Cognitive Psychology in Early Jesuit Scholasticism Daniel Heider (Ed.), 2022-09-06 Jesuit scholastic philosophy exemplified by the figure of Francisco Suarez 1548-1617 is at present a topic intensively studied worldwide However especially in the English speaking academic world the immediate historical milieu of Suarez's philosophy and theology constituted especially by the philosophical and theological production of his Jesuit contemporaries is much less taken into account In the field of philosophical cognitive psychology extant especially in the commentaries on Aristotle's *On the Soul* the present publication

aims to partially ameliorate this status quo All the chapters in this book to some extent give evidence of the theological motivation and theological horizon of the Jesuit cognitive psychology of the last decades of the 16th century and the first decades of the 17th century

Transforming Ourselves, Transforming the World Mary Beth Combs,Patricia Ruggiano Schmidt,2013-09-02 Transforming Ourselves Transforming the World is an insightful collection that articulates how Jesuit colleges and universities create an educational community energized to transform the lives of its students faculty and administrators and to equip them to transform a broken world The essays are rooted in Pedro Arrupe's ideal of forming men and women for others and inspired by Peter Hans Kolvenbach's October 2000 address at Santa Clara in which he identified three areas where the promotion of justice may be manifested in our institutions formation and learning research and teaching and our way of proceeding Using the three areas laid out in Fr Kolvenbach's address as its organizing structure this stimulating volume addresses the following challenges How do we promote student life experiences and service How does interdisciplinary collaborative research promote teaching and reflection How do our institutions exemplify justice in their daily practices Introductory pieces by internationally acclaimed authors such as Rev Dean Brackley S J David J O'Brien Lisa Sowle Cahill and Rev Stephen A Privett S J pave the way for a range of smart and highly creative essays that illustrate and honor the scholarship teaching and service that have developed out of a commitment to the ideals of Jesuit higher education The topics covered span disciplines and fields from the arts to engineering from nursing to political science and law The essays offer numerous examples of engaged pedagogy which as Rev Brackley points out fits squarely with Jesuit pedagogy insertion programs community based learning study abroad internships clinical placements and other forms of interacting with the poor and with cultures other than our own This book not only illustrates the dynamic growth of Jesuit education but critically identifies key challenges for educators such as How can we better address issues of race in our teaching and learning Are we educating in nonviolence How can we make the college or university greener How can we evoke a desire for the faith that does justice Transforming Ourselves Transforming the World is an indispensable volume that

has the potential to act as an academic facilitator for the promotion of justice within not only Jesuit schools but all schools of higher education

Preaching Power Charles A. Witschorik, 2013-10-21 This book uses a gender perspective to examine sermons and other officially endorsed discourses of the Catholic Church in eighteenth and nineteenth century Mexico City. Analyzing the different ways that over time gendered images, metaphors and hagiographical examples were used in sermons and other documents, the book examines how the church negotiated challenges to its cultural and ideological hegemony. Beginning with sermons from the early eighteenth century, the author follows the evolution of church discourses as preachers revealed in Baroque analogies embraced ideals of the Enlightenment, targeted women's alleged moral vices at times of political crisis, and ultimately turned to notions of women as the devout sex in order to combat incipient liberalism. Put another way, liberals after independence were not the only ones to assert a kind of republican motherhood; preachers countered with a vision of Catholic motherhood that had great resonance in Mexico even into the twentieth century.

Hebrew Life and Literature Bernhard Lang, 2016-12-05 Bernhard Lang, known for his contributions over several decades to biblical anthropology, offers in this volume a selection of essays on the life and literature of the ancient Hebrews. The subjects range from the Hebrew God, the world view of the Bible, and the formation of the scriptural canon to peasant poverty, women's work, the good life, and prophetic street theatre. The stories of Joseph, Samson, and the expulsion from Paradise are analysed, and in a departure from the Old Testament, the priestly origins of the Eucharist are considered. Insight into the Hebrew mentality is facilitated by the arrangement of the essays reflecting the three strata of the ancient society: the peasants with their common concerns of fertility and happiness; warriors, their martial pursuits, and the divine Lord of War; and the wise prophets, priests, and sages.

Sensuous Worship Jeffrey Chipps Smith, 2002 It provides the first comprehensive treatment of the Jesuits' poorly understood but remarkable revitalization of German religious art and culture, an accomplishment that would guide the direction of both religious life and subsequent German Baroque art. Instruments of the Divinity Christopher van Ginhoven Rey, 2013-10-24 In *Instruments of the Divinity*, Christopher van Ginhoven Rey shows that an important reflection on God's providential praxis animates the foundational documents of the Society of Jesus. Focusing on Saint Ignatius of Loyola's conception of Jesuits as the instruments of a laboring God, the book explores the philosophical and theological roots of the metaphor of the instrument and its place in the social imaginary of the Jesuit order. Close readings of the *Spiritual Exercises*, the Jesuit Constitutions, and a selection of letters by Ignatius call attention to the existence of a rhetoric of instrumentality that provides the basis for the Society's project of instruction, its loving affirmation of the world, and its attempts to differentiate itself from its monastic predecessors. **Secret**

