Reclaiming Balance Indigenous Peoples Conflict Resolution And Sustainable Development:

Reclaiming Balance Victoria Tauli-Corpus, Joji Cariño, 2004 **Handbook of Indigenous Peoples' Rights** Damien Short, Corinne Lennox, 2016-02-05 This handbook will be a comprehensive interdisciplinary overview of indigenous peoples rights Chapters by experts in the field will examine legal philosophical sociological and political issues addressing a wide range of themes at the heart of debates on the rights of indigenous peoples The book will address not only the major questions such as who are indigenous peoples What is distinctive about their rights How are their rights constructed and protected What is the relationship between national indigenous rights regimes and international norms but also themes such as culture identity genocide globalization and development rights institutionalization and the environment **Reflections on the UN Declaration on the Rights of Indigenous Peoples** Stephen Allen, Alexandra Xanthaki, 2011-01-12 The adoption of the Declaration on the Rights of Indigenous Peoples by the United Nations General Assembly on 13 September 2007 was acclaimed as a major success for the United Nations system given the extent to which it consolidates and develops the international corpus of indigenous rights This is the first in depth academic analysis of this far reaching instrument Indigenous representatives have argued that the rights contained in the Declaration and the processes by which it was formulated obligate affected States to accept the validity of its provisions and its interpretation of contested concepts such as culture land ownership and self determination This edited collection contains essays written by the main protagonists in the development of the Declaration indigenous representatives and field leading academics It offers a comprehensive institutional thematic and regional analysis of the Declaration In particular it explores the Declaration's normative resonance for international law and considers the ways in which this international instrument could catalyse institutional action and influence the development of national laws and policies on indigenous issues **International Trade in Indigenous Cultural Heritage** Christoph Beat Graber, Karolina Kuprecht, Jessica C. Lai, 2012-01-01 This text sets the standard for researchers working on the difficult issues raised by trade and commerce in indigenous cultural heritage **Sustainability Today** C. A. Brebbia, 2012 this book contains additional research papers submitted for a meeting on sustainable development and planning organized in 2011 by the Wessex Institute of Technology WIT WIT has a long and very successful record of organizing conferences on the topic of sustainability which requires an interdisciplinary approach Any sustainable solutions that are derived solely from the perspective of a single discipline may have unintended damaging consequences that create new problems Thus effective sustainable solutions require the collaboration of scientists and engineers from various disciplines as well as planners architects environmentalists policy makers and economists These experts must not only communicate with each other effectively but also understand the social aspects of the problem at hand The contents of the book reflect that interdisciplinary approach The topics covered by the papers in the book include City Planning Regional Planning Social and Political Issues Sustainability in the Built Environment Rural Development Cultural Heritage

Transportation Ecosystems Analysis Protection and Remediation Environmental Management Environmental Impact Assessment Indicators of Sustainability Sustainable Solutions in Developing Countries Sustainable Tourism Waste Management Flood Risk Management Resources Management Industrial Developments **Incorporating Indigenous Rights in the International Regime on Biodiversity Protection** Federica Cittadino, 2019-08-12 In *Incorporating Indigenous Rights in the International Regime on Biodiversity Protection* Federica Cittadino convincingly interprets the Convention on Biological Diversity CBD and its related instruments in light of indigenous rights and the principle of self-determination Cittadino's harmonisation of these formally separated regimes serves at least two main purposes First it ensures respect for the human rights framework that protects indigenous rights whilst implementing the biodiversity regime Second harmonisation allows for the full operationalisation of the indigenous related provisions of the CBD framework that concern traditional knowledge genetic resources and protected areas Federica Cittadino successfully demonstrates that the CBD may allow for the protection of indigenous rights in ways that are more advanced than under current human rights law

Political Ecology of Everyday Resistance and State Building Dhiraj Kumar, 2023-12-01 Resource extraction and conflicts over natural resources are a global phenomenon including in India Indigenous tribes like the Ho community in Jharkhand are affected by these dynamics as their cultural practices and livelihoods are intertwined with the local ecology This book explores the process of state formation through developmental intervention in the resource rich areas of Jharkhand in eastern India which are inhabited by the indigenous Ho community The conflict in Jharkhand is intertwined with State development projects and capitalist interventions This book examines the history of these projects and the issues of territorialization dispossession accumulation and marginalization which communities have been fighting against for many decades It examines the process of development policies and projects shaping and restructuring the resource rich ecology in the region and addresses the interrelated issues of development induced dispossession resistance ecological transformation governance illegalities and state building It focuses on the questions what do development projects bring to the Ho community what induces them to resist and negotiate How do State decentralization schemes and local governance in resource conflict areas strengthen State capacities The book highlights the consequences on the livelihoods and cultural practices of the local people because of ecological transformation and everyday resistance Comprehensive and important this book will be of interest to students and researchers of anthropology sociology political ecology social work development studies ecology developmental sociology indigenous studies law and economic anthropology **Nationalism,**

