Reconstructing Wartorn Societies Afghanistan:

Reconstructing War-Torn Societies Sultan Barakat, 2004-03-04 As international attention focuses on the rebuilding of Afghanistan this collection looks critically at the evolution and meaning of the core concepts underpinning aims and strategies for recovery the key role of institutional development and capacity building in establishing good governance based on collaboration between state civil society and market the empirical consensus over many decades for best practice in development the acknowledgement that recovery of war torn societies is a development challenge It is also shown that despite this understanding operational practice continues to contradict these principles and lessons learned from proven experience

Reconstructing Post-Saddam Iraq Sultan Barakat, 2007-08-16 Previously published as a special issue of Third World Quarterly this volume seeks to analyze to what extent the controversial US policy of democratizing the Middle East with pre emptive invasions was justified or effective Post 9 11 the US developed a policy of War on Terror taking the decision to democratize the Middle East with pre emptive in **Afghanistan** C. Heather Bleaney, María Ángeles Gallego, 2006 Presents a thematically indexed bibliography devoted to Afghanistan Following the pattern established by one of its major data sources viz the acclaimed Index Islamicus both journal articles and book publications are included and indexed

Beyond Reconstruction in Afghanistan J. Montgomery, D. Rondinelli, 2004-04-23 The interaction of failed states terrorism and the need for nation building is at the top of the international agenda with particular focus on Afghanistan and Iraq This path breaking collection brings together top analysts to examine the goals and challenges facing efforts to reconstruct states that have collapsed into anarchy or have been defeated in war Drawing on lessons from 50 years of past experience with post conflict reconstruction and development around the world the authors provide historical context identify difficulties that can impede progress and recognize the realistic limitations of ambitions to create new states They assess ongoing development plans in a country devastated by more than a century of conflict Throughout particular attention is paid to the interaction of the goals of external and domestic actors highlighting the importance of understanding the internal social economic and political environment of the society receiving assistance

Freedom on the Frontlines Lina AbiRafeh, 2022-02-10 Afghan women were at the forefront of global agendas in late 2001 fueled by a mix of media coverage humanitarian intervention and military operations Calls for liberating Afghan women were widespread Women s roles in Afghanistan have long been politically divisive marked by struggles between modernization and tradition Women politics and the state have always been intertwined in Afghanistan and conflicts have been fueled by attempts to challenge or change women s status It may appear that we have come full circle twenty years later in late 2021 when Afghanistan fell to the Taliban once more Women s rights in Afghanistan have been stripped away and any gains however tenuous now appear lost Today the country navigates both a humanitarian and a human rights crisis This book measures the rhetoric of liberation and the physical and ideological occupations of Afghanistan over the twenty year period from 2001 through 2021 through the voices perspectives and

experiences of those who are implicated in this reality Afghan women

The A to Z of Afghan Wars, Revolutions and Insurgencies Ludwig W. Adamec, 2010-04-07 All the information currently available on the endless chain of wars stretching over two and a half centuries is traced in The A to Z of Afghan Wars Revolutions and Insurgencies It consists of the American involvement in Afghanistan since October 2001 as well as individual c

Afghanistan Barnett R. Rubin, 2020 Afghanistan a landlocked country in Central Asia has improbably been at the center of international geopolitics for four decades After the Soviet Union invaded in 1980 Afghanistan descended into an unending conflict that featured at various points most of the world's major powers In the mid 1990s the country entered a new phase when the Taliban took power and imposed order based on a harsh repressive version of Islamic law Infamously the sheltered Osama bin Laden whose attack on 9 11 Towers ushered in the Global War on Terror drew tens of thousands of American troops to the country where they remain today In Afghanistan What Everyone Needs to Know R leading scholar Barnett R Rubin provides an overview of this complicated nation After providing a concise history of Afghanistan he explores the various peoples and cultures of the country and its relations with neighbors like Pakistan and Iran He also provides an authoritative overview of the conflicts that have plagued the country since the Soviet invasion Both wide ranging and pithy this book explains why Afghanistan matters and what its possible future might look like

