New Essays on Samuel Johnson Anthony W. Lee, 2018-10-17 New Essays on Samuel Johnson Revaluation is a collection of essays by various hands that examines its point of focus the inexhaustible English author Samuel Johnson from a variety of different critical perspectives The book also simultaneously interrogates particular texts such as the Dictionary the Lives of the Poets alongside general themes such as Johnson and intertextuality Johnson and autobiography The word revaluation from the title connotes both the deployment of specifically au courant approaches viewing for example Johnson in relation to climate change or Johnson and the notion of cosmology as well as more general reflections upon Johnson s importance to our present cultural and temporal moment **Samuel Johnson** Isobel Grundy, 1984 This collection then does not claim to be revolutionary but it hopes to be revisionary It sets out from the assumptions that Johnson is easy to love but hard to understand that there is always some further angle we have not yet grasped that his readers undergo a persistent experience of having not without effort to rethink and that having made such an effort they may then find themselves in a position to offer new information or new insight We have tried in this volume while bearing in mind the wealth of his achievement to set before our readers some aspects of his writing which have been least well recognized and which have strongest contemporary interest Preface page 8 **The Reformist Ideas of Samuel Johnson** Stefka Ritchie, 2017 This book explores what remains an under studied aspect of Samuel Johnson s profile as a person and writer namely his attitude to social improvement The interpretive framework provided here is cross disciplinary and applies perspectives from social and cultural history legal history architectural history and of course English literature This allows Johnson s writings to be read against the peculiarities of their historical milieu and reveals Johnson in a new light as an advocate of social improvement for

human betterment Considering the multiplicity of narrative modes that have been employed the book points to the blurred boundaries and overlapping between history testimony and fiction and argues that a future biography of Samuel Johnson has to recognise that throughout his life he valued the utilitarian aspect of his manifesto as a writer to impart a more charitable attitude in the pursuit of a more caring society