Referendums and Democracy Matt Qvortrup, 2016-04-08 Democracy is above all about majority rule But which majority should rule if a part of a country wants to secede and become independent Should the majority of the whole country decide Or only the majority in the part that seeks to become independent be allowed to vote Referendums and democracy have often been perceived to be almost incompatible with nationalism and ethnicity Are there limits to democracy and the use

of referendums This book looks at these issues through a comprehensive study of the referendums held on ethnic and nationalist issues since the French Revolution It analyses the pros and cons of referendums and presents a nuanced and up to date tour d horizon of the academic and scholarly writings on the subject by experts in international law comparative politics and international law This book was published as a special issue of Nationalism and Ethnic Politics *Earth Matters* Ciaran O'Faircheallaigh, Saleem Ali, 2017-09-08 Indigenous peoples have historically gained little from large scale resource development on their traditional lands and have suffered from its negative impacts on their cultures economies and societies During recent decades indigenous groups and their allies have fought hard to change this situation in some cases by opposing development entirely in many others by seeking a fundamental change in the distribution of benefits and costs from resource exploitation In doing so they have utilised a range of approaches including efforts to win greater recognition of indigenous rights in international fora pressure for passage of national and state or provincial legislation recognising indigenous land rights and protecting indigenous culture litigation in national and international courts and direct political action aimed at governments and developers often in alliance with non governmental organisations NGOs At the same time and partly in response to these initiatives many of the corporations that undertake large scale resource exploitation have sought to address concerns regarding the impact of their activities on indigenous peoples by adopting what are generally referred to as corporate social responsibility CSR policies This book focuses on such corporate initiatives It does not treat them in isolation recognising that their adoption and impact is contextual and is related both to the wider social and political framework in which they occur and to the activities and initiatives of indigenous peoples It does not treat them uncritically recognising that they may in some cases consist of little more than exercises in public relations However neither does it approach them cynically recognising the possibility that even if CSR policies and activities reflect hard headed business decisions and indeed perhaps particularly if they do so they can generate significant benefits for indigenous peoples if appropriate accountability mechanisms are in place In undertaking an in depth analysis of CSR and indigenous peoples in the extractive industries the book seeks to answer the following questions What is the nature and extent of CSR initiatives in the extractive industries and how should they be understood What motivates companies to pursue CSR policies and activities How do specific political social and legal contexts shape corporate behaviour What is the relationship between indigenous political action and CSR How and to what extent can corporations be held accountable for their policies and actions Can CSR help bring about a fundamental change in the distribution of benefits and costs from large scale resource exploitation and if so under what conditions can this occur *Earth Matters* gathers key experts from around the world who discuss corporate initiatives in Alaska Ecuador Australia Canada Peru Papua New Guinea Indonesia and Russia The book explores the great diversity that characterises initiatives and policies under the name of corporate social responsibility the highly contingent and contextual nature of corporate responses to indigenous demands and the complex and evolving nature of indigenous

corporate relations It also reveals much about the conditions under which CSR can contribute to a redistribution of benefits and costs from large scale resource development Earth Matters will be essential reading for those working in and studying the extractive industry worldwide as well as those readers looking for a state of the art description of how CSR is functioning in perhaps its most difficult setting **Promised Land** Peter Rosset,Raj Patel,Michael Courville,2006 This book represents the first harvest in the English language of the work of the Land Research Action Network LRAN LRAN is an international working group of researchers analysts nongovernment organizations and representatives of social movements pref

