Mccormick Reaper Legend:

The McCormick Reaper Legend Norbert Lyons,1955 **Harvesting History** Daniel P. Ott,2023 Harvesting History explores how the highly contentious claim of Cyrus McCormick s 1831 invention of the reaper came to be incorporated into the American historical canon as a fact Spanning the late 1870s to the 1930s Daniel P Ott reveals how the McCormick family and various affiliated businesses created a usable past about their departed patriarch Cyrus McCormick and his role in creating modern civilization through advertising and the emerging historical profession The mythical invention narrative was widely peddled for decades by salesmen and in catalogs as well as in corporate public education campaigns and eventually in history books to justify the family s elite position in American society and its monopolistic control of the harvester industry in the face of political and popular antagonism As a parallel story to the McCormicks manipulation of the past Harvesting History also provides a glimpse of the nascent discipline of history during the Progressive Era Early historians were anxious to demonstrate their value in the new corporate economy as modern professionals and objective guardians of the past While ethics might have prevented them from being historians for hire their own desire for inclusion in the emerging middle class predisposed them to be receptive to the McCormicks financial influence as well as their historical messages **Farmland Innovator** Catherine A. Welch,2007-01-01 Cyrus McCormick patented and manufactured the reaper an important 19th century invention that dramatically improved the efficiency of wheat farming While McCormick did not invent the reaper solely by himself he did refine and popularize it His company eventually became the International Harvester Company

The International Harvester Company Chaim M. Rosenberg,2019-05-13 Ancient farmers used draft animals for plowing but the heavy work of harvesting fell to the humans using sickle and scythe Change came in the mid 19th century when Cyrus Hall McCormick built the mechanical harvester Though the McCormicks used their wealth to establish art collections and universities battle disease and develop birth control members of the family faced constant scrutiny and scandal This book recounts their story as well as the history of the International Harvester Company IHC a merger of the McCormick and Deering companies and the world s leader in agricultural machinery in the 1900s [Food and Drink in American History](#) Andrew F. Smith,2013-10-28 This three volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses covering topics ranging from early American Indian foods to mandatory nutrition information at fast food restaurants The expression you are what you eat certainly applies to Americans not just in terms of our physical health but also in the myriad ways that our taste preferences eating habits and food culture are intrinsically tied to our society and history This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages as well as dozens of historical recipes for traditional American foods and a third volume of more than 120 primary source documents Never before has there been a reference work that coalesces this diverse range of information into a single set

The entries in this set provide information that will transform any American history research project into an engaging learning experience. Examples include explanations of how tuna fish became a staple food product for Americans, how the canning industry emerged from the Civil War, the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages, and how taxation on beverages like tea, rum, and whisky set off important political rebellions in U.S. history.

Farming across Borders Timothy P. Bowman, Kristin Hoganson, Laura Hooton, Josh MacFadyen, Todd Meyers, Peter S. Morris, Andrew Dunlop, Alicia Marion Dewey, John Weber, Sonia Hernández, Rosa E. Cobos, Matt Caire-Pérez, Paige Raibmon, Jason McCollom, Thomas D. Isern, Suzanne Kelley, Anthony Carlson, Stephen Mumme, Tisa Anders, 2017-12-01. Farming across Borders uses agricultural history to connect the regional experiences of the American West, northern Mexico, western Canada, and the North American side of the Pacific Rim, now written large into a broad history of the North American West. Case studies of commodity production and distribution, trans-border agricultural labor, and environmental change unite to reveal new perspectives on a historiography traditionally limited to a regional approach. Sterling Evans has curated nineteen essays to explore the contours of big agricultural history. Crops and commodities discussed include wheat, cattle, citrus, pecans, chiles, tomatoes, sugar beets, hops, henequen, and more. Toiling over such crops, of course, were the people of the North American West, and as such, the contributing authors investigate the role of agricultural labor from braceros and Hutterites to women working in the sorghum fields and countless other groups in between. As Evans concludes, society as a whole, no matter in what country, often ignores the role of agriculture in the past and the present. Farming across Borders takes an important step toward cultivating awareness and understanding of the agricultural, economic, and environmental connections that loom over the North American West, regardless of lines on a map. In the words of one essay, we are tied together in a hundred different ways.

Orzel: Scottsdale's Legendary Arabian Stallion Tobi Lopez Taylor, 2016-01-18. In 1967, Scottsdale's longtime Arabian horse breeder Ed Tweed embarked on a mission to race the horses he bred. He imported a chestnut stallion from Poland named Orzel, or Eagle in English, that flew past competitors to become the first U.S. National Racing Champion. Among other wins in halter and performance, Orzel was the victor in the debut of the U.S. National Championship Ladies Sidesaddle category, partnered with Tweed's granddaughter Shelley Groom Trevor. Thousands of fans visited the legendary performer in retirement at Brusally Ranch. Decades after Orzel's death, horses he sired continue his winning legacy. Author Tobi Lopez Taylor chronicles this triumphant story.
