Power And Poverty Old Age In The Pre Industrial Past:

Power and Poverty Susannah R. Ottaway, Lynn A. Botelho, Katharine Kittredge, 2002-10-30 Despite calls since the 1970s for more research into the history of old age there is still a relative dearth of historical studies on the elderly especially in the pre industrial past This volume remedies much of that deficiency with essays exploring the lives of old men and old women and the images of old age and aging in early modern Europe and America Collectively the chapters demonstrate there was a strong association of advanced age with authority in the lived experience of older men and women This book recognizes poverty and physical limitations were a very real threat but challenges the tendency of existing literature on historical gerontology to associate old age with dependence and disability Instead what emerges from this volume is the success of older people in the past in imbuing their old age with dignity despite the often vicious nature of old age in both popular and elite literature Essays are brought together on old age in early modern England France Germany Italy Spain and America enabling comparisons that cross geographical boundaries Historians of old age the family demography social history and cultural history will value this volume as will sociologists and anthropologists interested in gerontology *Old Age and the English Poor Law, 1500-1700* Lynn A. Botelho, 2004 Based on documents from two Suffolk villages this study examines the operation of the poor law and the individual effort the elderly poor needed to make to survive This study is a test case of the old poor law In its exploration of the virtually unknown world of the aged poor in sixteenth and seventeenth century England it asks how the elderly poor managed to survive in a pre industrial economy and answers through focusing on the many factors that make up the experience of old age status health wealth and local culture in two Suffolk villages Botelho demonstrates that the poor law did not nor did it intend to provide complete support and she documents the individual efforts of the poor as they made their own old age arrangements drawing as heavily upon their own initiatives as upon charity and legislated relief LYNN BOTELHO is Associate Professor of History Indiana University of Pennsylvania **The History of Old Age in England, 1600-1800, Part I Vol 2** Lynn Botelho, Susannah R Ottaway, Anne Kugler, 2024-08-01 What did it mean to be old in seventeenth and eighteenth century England This eight volume edition brings together selections from medical treatises sermons legal documents parish records almshouse accounts private letters diaries and ballads to investigate cultural and medical understanding of old age in pre industrial England [Age and Identity in Eighteenth-Century England](#) Helen Yallop, 2015-10-06 Yallop looks at how people in eighteenth century England understood and dealt with growing older Though no word for aging existed at this time a person's age was a significant aspect of their identity **The Decline of Life** Susannah R. Ottaway, 2004-02-05 The Decline of Life is an ambitious and absorbing study of old age in eighteenth century England Drawing on a wealth of sources literature correspondence poor house and workhouse documents and diaries Susannah Ottaway considers a wide range of experiences and expectations of age in the period and demonstrates that the central concern of ageing individuals was to continue to live as independently as possible into their

last days Ageing men and women stayed closely connected to their families and communities in relationships characterized by mutual support and reciprocal obligations Despite these aspects of continuity however older individuals ability to maintain their autonomy and the nature of the support available to them once they did fall into necessity declined significantly in the last decades of the century As a result old age was increasingly marginalized Historical demographers historical gerontologists sociologists social historians and women s historians will find this book essential reading

Old Age in the Middle Ages and the Renaissance Albrecht Classen, 2012-02-14 After an extensive introduction that takes stock of the relevant research literature on Old Age in the Middle Ages and the early modern age the contributors discuss the phenomenon of old age in many different fields of late antique medieval and early modern literature history and art history Both Beowulf and the Hildebrandslied both Wolfram von Eschenbach s Parzival and Titarel both the figure of Merlin and the trans European tradition of Perceval Peredur Parzival then the figure of the vetula in a variety of medieval French English and Spanish texts and of the Old Man in The Stricker s Daniel both the treatment of old age in Langland s Piers the Plowman and in Jean Gerson s sermons are dealt with Other aspects involve late antique epistolary literature early modern French farce in light of Disability Studies the social role of old impotent men in sixteenth and seventeenth century Netherlandish paintings and the scientific discourse of old age and health since the 1500s The discourse of Old Age proves to have been of central importance throughout the ages so the critical examination of the issues involved sheds intriguing light on the cultural history from late antiquity to the seventeenth century

Aging in

World History David G. Troyansky, 2015-10-05 In *Aging in World History* David G. Troyansky presents the first global history of aging. At a time when demographic aging has become a source of worldwide concern and more people are reaching an advanced age than ever before, the history of old age helps us understand how we arrived at the treatment of aging in the modern world. This concise volume expands that history beyond the West to show how attitudes toward aging, the experiences of the aged, and relevant demographic patterns have varied and coalesced over time and across the world. From the ancient world to the present, this book introduces students and general readers to the history of aging on two levels: the experience of individual men and women and the transformation of populations. With its attention to cultural traditions, medicalization, decades of historical scholarship, and current gerontology, *Aging in World History* is the perfect starting point for an exploration of this increasingly universal aspect of human experience.

Women Writers and Old Age in Great Britain, 1750-1850 Devoney Looser, 2008-09-08 This groundbreaking study explores the later lives and late life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of classics, adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years, only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.