Culture, Religion and Conflict in Muslim Southeast Asia Joseph A. Camilleri,Sven Schottmann,2013 By examining the sometimes surprising and unexpected roles that culture and religion have played in mitigating or exacerbating conflicts this book explores the cultural repertoires from which Southeast Asian political actors have drawn to negotiate the pluralism that has so long been characteristic of the region Focusing on the dynamics of identity politics and the range of responses to the socio political challenges of religious and ethnic pluralism the authors assembled in this book illuminate the principal regional discourses that attempt to make sense of conflict and tensions They examine local notions of dialogue reconciliation civility and conflict resolution and show how varying interpretations of these terms have informed the responses of different social actors across Southeast Asia to the challenges of conflict culture and religion The book demonstrates how stumbling blocks to dialogue and reconciliation can and have been overcome in different parts of Southeast Asia and identifies a range of actors who might be well placed to make useful contributions propose remedies and initiate action towards negotiating the region s pluralism This book provides a much needed regional and comparative analysis that makes a significant contribution to a better understanding of the interfaces between region and politics in Southeast Asia **Strangers at Home** Yew-Foong Hui,2011-09-09 Focusing on the historical experiences of Chinese from West Kalimantan Indonesia whether in terms of migratory trajectories or ethnic and state violence this book interrogates the role of history in the formation of the Chinese Diasporic subject **The Bottom Line or Public Health** William H. Wiist,2010-03-03 When corporations claim the same citizenship rights as human citizens they exercise an undue influence on health policy and democratic processes Surprisingly the same basic repertoire of tactics has been found to be employed by corporations to effect this influence regardless of the specific industry at work In this book authors from around the world reveal the range of tactics used across the corporate world that ultimately favor the bottom line over the greater good The Bottom Line or Public Health deconstructs some of the most ubiquitous tactics at play including public relations political influence legal maneuvering and financial power using the pharmaceutical food and agriculture tobacco alcohol and motor vehicle industries as illustration However there is a growing global movement to counter this corporate force The book discusses the role of non governmental organizations indigenous peoples groups health advocates and social justice activists and the ways in which they are working to reduce corporate power and put control of policy back in the hands of individuals The Bottom Line or Public Health is for scholars interested in

studying the corporate entity and for individuals and organizations who want to reclaim democracy for human citizens so that health is placed above the bottom line Woven Together James S. Mastaler, 2019-04-17 Now more than ever it is critical that religious stories encompass a call to moral responsibility for the earth and to the global poor But the divorce between religious faith and science has left many people feeling unmoored and adrift at a time when we ought to be drawing closer to nature and each other It is a theological activity to see the world as it really is to look its suffering squarely in the face and tend to a wounded world The global poor especially women among them are some of the world's most disenfranchised people Their realities must inform the conversations about God and the world that people of faith are having in the church There is no salvation from the world only salvation with the world This means learning to live as a member of a community of mutual responsibility to look inward and ask ourselves how we might turn outward and live differently Concern for nature and social justice must become a central part of Christian moral life **Land, Poverty and Livelihoods in an Era of Globalization**

A. Haroon Akram-Lodhi, Saturnino M. Borras Jr., Cristóbal Kay, 2007-01-24 A host of internationally eminent scholars are brought together here to explore the structural causes of rural poverty and income inequality as well as the processes of social exclusion and political subordination encountered by the peasantry and rural workers across a wide range of countries This volume examines the intersection of politics and economics and provides a critical analysis and framework for the study of neo liberal land policies in the current phase of globalization Utilizing new empirical evidence from ten countries it provides an in depth analysis of key country studies a comparative analysis of agrarian reforms and their impact on rural poverty in Africa Asia Latin America and transition countries Presenting an agrarian reform policy embedded in an appropriate development strategy which is able to significantly reduce and hopefully eliminate rural poverty this work is a key resource for postgraduate students studying in the areas of development economics development studies and international political economy **Indigenous Peoples** Henry Minde, 2008 Review During the past decade there has emerged growing criticism largely from anti essentialist social scientists and multicultural politicians advocating a critique of ethnic and indigenous movements accompanied by a general backlash in governmental policies and public opinion towards indigenous communities This book focuses on the implication of change for indigenous peoples their political legal and cultural strategies BOOK JACKET

The Languages and Linguistics of South Asia Hans Henrich Hock, Elena Bashir, 2016-05-24 With nearly a quarter of the world's population members of at least five major language families plus several putative language isolates South Asia is a fascinating arena for linguistic investigations whether comparative historical linguistics studies of language contact and multilingualism or general linguistic theory This volume provides a state of the art survey of linguistic research on the languages of South Asia with contributions by well known experts Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research In addition to covering the languages their histories and their genetic classification as well as phonetics

phonology morphology syntax and sociolinguistics the volume provides special coverage of contact and convergence indigenous South Asian grammatical traditions applications of modern technology to South Asian languages and South Asian writing systems An appendix offers a classified listing of major sources and resources both digital online and printed
