2013. This fascinating work will be of great value to history students requiring a detailed overview of the framework of late medieval English society and culture.

Feinman, James Edward Clapp, 2005. 1001 Legal Words You Need to Know explains and illuminates the most difficult and arcane vocabulary any American has to deal with: that of the law. This comprehensive but never condescending guide to the language of the American legal system carefully defines and explains every term with a sample sentence, and many entries have supplementary notes. In addition, the book includes a number of quick miniguides to legal troubleshooting that include information on understanding wills, trusts, and inheritance; granting someone the power of attorney; understanding contracts; what to do if you're sued; how to choose a lawyer; exploring law school; and enjoying cop and lawyer dramas. The backmatter contains an extensive list of legal aid organizations and a helpful bibliography of books about the law and lawyers for further reading.

His manners are not always nice, but then nice manners do not always make interesting autobiographies, and this autobiography has the merit of being intensely interesting. Within cultural studies, in which advocacy can take the form of a theoretical intervention, scholars have resisted arguments that add species to race, class, gender, sexuality, disability, and other human identity categories as a site for critical analysis. *Species Matters* considers whether cultural studies should pay more attention to

animal advocacy and whether in turn animal studies should pay more attention to questions raised by cultural theory The contributors to this volume explore these issues particularly in relation to the humane treatment of animals and various human groups and the implications both theoretical and practical of blurring the distinction between the human and the animal They address important questions raised by the history of representing humans as the only animal capable of acting humanely and provide a framework for reconsidering the nature of humane discourse whether in theory literary and cultural texts or current advocacy movements outside of the academy