The A to Z of Afghan Wars, Revolutions and Insurgencies Ludwig W. Adamec, 2010-04-07 Since its foundation in 1747 Afghanistan has seen seemingly limitless wars waged by the central government to consolidate its control over the country as well as rampant tribal warfare There have been three Anglo Afghan Wars 1839 42 1878 79 and 1919 a Russian backed Marxist government in Kabul battled a coalition of tribal armies which was soon followed by the Taliban takeover Now in the midst of a war against terrorism the United States is backing another central government in yet another sporadic struggle All the information currently available on the endless chain of wars stretching over two and a half centuries is traced in The A to Z of Afghan Wars Revolutions and Insurgencies It consists of the American involvement in Afghanistan since October 2001 as well as individual campaigns including tactics and logistics of skirmishes the weapons used and biographical entries on the significant leaders involved in the battles Extensive analysis of regional and ideological divisions within the country and the external forces that have brought around conflict in this remote mountainous region in addition to a chronology of the encounters an extensive bibliography and numerous maps and illustrations make this crucial volume indispensable

Rebuilding War-Torn States Graciana del Castillo, 2008-09-25 Post conflict economic reconstruction is a critical part of the political economy of peacetime and one of the most important challenges in any peace building or state building strategy After wars end countries must negotiate a multi pronged transition to peace Violence must give way to public security lawlessness political exclusion and violation of human rights must give way to the rule of law and

participatory government ethnic religious ideological or class caste confrontation must give way to national reconciliation and ravaged and mismanaged war economies must be reconstructed and transformed into functioning market economies that enable people to earn a decent living Yet how can these vitally important tasks each be successfully managed How should we go about rehabilitating basic services and physical and human infrastructure Which policies and institutions are necessary to reactivate the economy in the short run and ensure sustainable development in the long run What steps should countries take to bring about national reconciliation and the consolidation of peace In all of these cases unless the political objectives of peacetime prevail at all times peace will be ephemeral while policies that pursue purely economic objectives can have tragic consequences This book argues that any strategy for post conflict economic reconstruction must be based on five premises and examines specific post conflict reconstruction experiences to identify not only where these premises have been disregarded but also where policies have worked and the specific conditions that have influenced their success and failure

Occupational Hazards David M. Edelstein, 2011-07-20 Few would contest that the U S occupation of Iraq is a clear example of just how fraught a military occupation can become In *Occupational Hazards* David M Edelstein elucidates the occasional successes of military occupations and their more frequent failures Edelstein has identified twenty six cases since 1815 in which an outside power seized control of a territory where the occupying party had no long term claim on sovereignty In a book that has implications for present day policy he draws evidence from such historical cases as well as from four current occupations Bosnia Kosovo Afghanistan and Iraq where the outcome is not yet known Occupation is difficult in Edelstein s view because ambitious goals require considerable time and resources yet both the occupied population and the occupying power want occupation to end quickly and inexpensively in drawn out occupations impatience grows and resources dwindle This combination sabotages the occupying power s ability to accomplish two tasks convince an occupied population to suppress its nationalist desires and sustain its own commitment to the occupation Structural conditions and strategic choices play crucial roles in the success or failure of an occupation In describing those factors Edelstein prescribes a course of action for the future

Conflict and Development Roger Mac Ginty, Andrew Williams, 2009-03-24 Over the past decade a new awareness of the relationship between conflicts and development has grown Developmental factors can act as a trigger for violence as well as for ending violence and for triggering post conflict reconstruction This book explores the complexity of the links between violent conflict usually civil wars and development under development and uneven development It emphasizes the connections between stable developed economies and civil wars in other parts of the world and examines how structural factors such as the organization of the global economy virtually condemn some regions to conflict and under development This valuable introductory text explains reviews and critically evaluates this complex relationship It focuses on intra state conflicts and complex political emergencies that combine transnational and internal characteristics Attention is also given to inter state conflicts Chapters emphasize how the

relationship between conflict and development traverses many scales macro meso and micro and dimensions economic political and cultural Furthermore it explains how different developmental challenges and opportunities emerge along the full life cycle of conflict Specifically the role of poverty state market civil society globalization humanitarian aid refugees gender and health within conflict dynamics are examined The book also investigates specific developmental issues emerging during conflict management and post conflict reconstruction Both authors have a background in conducting research in deeply divided societies and argue that many of the processes connected with war and peace making deliberately write people out of the equation This book attempts to write people in By drawing on contemporary theoretical debates and examining current policies and events the text unpacks the difficult and complex aspects of the relationships between armed conflict and development and makes them accessible interesting and policy relevant It considers how peace making peace building and post war reconstruction are usually more sustainable and successful if politicians policy makers entrepreneurs and those working for international NGOs take on board local opinion and capacity Written in an accessible style the book considers the main contemporary theories and arguments on conflict development and the interactions between the two The text is illuminated throughout with case studies drawn from Africa the Balkans Asia and the Middle East

