Technology and the Good Life? Eric Higgs,Andrew Light,David Strong,2010-12-15 Can we use technology in the pursuit of a good life or are we doomed to having our lives organized and our priorities set by the demands of machines and systems How can philosophy help us to make technology a servant rather than a master *Technology and the Good Life* uses a careful collective analysis of Albert Borgmann s controversial and influential ideas as a jumping off point from which to address questions such as these about the role and significance of technology in our lives Contributors both sympathetic and critical examine Borgmann s work especially his device paradigm apply his theories to new areas such as film agriculture design and ecological restoration and consider the place of his thought within philosophy and technology studies more generally Because this collection carefully investigates the issues at the heart of how we can take charge of life with technology it will be a landmark work not just for philosophers of technology but for students and scholars in the many disciplines concerned with science and technology studies [Gender, Time, and Reduced Work](#) Cynthia Negrey,1993-07-01 This book compares and analyzes different forms of reduced work conventional part time employment temporary employment job sharing and work sharing Through interviews workers reveal their experiences with reduced work particularly the extent to which they control their work schedules how they use their time off and whether they feel that reduced work improves or diminishes their quality of life Negrey challenges the notions that reduced work is homogenous and that it is uniformly positive or negative in its consequences for workers She concludes that reduced work is sex segregated in ways similar to full time work and as it currently exists reinforces unequal gender relations rather than contests them *Labor Market Problems of Older Workers* ,1989 [Labor Market Problems of Older Workers](#) United States.
