Messiaen Quatuor Pour La Fin Du Temps:

Messiaen Anthony Pople, 1998-07-02 An examination of the popular Quartet for the End of Time by Olivier Messiaen
Rhythm and Color in Messiaen's Quatuor Pour la Fin Du Temps Kendra Janean Kaufman, 1997 Olivier Messiaen
Raphaël Fernandez (musicologue.), 19?? *Messiaen* David S. Bernstein, 1973 **For the End of Time** Rebecca
Rischin, 2006 Olivier Messiaen 1908 1992 was one of the great composers of the twentieth century The premiere of the
French composer's Quartet for the End of Time on January 15 1941 at 4 degrees Fahrenheit in Stalag VIII A a Nazi prison
camp has been called one of the great stories of twentieth century music A devout Catholic with an interest in mysticism and
the supernatural Messiaen was also a poet and an accomplished amateur ornithologist He mixed sounds as a painter mixes
colors associating specific shades with certain modes and chords This book is the first comprehensive history of the
composition and premiere of the Quartet for the End of Time Based on testimonies by the musicians and their families
witnesses to the premiere former prisoners and on documents from Stalag VIII A *For the End of Time* examines the events
that led to the Quartet's composition the experiences of the musicians in the camp the contradictory accounts the composer's
interpretive preferences and the musicians' problems in execution and how they affected the premiere and subsequent
performances Rebecca Rischin explores the musicians' life in the prison camp their relationships with each other and with the
German camp officials and their intriguing fortunes before and after the momentous premiere *For the End of Time* is
distinguished by Rischin's extensive interviews and intimate correspondence with camp survivors who witnessed the Quartet's
premiere and members of the Messiaen circle including the cellist Etienne Pasquier and the violinist Jean Le Boulaire
relatives of the clarinetist Henri Akoka and Messiaen's widow Yvonne Loriod The book is generously illustrated with
photographs of the musicians press releases from the premiere autographs letters and pen and ink drawings of the camp's
layout Included are wartime photos of the camp and its prisoners along with present day views of the camp site which
Rischin visited in 1995 **Olivier Messiaen's System of Signs** Andrew Shenton, 2017-07-05 Andrew Shenton's
groundbreaking cross disciplinary approach to Messiaen's music presents a systematic and detailed examination of the
compositional techniques of one of the most significant musicians of the twentieth century as they relate to his desire to
express profound truths about Catholicism It is widely accepted that music can have mystical and transformative powers but
because pure music has no programme Messiaen sought to refine his compositions to speak more clearly about the truths of
the Catholic faith by developing a sophisticated semiotic system in which aspects of music become direct signs for words and
concepts Using interdisciplinary methodologies drawing on linguistics cognition studies theological studies and semiotics
Shenton traces the development of Messiaen's sign system using examples from many of Messiaen's works and concentrating
in particular on the *Motations sur le mystère de la Sainte Trinité* or organ suite which contains the most sophisticated and
developed use of a sign system and represents a profound exegesis of Messiaen's understanding of the Catholic triune God

By working on issues of interpretation Shenton endeavours to bridge the traditional gap between scholars and performers and to help people listen to Messiaen's music with spirit and understanding

Messiaen's Musical Techniques: The Composer's View and Beyond Gareth Healey, 2016-04-22 Despite Messiaen's position as one of the greatest technical innovators of the twentieth century his musical language has not been comprehensively defined and investigated The composer's 1944 theoretical study *The Technique of My Musical Language* expounds only its initial stages and while his posthumously published *Trait de rythme de couleur et d'ornithologie* contains detailed explanations of selected techniques in most cases the reader is left to define these more precisely by observing them in the context of Messiaen's analyses of his own works Technical processes are nevertheless in many cases the primary components of a work or movement For instance *personnages* dominate *Joie du sang des toiles* from the *Turangala* symphonie and in certain cases such as *L'change* from the *Vingt regards sur l'Enfant Jésus* the process asymmetric augmentation is the only structuring element present Given this reliance on idiosyncratic techniques clear comprehension of the music is impossible without a detailed knowledge of Messiaen's methods Gareth Healey charts their development and interconnections considers their relationship with formal structures and applies them in refined and extended form to works for which Messiaen himself left no published analysis

Black Bell Alison C. Rollins, 2024-04-23 Sweeping from the eighteenth century to futurist fabulations Black Bell harmonizes poetry with performance art practices in an investigation of fugitivity Inspired by the nineteenth century image of an enslaved woman wearing iron horns and bells Alison C Rollins's Black Bell continues an exploration of cataloging individual experience and collective memory As Rollins sets out to resuscitate and embody the archive we see a chorus of historical figures like Eliza Harris Henry Box Brown and Lear Green readers can listen in as Phillis Wheatley takes a Turing test or venture through Dante's Inferno remixed with Wu Tang Clan's 36 Chambers Poems travel across time and space between the eighteenth century and futuristic fabulations vibrating with fugitive frequencies sounds of survival and nerve wracking notes tuned toward love and liberation Black Bell navigates what it means to be both invisible and spectacle hidden and on display allowing lyric language to become the material for fashioning wearable sculptures akin to Nick Cave's soundsuits Integrating performance art practices metalwork and sonic Black Bell becomes multimedia meditation on freedom seeking furthering the possibilities of both the page and the canvas of the poet's body

"Silence, Music, Silent Music " Nicky Losseff, 2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of

various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage's idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being Silence Music Silent Music will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy
