## **Reconceiving Decision Making In Democratic Politics:**

*Reconceiving Decision-making in Democratic Politics* Bryan D. Jones, 1994      Decisionmaking on War and Peace Nehemia Geva, Alex Mintz, 1997 Reviewing comparing and contrasting models of foreign policy this volume focuses on the cognitive vs rational debate about decisionmaking on war and peace It provides alternative models of foreign policy choice and identifies when one strategy is more appropriate than another      Policy Legitimacy, Science and Political Authority Michael Heazle, John Kane, 2015-10-05 Voters expect their elected representatives to pursue good policy and presume this will be securely founded on the best available knowledge Yet when representatives emphasize their reliance on expert knowledge they seem to defer to people whose authority derives not politically from the sovereign people but from the presumed objective status of their disciplinary bases This book examines the tensions between political authority and expert authority in the formation of public policy in liberal democracies It aims to illustrate and better understand the nature of these tensions rather than to argue specific ways of resolving them The various chapters explore the complexity of interaction between the two forms of authority in different policy domains in order to identify both common elements and differences The policy domains covered include climate geoengineering discourses environmental health biotechnology nuclear power whaling economic management and the use of force This volume will appeal to researchers and to convenors of post graduate courses in the fields of policy studies foreign policy decision making political science environmental studies democratic system studies and science policy studies      **Shell, Greenpeace and the Brent Spar** G. Jordan, 2001-08-14 The decision by multinational Shell not to dispose of the Brent Spar oil facility in the North Atlantic was taken after several occupations of the structure by Greenpeace and as a result of large scale pro Greenpeace protest in the UK Germany and other continental countries This case is often cited as showing the power of single issue pressure groups and is presented as leading to a pivotal reconsideration by big business of the importance of environmental dimensions However detailed research proves that Shell changed its mind on the Brent Spar issue because of the corporate structure of the company which meant that some parts were reluctant to bear the bad publicity Using this case study Grant Jordan considers the role of scientific advice in shaping governmental decisions on matters such as BSE GM foods global warming and the consequences of a divided scientific view He looks at the use of the media by groups and companies attempting to control the political agenda      **Defining NASA** W. D. Kay, 2012-02-01 Most observers would point to the 1969 Apollo moon landing as the single greatest accomplishment of NASA yet prominent scientists engineers and public officials were questioning the purpose of the U S space program even at the height of its national popularity Defining NASA looks at the turbulent history of the space agency and the political controversies behind its funding W D Kay examines the agency s activities and behavior by taking into account not only the political climate but also the changes in how public officials conceptualize space policy He explores what policymakers envisioned when they created the agency in 1958 why support for the Apollo program was so

strong in the 1960s only to fade away in such a relatively short period of time what caused NASA and the space program to languish throughout most of the 1970s only to reemerge in the 1980s and finally what role the agency plays today Policy Dynamics Frank R. Baumgartner, Bryan D. Jones, 2002-06-15 While governmental policies and institutions may remain more or less the same for years they can also change suddenly and unpredictably in response to new political agendas and crises What causes stability or change in the political system What role do political institutions play in this process To investigate these questions Policy Dynamics draws on the most extensive data set yet compiled for public policy issues in the United States Spanning the past half century these data make it possible to trace policies and legislation public and media attention to them and governmental decisions over time and across institutions Some chapters analyze particular policy areas such as health care national security and immigration while others focus on institutional questions such as congressional procedures and agendas and the differing responses by Congress and the Supreme Court to new issues Policy Dynamics presents a radical vision of how the federal government evolves in response to new challenges and the research tools that others may use to critique or extend that vision
