## **Reciprocities In The Nonfiction Novel:**

**Reciprocities in the Nonfiction Novel** John Russell, 2000 Nonfiction novels have usually been associated with the new journalism writers of the 1960s such as Tom Wolfe Norman Mailer and Truman Capote Yet this form has long commanded a key position in the literary canon as John Russell now reveals Russell identifies eleven major works not usually thought of as nonfiction novels such as Isak Dinesen's *Out of Africa* and E E Cummings's *The Enormous Room* to create a new definition of the genre He shows that journalistic writing is characterized by a reporter's proprietary stance which undermines reciprocity with subjects while true nonfiction novels feature greater reciprocity and also employ such techniques as circular narrative and bricolage *Reciprocities in the Nonfiction Novel* contributes to ongoing explorations of literary forms and offers wise commentary on how writing about real life can become art

**Novel Competition** Evan Brier, 2024-04-16 *Novel Competition* describes the literary and institutional effort to make the American novel matter after 1965 During this era Hollywood movies popular music and other forms of mass produced culture vied with novels for a specific kind of prestige often figured as importance or relevance that had mostly been attached to novels in previous decades This trans media competition Brier argues is a crucial but largely unacknowledged event in the literary and economic history of the American novel In the face of it the novel lost some of the symbolic specialness it formerly held That loss in turn generated not just a much discussed rhetoric of crisis but also a host of unexamined intertwined effects on both literary form and the business of novel production Drawing on a range of novels and on the archives of publishers editors agents and authors *Novel Competition* shows how fiction's declining position in a transformed popular prestige economy reshaped the post 1965 American novel as art form cultural institution and commodity

***On Company Time*** Donal Harris, 2016-10-04 *American novelists and poets who came of age in the early twentieth century were taught to avoid journalism like wet sox and gin before breakfast It dulled creativity rewarded sensationalist content and stole time from serious writing Yet Willa Cather W E B Du Bois Jessie Fauset James Agee T S Eliot and Ernest Hemingway all worked in the editorial offices of groundbreaking popular magazines and helped to invent the house styles that defined McClure's The Crisis Time Life Esquire and others On Company Time tells the story of American modernism from inside the offices and on the pages of the most successful and stylish magazines of the twentieth century Working across the borders of media history the sociology of literature print culture and literary studies Donal Harris draws out the profound institutional economic and aesthetic affiliations between modernism and American magazine culture Starting in the 1890s a growing number of writers found steady paychecks and regular publishing opportunities as editors and reporters at big magazines Often privileging innovative style over late breaking content these magazines prized novelists and poets for their innovation and attention to literary craft In recounting this history On Company Time challenges the narrative of decline that often accompanies modernism's incorporation into midcentury middlebrow culture Its integrated account of literary and journalistic form shows American modernism evolving*

within as opposed to against mass print culture Harris's work also provides an understanding of modernism that extends beyond narratives centered on little magazines and other institutions of modernism that served narrow audiences And for the writers the double life of working for these magazines shaped modernism's literary form and created new models of authorship

*The Story of "Me"* Marjorie Worthington, 2018-11-01 Autofiction or works in which the eponymous author appears as a fictionalized character represents a significant trend in postwar American literature when it proliferated to become a kind of postmodern clich The Story of Me charts the history and development of this genre analyzing its narratological effects and discussing its cultural implications By tracing autofiction's conceptual issues through case studies and an array of texts Marjorie Worthington sheds light on a number of issues for postwar American writing the maleness of the postmodern canon and anxieties created by the supposed waning of male privilege the relationship between celebrity and authorship the influence of theory the angst stemming from claims of the death of the author and the rise of memoir culture Worthington constructs and contextualizes a bridge between the French literary context from which the term originated and the rise of autofiction among various American literary movements from modernism to New Criticism to New Journalism The Story of Me demonstrates that the burgeoning of autofiction serves as a barometer of American literature from modernist authorial effacement to postmodern literary self consciousness