Historical Dictionary of Afghanistan Thomas H. Johnson, Ludwig W. Adamec, 2021-05-15 Afghanistan is an extremely complex and nuanced country that has been one of the centers of imperial conflict at least for 150 years From the Czarist Russia's march south in the 19th Century threatening British India three Anglo Afghan Wars the Soviet Invasion and occupation of Afghanistan starting in December 1979 and the resulting anti Soviet Jihad by the Afghan Mujahideen to Kabul's and their allies U S and NATO conflict with the Taliban Afghanistan has been one of the centers of important international and regional conflicts and events Historical Dictionary of Afghanistan Fifth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Afghanistan

Historical Dictionary of Afghanistan Ludwig W. Adamec, 2012 This new fourth edition has been substantially expanded because so much has taken place in such a short period of time The most important changes however have been made to the dictionary section with hundreds of added or substantially revised entries on important people places events institutions practices ethnic and religious groups political parties and Islamist movements as well as significant aspects of Afghanistan's politics economy society and culture

Afghan Women Elaheh Rostami-Povey, 2007-07 Rostami Povey looks at how women have fought repression and challenged stereotypes both within Afghanistan and in diasporas in Iran Pakistan the US and the UK This book gets behind the media hype and presents a vibrant and diverse picture of these women's lives

The Dilemmas of Statebuilding Roland Paris, Timothy D. Sisk, 2009-01-13 This book explores the contradictions that emerge in international statebuilding efforts in war torn societies

Since the end of the Cold War more than 20 major peace operations have been deployed to countries emerging from internal conflicts. This book argues that international efforts to construct effective legitimate governmental structures in these countries are necessary but fraught with contradictions and vexing dilemmas. Drawing on the latest scholarly research on postwar peace operations, the volume addresses cutting edge issues of statebuilding including coordination, local ownership, security elections, constitution making and delivery of development aid. Features contributions by leading and up and coming scholars, provides empirical case studies including Afghanistan, Cambodia, Croatia, Kosovo, Liberia, Sierra Leone, South Africa and others, presents policy relevant findings of use to students and policymakers alike. **The Dilemmas of Statebuilding** will be vital reading for students and scholars of international relations and political science. Bringing new insights to security studies, international development and peace and conflict research, it will also interest a range of policy makers.

Conflict and Development Roger Mac Ginty, Andrew Williams, 2009-03-24

Over the past decade a new awareness of the relationship between conflicts and development has grown. Developmental factors can act as a trigger for violence as well as for ending violence and for triggering post conflict reconstruction. This book explores the complexity of the links between violent conflict, usually civil wars, and development, under development and uneven development. It emphasizes the connections between stable developed economies and civil wars in other parts of the world and examines how structural factors such as the organization of the global economy virtually condemn some regions to conflict and under development. This valuable introductory text explains, reviews and critically evaluates this complex relationship. It focuses on intra state conflicts and complex political emergencies that combine transnational and internal characteristics. Attention is also given to inter state conflicts. Chapters emphasize how the relationship between conflict and development traverses many scales: macro, meso and micro and dimensions: economic, political and cultural. Furthermore, it explains how different developmental challenges and opportunities emerge along the full life cycle of conflict. Specifically, the role of poverty, state, market, civil society, globalization, humanitarian aid, refugees, gender and health within conflict dynamics are examined. The book also investigates specific developmental issues emerging during conflict management and post conflict reconstruction. Both authors have a background in conducting research in deeply divided societies and argue that many of the processes connected with war and peace making deliberately write people out of the equation. This book attempts to write people in. By drawing on contemporary theoretical debates and examining current policies and events, the text unpacks the difficult and complex aspects of the relationships between armed conflict and development and makes them accessible, interesting and policy relevant. It considers how peace making, peace building and post war reconstruction are usually more sustainable and successful if politicians, policy makers, entrepreneurs and those working for international NGOs take on board local opinion and capacity. Written in an accessible style, the book considers the main contemporary theories and arguments on conflict, development and the interactions between the two. The text is illuminated throughout with case studies drawn from Africa.
