Right-of-way Acquisition Practices in Massachusetts United States. Congress. House. Committee on Public Works. Special Subcommittee on the Federal-Aid Highway Program,1962 The Victorian Mind's Eye Julia Thomas,2025-01-12 The Victorian Mind s Eye Reading Literature in an Age of Illustration The Victorians lived in an age of illustration In a matter of decades words and images had become enmeshed and entangled printed alongside each other in a spectacular array of printed forms The exponential growth of illustration not only radically changed literature but also changed the way that literature was read This book offers a major conceptualisation of the difference that pictures made to the reading of words Analysing an extensive range of illustrated material and drawing on the accounts of Victorian readers reviewers authors artists and psychologists the book describes how the Victorians characterised the effects of illustration and how illustrations in turn elicited and anticipated responses from their readers What emerges from these sources is the notion of a distinct mode of reading that determined readers material and mental engagements with illustrated literature The presence of images on the page was said to impact on whether readers created images in their mind as they read Illustrations generated feelings of pleasure or displeasure they determined what was read first what was recalled and what was etched in the memory By peering into the recesses of the mind s eye this book identifies the cognitive mechanisms and cultural politics that were central to how the Victorians described their reading of illustrated literature It suggests the significance of these ideas of reading for understanding the place of illustration in Victorian culture and the relation between words pictures and historical values and meanings Illustration was fundamental to how the Victorians read and to how we read the Victorians
