Reclaiming Religion From The Church:

Reclaiming Religion from the Church Frank Canatella, 2003-02 The first rule of life is survive And since we are necessarily social we must add the corollary together All oughts derive from this two part rule Most of us understand this intuitively if not explicitly The only issue to be resolved is how inclusive is our togetherness Is it just our tribe our nation the northern hemisphere Or must we include the whole human family These are the moral issues we must answer and they are empirical questions Behavior has consequences We have to ask ourselves Will such and such behaviors promote survival The answer can only come from the experience of the community Present demographics will not allow us to elude the question much longer Church rules can be faulted on a number of counts not the least of which is that God gave us the rules so they can't change even when experience indicates that they should Also the church leaders think the purpose of the rules is to save our souls and so our life here has been seriously neglected in many respects especially for the poor and the underclass because everything is supposed to be made right in the hereafter This I regard as backward It affirms those who oppress the poor Scientists make inferences from empirical data and the results are always subject to revision Church officials make inferences from myths and they are set in stone A good example is the doctrine of Original Sin that is presented as an occult event that causes all our problems and about which we can do nothing The church approved of slavery for the better part of two millennia because it was in place when the church was created and St Augustine justified it as one of the punishments resulting from Original Sin Clearly our problem is ignorance the kind we are born with and the kind we acquire through learning falsely I call this Ignorance II after Gregory Bateson's Learning II learning how to learn Ignorance II is a learning dead end learning how not to learn We very obviously do not always know how to act in our own best interests Our best chance of breaking out of this mold is through sharing the best of our communal experience to discover how to act in our own best interests in the long run This is how to develop a proper morality one we can all live with With a superior organization in place the church is positioned to unite us in the task of developing a proper morality However the church as presently structured can only evolve by backing into the future It claims to already know everything that is necessary to know so it has difficulty learning thus denying its human origin and makeup To change the church requires a spin on history that demonstrates a development and continuity with the past instead of just saying We have been wrong The People of God the true Church show signs of reclaiming religion through various dissident groups These groups do not yet recognize the intimate connection between morality and survival My hope is that this book will guide them toward that recognition

Reclaiming Church J.J. Warren, 2020-02-04 In Reclaiming Church J.J. Warren continues his call to reaffirm the Church be welcoming to all including young people like those he led at Sarah Lawrence College who didn't know God could love them because their churches said God didn't The book addresses three points of importance to young people looking to be part of a church community and a call 1 The identity and nature of God 2 The role of Scripture in discerning God's call 3 The

author's own experience of God, church, and identity. In the final chapter, *We Are the Church*, Warren focuses on practical and positive steps for joining voices, being heard, building bridges, and working together for young people to reclaim church in their lives. Key Features: Affirms to the LGBTQ community and those who love them that the Church is for all. Inspires younger progressive people to stay within the Church and work to renew the call of ministry. Explores the Church's beginnings and emphasis on community. Calls readers to focus on practical and positive steps to reclaim church in their lives. *Reclaim* Tony Sorci, Russ Johnson, 2021-04-23. The title may be perceived as pridefully suggestive, coming across as a definitive fix-all resource until you realize that this book is the anti-manual for being the liberated people of God in the world. In an age of religious moralism and institutional metrics, *Reclaim* seeks to help the global Church retrieve its message of indiscriminate grace and reimagine its ministry within freedom and friendships. **Reclaiming Inactive Church Members** Herbert W. Byrne, 2003. This book is designed to provide assistance to pastors and church leaders on how to reclaim inactive church members. Actual real-life illustrations are provided to show how some churches have made efforts to solve this problem.

Reclaiming Spirit in the Black Faith Tradition D. Hicks, 2012-10-31. This work attempts to uncover the function of religion for those degraded on the basis of race. Accordingly, *Recalibrating Spirit* reveals the role of religion in critical reflection on and active protest against negative assertions about racial identity in general and the abuse of black life in particular. *Recovering Hispanic Religious Thought and Practice of the United States* Nicolás Kanellos, 2009-05-05. The primary role played by religion in the development of the Spanish nation in the Iberian Peninsula and its subsequent role in the Spanish conquest and colonization of the Americas has been well studied. Similarly, Hispanics around the world and in the United States have been characterized in scholarship and popular opinion by the dimensions of their predominant Catholic faith. To date, neither their diversity of faith nor their ethnic and racial diversity have been adequately addressed, thus contributing to a widely held perception of a monolithic culture with its own Catholic world view, a world view often categorized as obscurantist, mystical, and anachronistic. Most important, the role of religion in all of its diversity and historical evolution in building Hispanic culture in the United States has not been adequately studied or understood. Today, because a corpus of Hispanic religious thought from across the ages in the United States has been reconstituted and there are scholars dedicated to understanding this thought and the experience it reveals, publication of this present volume has been made possible. The chapters of *Recovering Hispanic Religious Thought and Practice in the United States* have resulted from the research underwritten by the eponymous Recovery project and initially presented at Recovery conferences in 2004 and 2005. After scholarly debate and reworking of the research papers, the articles contained in this volume were selected. They represent original work on topics rarely addressed before in recognition that these articles are laying the groundwork on which an entire sub-discipline of Hispanic history, literature, and theology will be constructed. The material addressed is so rich and the themes so numerous and promising that their presentation and elaboration here most certainly will entice

