Recollective Resolve A Phenomenological Understanding Of Time And Myth:

Recollective Resolve Sanford Krolick,1987 **Myth and Modernity** Milton Scarborough,1994-01-01 This book surveys selected modern theories of myth from philosophy religion anthropology sociology and psychoanalysis to demonstrate a common commitment to a dualistic ontology and or epistemology With help from the work of Maurice Merleau Ponty and Michael Polanyi the author proposes a new theory of myth which goes beyond these dualisms It argues that although the Enlightenment sought to banish myth it was itself animated by myths which it could neither recognize nor accredit Moreover it argues that myth is a primordial articulate grasp of the life world and is essential for providing a fundamental orientation to all human activities including theorizing The myths of Timaeus and Genesis are shown tacitly to shape modernity s most sophisticated theories in science and philosophy including the criteria for truth The Recovery of Ecstasy Sandy Krolick,2009-02-10 An ecstatic life can once again be recovered by recollecting the original elemental intertwining of the body and the world as lived by the body A journey unlike any you ve ever taken before **A Sideways Look at Time** Jay Griffiths,2004-03-08 A brilliant and poetic exploration of the way that we experience time in our everyday lives Why does time seem so short How does women s time differ from men s Why does time seem to move slowly in the countryside and quickly in cities How do different cultures around the world see time In A Sideways Look at Time Jay Griffiths takes readers on an extraordinary tour of time as we have never seen it before With this dazzling and defiant work Griffiths introduces us to dimensions of time that are largely forgotten in our modern lives She presents an infectious argument for other more magical times the diverse cycles of nature of folktale or carnival when time is unlimited and on our side This is a book for those who suspect that there s more to time than clocks Irresistible and provocative A Sideways Look at Time could change the way we view time forever **Time: A Bibliographic Guide** Samuel L. Macey,2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies **Science Unfettered** J. E. McGuire,Barbara Tuchańska,2000 Working on a large canvas Science Unfettered contributes to the ongoing debates in the philosophy of science The ambitious aim of its authors is to reconceptualize the orientation of the subject and to provide a new framework for understanding science as a human activity Mobilizing the literature of the philosophy of science the history of science the sociology of science and philosophy in general Professors McGuire and Tuchanska build on these fields with the view of transforming their insights into a new epistemological and ontological basis for studying the enterprise of science In this approach McGuire and Tuchanska have combined work from both Anglo American and Continental traditions of philosophy As a result the works of Popper Kuhn Quine and Lakatos as well as Heidegger Gadamer Nietzsche Foucault and Feyerabend are called into play In addition Science Unfettered deals extensively with history and historicity offering a theory of historicity of science as it emerges in sociocultural contexts

Unorthodox in its approach Science Unfettered articulates an alternative that views science ontologically as a practice a perspective from which traditional issues concerning the relationship of experiment to theory the cognitive to the social the relation between historical change and epistemic validity the meaning of objectivity and the like can be addressed in a more fruitful way than is possible by starting with the traditional ontological framework of subject and object **Pip Pip** Jay Griffiths,1999 An enthusiastic piece of pop anthropology on the one subject that has ousted sex and money from the top of the obsessions league Jay Griffiths takes the subject of time in her teeth and chews at it until it s a far more palatable item Her exploration of the passage of time includes our obsession with speed with overtaking motorways and their link to fascism war Mercury god of flight and the mythology of time and speed Diana and Marilyn Monroe flawed women who through their violent deaths have become timeless icons history and the heritage industry the meanness of Greenwich Mean Time the fast language we now have to go with fast food Aborigine dreamtime the difference between festivals and pageants May Day and the New Year **The Philosophical Review** ,1988 **Elenchus bibliographicus** ,1988 Choice ,1997 Subject Guide to Books in Print ,1993 Traditiones ,2001 **Forthcoming Books** Rose Army,1987 **The Body's Recollection of Being** David Michael Levin,2002-01-04 This is a unique study containing the work of Merleau Ponty and Heidegger and using the techniques of phenomenology against the prevailing nihilism of our culture It expands our understanding of the human potential for spiritual self realization by interpreting it as the developing of a bodily felt awareness informing our gestures and movements The author argues that a psychological focus on our experience of well being and pathology as embodied beings contributes significantly to a historically relevant critique of ideology It also provides an essential touchstone in experience for a fruitful individual and collective response to the danger of nihilism Dr Levin draws on Merleau Ponty s phenomenology to clarify Heidegger s analytic of human beings through an interpretation that focuses on our experience of being embodied He reconstructs in modern terms the wisdom implicit in western and semitic forms of religion and philosophy considering the work of Freud Jung Foucault and Nietzsche as well as that of American educational philosophers including Dewey In particular he draws on the psychology of Freud and Jung to clarify our historical experience of gesture and movement and to bring to light its potential in the fulfilment of Selfhood Throughout the book the pathologies of the ego and its journey into Selfhood are considered in relation to the conditions of technology and the powers of nihilism *American Book Publishing Record* ,1987 **Myth-X** Michelle Bush,2008-07-25 This is an analysis of the sci fi television show The X Files mytharc focusing on the use of mythological themes and symbols **Books in Print** ,1987 Timeframes ,1997 Towards a Polemical Ethics Gregory Fried,2021-04-07 Martin Heidegger held Plato responsible for inaugurating the slow slide of the West into nihilism and the apocalyptic crisis of modernity In this book Gregory Fried defends Plato against Heidegger s critiques While taking seriously Heidegger s analysis of human finitude and historicity Fried argues that Heidegger neglects the transcending ideals that necessarily guide human life as situated in time and place That neglect

results in Heidegger's disastrous politics unhinged from a practical reason grounded in the philosophical search from a truth that transcends historical contingency. Thinking both with and against Heidegger, Fried shows how Plato's skeptical idealism provides an ethics that captures both the situatedness of finite human existence and the need for transcendent ideals. The result is a novel way of understanding politics and ethical life that Fried calls a polemical ethics which mediates between finitude and transcendence by engaging in constructive confrontation with both traditions and other persons. The contradiction between the founding ideals of the United States and its actual history of racism and slavery provides an occasion to discuss polemical ethics in practice. *Genre*, 1978
