**Marketing and Social Construction** Chris Hackley, 2003-08-29 Marketing is at the centre of the business education boom a million or more people worldwide are studying the subject at any one time Yet despite widespread discontent with the intellectual standards in marketing very little has changed over the past thirty years In this ground breaking new work Chris Hackley presents a social constructionist critique of popular approaches to teaching theorising and writing about

marketing Drawing on a wide range of up to date European and North American studies Dr Hackley presents his argument on two levels First he argues that mainstream marketing s ideologically driven curriculum and research programmes dominated by North American tradition reproduce business school myths about the nature of practically relevant theory and the role of professional education in management fields Second he suggests a broadened theoretical scope and renewed critical agenda for research theory and teaching in marketing Intellectually rigorous yet comprehensible this work will be of vital importance to all those interested in the future of teaching and research in business and management

*Social Thinking and History* Constance De Saint Laurent,2020-09-14 Social Thinking and History demonstrates that our representations of history are constructed through complex psychosocial processes in interaction with multiple others and that they evolve throughout our lifetime playing an important role in our relation to our social environment Building on the literature on social thinking collective memory and sociocultural psychology this book proposes a new perspective on how we understand and use our collective past It focuses on how we actively think about history to construct representations of the world within which we live and how we learn to challenge or appropriate the stories we have heard about the past Through the analysis of three studies of how history is understood and represented in different contexts in political discourses in France by intellectuals and artists in Belgium and when discussing a current event in Poland its aim is to offer a rich picture of our representations of the past and the role they play in everyday life This book will be of great interest to academics researchers and postgraduate students in the fields of psychology memory studies sociology political science and history It will also make an interesting read for psychologists and human and social scientists working on collective memory

**A Critical Reconstruction of Evidence-based Practice in Psychology** Henrik Berg,2024-10-30 Evidence based practice in psychology is the dominant regulatory principle in clinical psychology defining psychological knowledge and its application This book provides a critical analysis and a reconstruction of the policy statement focusing on epistemology and ethics The book shows the ideological and historical background for the development of evidence based practice in psychology It covers the main conceptual and empirical arguments leading to this transition including philosophy and evidence based medicine The book goes on to show some of the defects of evidence based practice in psychology it misconstrues psychological knowledge reduces the number of ethical resources available to regulate psychological practices does not fulfil its ambitions of being a tripartite concept and undertheorises the issue of integration The closing chapters provide a constructive critique preserving the valuable aspects of evidence based practice in psychology while developing it to make it function adequately In that sense the book aims to change the way psychological knowledge is understood and used in practice This text will be engaging and thought provoking for anyone using psychological knowledge with patients or clients It will provide analytic resources to understand psychology better and facilitate the application of psychological knowledge in various settings The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons

Freedheim, Irving B. Weiner, 2003      Practicing Feminisms, Reconstructing Psychology Jill G Morawski, 2025-10-01 Practicing Feminisms Reconstructing Psychology is a valuable survey of developments to date in feminist psychology and a provocative assessment of its future possibilities For many psychologists engaged with the questions raised by modern feminist the reconciliation of scientific methods and feminist commitments has been a complicated and sometimes perplexing project In her book Jill Morawski attempts to move beyond the apparent impasses toward a constructive feminist psychology The book assesses the substantive advances feminist psychology has made and proposes ways in which those transformations can lead to new research and methodologies These transformative interventions Morawski argues have often consisted of local and partial alterations to established methods rather than a programmatic metatheory or a formulaic methodology She reviews a variety of exemplary studies that demonstrate how such intermittent practices taken together constitute a groundwork for radically new forms of psychological inquiry The study describes feminist challenges to long held conceptions of objectivity subjectivity and validity and examines emergent problems and ongoing debates The feminist innovations discussed reveal the impossibility of a pure and abstract objective stance and demonstrate the feasibility of situated and critical objective practices Morawski also shows how experimental investigative strategies are generating new perspectives on subjectivity which incorporate agency as well as dependence reflection as well as reactivity Feminist inquiry is modifying the procedures through which knowledge is warranted with different evaluations of validation processes Despite the transformations in these areas the pursuit of a feminist psychology remains in transition in a liminal space Among the emerging issues Morawski explores are vicissitudes of reflexivity the investigator's self and the cultural bases of psychological knowledge      *Reconstruction of the Secondary-school Curriculum* Walter Scott Monroe, Marion Eugene Herriott, 1928      *Postmodern Psychologies, Societal Practice, and Political Life* Lois Holzman, John Morss, 2014-06-03 After over a decade of theoretical writing it is now possible and timely to evaluate the impact of postmodernism on psychology This book brings together a group of highly respected contributors to the postmodern debate in psychology Their chapters reflect on achievements and limitations of attempts to develop postmodern approaches to psychology The essays are interactive reflective and the authors are often in active debate This volume introduces the general reader to such topics as Marxist and feminist psychology social constructionism

and deconstructionism Postmodern Psychologies is the first book to assess postmodernism s impact on psychology both within the discipline of psychology and the broader culture      *Stephan Körner — Philosophical Analysis and Reconstruction*
