Detecting Texts Patricia Merivale, Susan Sweeney, 1999 No currently available anthology addresses the topic of the metaphysical detective story so directly so fully or so relevantly Brian McHale West Virginia University **More Spiritual Tales** ANITA PUNYANITYA, 2016-03-21 These are tales from some of mum's and some of my former lifetimes sometimes relating to each other There are also special tales of Jim one who knows how to love people and knows spiritual love and how to greatly Bless people in its great form **Anti-Tales** David Calvin, Catriona McAra, 2011-05-25 The anti fairy tale has long

existed in the shadow of the traditional fairy tale as its flipside or evil twin According to Andr Jolles in *Einfache Formen* 1930 such Antim rchen are contemporaneous with some of the earliest known oral variants of familiar tales While fairy tales are generally characterised by a spirit of optimism Tolkien the anti tale offers us no such assurances for every happily ever after there is a dissenting they all died horribly The anti tale is however rarely an outright opposition to the traditional form itself Inasmuch as the anti hero is not a villain but may possess attributes of the hero the anti tale appropriates aspects of the fairy tale form and its equivalent genres and re imagines subverts inverts deconstructs or satirises elements of these to present an alternate narrative interpretation outcome or morality In this collection *Little Red Riding Hood* retaliates against the wolf *Cinderella* s stepmother provides her own account of events and *Snow White* evolves into a postmodern vampire tale The familiar becomes unfamiliar revealing the underlying structures dynamics fractures and contradictions within the borrowed tales Over the last half century this dissident tradition has become increasingly popular inspiring numerous writers artists musicians and filmmakers Although anti tales abound in contemporary art and popular culture the term has been used sporadically in scholarship without being developed or defined While it is clear that the aesthetics of postmodernism have provided fertile creative grounds for this tradition the anti tale is not just a postmodern phenomenon rather the postmodern fairy tale is only part of the picture Broadly interdisciplinary in scope this collection of twenty two essays and artwork explores various manifestations of the anti tale from the ancient to the modern including romanticism realism and surrealism along the way