scholars from other disciplines to broaden their perspectives on Hispanic life in the United States and perhaps to look to these religious and other alternative sources in conducting their own disciplinary research *ReClaimed Church* Bill Henard, 2018-06-01 It's no secret churches are dying Tragically thousands of churches in the United States are shrinking some closing their doors forever The key to reversing these trends argues Bill Henard is for a local church to recognize where it is in the church life cycle Unless churches intentionally do something about it many of them will follow the same pattern from birth to plateau and eventually to death But if a church learns to identify its place within the life cycle and embraces the necessary processes it can return to growth In a day when church membership has decreased evangelistic zeal has cooled and budgets are disappearing ReClaimed Church is the tool that struggling churches need Having previously written and taught seminary courses on church revitalization Bill Henard uses his expertise to provide all the practical insights and instructions needed to reclaim your church Reclaiming the Oral Tradition of the African Baptist Church David W. Sparks, 2024-08-07 In a narrative built on groundbreaking research David W Sparks traces the history of African Baptists in North America particularly Nova Scotia in Reclaiming the Oral Tradition of the African Baptist Church His goal is to recapture and reclaim the oral tradition that once shaped the theology and spiritual practices of the African Baptist Church in its earliest days Mr Sparks defines oral as the practices customs beliefs and folkways of a people and community that are passed on by word of mouth over several generations As opposed to a collection of items in a catechism of religious and doctrinal statements oral tradition looks more to the heart and the conversion experience For example to obtain salvation candidates are to withdraw to a quiet place to seek the Lord in prayer and wait to hear from God They're expected to persist until they see the blood of Jesus which is central to salvation in the oral tradition Running throughout the text are various biblical passages historical sources and theological themes that give weight substance and relevance to a once dynamic tradition Mr Sparks makes the argument that the present moral and spiritual state of the African Baptist Church is the direct result of the loss and abandonment of its religious heritage and oral tradition It calls therefore for a return to that tradition a call to a renewed focus on salvation revival restoration and hope **Recovering the Eucharistic Ecclesiology of the Early Church** Anastacia Wooden, 2025-01-10 The first theologian who spoke of eucharistic ecclesiology was the Russian Orthodox church historian and canonist Nicolas Afanasiev 1893-1966 He claimed to have re-discovered and systematized the original ecclesiology of the early church which he called eucharistic Since then the eucharistic ecclesiology crossed confessional borders and shaped the theological discussion on the nature of the church Many authors of different Christian confessions developed Afanasiev's basic intuition while proposing a variety of their own understandings of the eucharistic nature of the church from Orthodox theologians like John Zizioulas and John Romanides to Catholic theologians like J M Tillard and Joseph Ratzinger Ironically the details of Afanasiev's own ecclesiological system remain largely unknown It is Anastacia Wooden's conviction that the prevailing stereotypical view of Afanasiev's ecclesiology is suffering from

fracturing of his thought Therefore the aim of her book is to formulate a comprehensive view of Afanasiev s ecclesiological vision and of its significance for contemporary ecclesial life Part one of the book provides the fullest to date biographical context of Afanasiev s scholarship Part two addresses the four key issues that historically complicated understanding of Afanasiev s ecclesiology Part three provides a synthesis of Afanasiev s total ecclesiological vision systematized in six ecclesiological themes ministry sacraments law governance and teaching church unity and church state relations It demonstrates how Afanasiev s methodological assumption that ecclesiology can serve as a tool to make sense of the historical data on the life of the church led to his realization that the early church had an operative ecclesiology which placed the exercise of royal priesthood in the Eucharist as the starting point of the ecclesial structure In each chapter of the second part this book provides reflections on the contemporary relevance of Afanasiev s work In the current crises of leadership in the Catholic Church as well as other Christian churches it may prevent the adoption of arbitrary forms of lay participation in the church governance by reminding church leaders that a theologically meaningful increase of lay participation should always be framed in terms of the increased participation of local churches

Recovering the Ecumenical Bonhoeffer Javier A. Garcia,2019-10-14 In *Recovering the Ecumenical Bonhoeffer* Javier Garcia explores the possibilities for Dietrich Bonhoeffer s theology to revitalize interest in the ecumenical movement and Christian unity today Although many commentators have lamented the waning interest in the ecumenical movement since the 1960s the celebration of the 500th anniversary of the Protestant Reformation in 2017 coupled with recent in roads such as the ecumenical efforts of Pope Francis have opened new possibilities for the ecumenical project In this context Garcia presents Bonhoeffer as a helpful model for contemporary ecumenical dialogue He finds important points of convergence between Bonhoeffer and Calvin thereby establishing potential areas of rapprochement between the Lutheran and Reformed traditions Beyond examining the state of ecumenism and unfolding the ecumenical promise of Bonhoeffer s thought Garcia assesses the future of ecumenical engagement in a secular age Altogether he proposes a recovery of the ecumenical Bonhoeffer for envisioning new possibilities for church unity in our day *Recovering the Margins of American Religious History* B. Chung,2012-03-09 *Reclaiming Mission as Constructive Theology* offers a compelling case for the need to integrate God s mission and missional church conversation with a public and post colonial study of World Christianity Driven by a commitment to publicly engaged theology that takes seriously the reality of Global Christianity Paul Chung presents a vital new model for understanding the mission of God as a dynamic word event This is argued in conversation with contemporary missional theology and analysis of the development of Global Christianity and as such brings important transcultural issues to bear on contemporary American conversations about the missional church All of this serves