Shakespeare Richard Wilson, 2024-06-04 Shakespeare's Catholic context was the most important literary discovery of the last century. No biography of the Bard is now complete without chapters on the paranoia and persecution in which he was educated or the treason which engulfed his family. Whether to suffer outrageous fortune or take up arms in suicidal

resistance was as Hamlet says the question that fired Shakespeare's stage In *Secret Shakespeare* Richard Wilson asks why the dramatist remained so enigmatic about his own beliefs and so silent on the atrocities he survived Shakespeare constructed a drama not of discovery like his rivals but of darkness deferral evasion and disguise where for all his hopes of a golden time of future toleration What's to come is always unsure Whether or not He died a papist it is because we can never pluck out the heart of his mystery that Shakespeare's plays retain their unique potential to resist This is a fascinating work which will be essential reading for all scholars of Shakespeare and Renaissance studies **Sacred Games** Bernhard Lang, 1997-01-01 **Eating Beauty** Ann W. Astell, 2016-02-09 The enigmatic link between the natural and artistic beauty that is to be contemplated but not eaten on the one hand and the eucharistic beauty that is both seen with the eyes of faith and eaten on the other intrigues me and inspires this book One cannot ask the aesthetic questions about the Eucharist without engaging fundamental questions about the relationship between beauty art broadly defined and eating from *Eating Beauty* In a remarkable book that is at once learned startlingly original and highly personal Ann W Astell explores the ambiguity of the phrase eating beauty The phrase evokes the destruction of beauty the devouring mouth of the grave the mouth of hell To eat beauty is to destroy it Yet in the case of the Eucharist the person of faith who eats the Host is transformed into beauty itself literally incorporated into Christ In this sense Astell explains the Eucharist was productive of an entire way of life a virtuous life form an artwork with Christ himself as the principal artist The Eucharist established for the people of the Middle Ages distinctive schools of sanctity Cistercian Franciscan Dominican and Ignatian whose members were united by the eucharistic sacrament that they received Reading the lives of the saints not primarily as historical documents but as iconic expressions of original artworks fashioned by the eucharistic Christ Astell puts the faceless Host in a dynamic relationship with these icons With the advent of each new spirituality the Christian idea of beauty expanded to include first the marred beauty of the saint and finally that of the church torn by division an anti aesthetic beauty embracing process suffering deformity and disappearance as well as the radiant lightness of the resurrected body This astonishing work of intellectual and religious history is illustrated with telling artistic examples ranging from medieval manuscript illuminations to sculptures by Michelangelo and paintings by Salvador Dalí Astell puts the lives of medieval saints in conversation with modern philosophers as disparate as Simone Weil and G W F Hegel *Remembering the God to Come* Antonio T. de Nicolas, 2000-04 The author of these poems is a philosopher by profession In these pages he steps adeptly from the philosophical idea to the concrete image He proves himself a master in the Symbolist tradition In the prologue to this collection of poems William Packard comments on the vision of eternal realities that is evident in de Nicolas poems At its best this is the kind of poetry that Plato was describing in his dialogues and the kind of poetry that Nietzsche was calling for in Zarathustra *Remembering the God to Come* describes near mystical experiences recollections of the soul's true realities captured in the metaphor of Woman These poems are meditations on the power of images in our spiritual and sexual lives

They are reminders of the path of memory one must follow to create culture *Schopenhauer's Doctrine of Salvation in Relation to his Critique of Religion and Philosophical Teachings* Anil Dominic Batti,2023-10-31 Arthur Schopenhauer 1788 1860 was perhaps the last polymath among the great Germanic philosophers Switching with ease and elegance between epistemic positions and fields as diverse as idealism and empiricism fideism and rationalism realism and nominalism art and religion jurisprudence and politics psychology and occultism Schopenhauer erected an imposing edifice bearing testimony to his universal learning This study is an investigation into the very conclusion of Schopenhauer s philosophy and endeavours to answer the following question did Schopenhauer s doctrine of salvation issue forth organically from his intellectual output or was it annexed to his philosophy as a result of his critical engagement with religion The labyrinthine paths through which Schopenhauer arrives at the soteriological culmination of his philosophy are subjected to critical assessment the picture that emerges is of a philosopher who seemed convinced that he had solved some of the most pressing cosmic riddles to have tormented mankind through the ages **Italo Calvino's Architecture of Lightness** Letizia Modena,2011-05-09 This study recovers Italo Calvino s central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of Invisible Cities Passages from Calvino s most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino s novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired

International Philosophical Quarterly ,1961 **Image and Incarnation** Walter Melion, Lee Palmer Wandel,2015-09-01 The doctrine of the Incarnation was wellspring and catalyst for theories of images verbal material and spiritual Section I Representing the Mystery of the Incarnation takes up questions about the representability of the mystery Section II Imago Dei and the Incarnate Word investigates how Christ s status as the image of God was seen to license images material and spiritual Section III Literary Figurations of the Incarnation considers the verbal production of images contemplating the

divine and human nature of Christ Section IV Transformative Analogies of Matter and Spirit delves into ways that material properties and processes in their effects on the beholder were analogized to Christ's hypostasis Section V Visualizing the Flesh of Christ considers the relation between the Incarnation and the Passion Günther Anders' Philosophy of Technology

Babette Babich, 2021-10-21 Gunther Anders Philosophy of Technology is the first comprehensive exploration of the groundbreaking work of German thinker Gunther Anders Anders philosophy has become increasingly prescient in our digitised technological age as his work predicts the prevalence of social media ubiquitous surveillance and the turn to big data Anders oeuvre also explored the technologies of nuclear power and the biotech concerns for the human and transhuman condition which have become so central to current theory Babette Babich argues that Anders offers important resources on streaming digital media through his writings on radio television and film and is unusually both a comprehensive and profound thinker Anders relationship with key philosophers like Hannah Arendt and Walter Benjamin and his thinking on Goethe Nietzsche and Rilke is also explored with a focus on the deep impact he made on his peers It reflects specifically on the intersection of Anders thought Heidegger and the Frankfurt school and how influential a figure he was on the landscape of 20th century philosophy A compelling rehabilitation of a thinker with profound contemporary relevance
