Historical Association American Historical Association,1907 *George Washington's Washington* Adam

Costanzo,2018-04-01 The vision controversy and political rivalries that shaped America's capital are examined in this fascinating history of Washington D C When America's first congress declared that a national capital was to be built along the Potomac President Washington was given complete control over its design and construction Eager to establish a federal city worthy of a powerful and rapidly expanding empire Washington recruited commissioners surveyors architects and craftsmen But there were many including Thomas Jefferson who opposed Washington's vision for a grand American metropolis In the fiercely partisan environment of the early republic the construction development and oversight of the District of Columbia became a symbolic pawn in the contest between rival political groups George Washington's Washington traces the president's original plan for the capital over the course of decades through its formation abandonment and eventual revival in the Jacksonian era It is not simply a history of the city during Washington's life but a history of his vision for the national capital and of the local and national conflicts surrounding this vision's acceptance and implementation A Historic Resources Study ,2004 Lost in the District, Lost in the Federal Territory: The Life and Times of Doctor David Ross, Surgeon, Sot-Weed Factor, Importer of Human Labor, of Bladensburg, Maryland, and related individuals Stewart Lillard,2017 Lost in the District Lost in the Federal Territory relates the facts about Doctor David Ross of Bladensburg his family life his business and political connections and his efforts to develop a productive iron mine along the upper Potomac River on lower Antietam Creek in Washington County Maryland Through his diligence and the skills of his close relatives Dr Ross was in a position to recommend the taking up of arms against Great Britain to his river neighbors of the Committee of Correspondence His son was later appointed to serve briefly as one of the first auditors for the newly formed District of Columbia His nephew by marriage James Maccubbin Lingan a victim of the Baltimore Riot of July 28 1812 was one of the first group of leaders who set Georgetown Maryland and later D C on its course to greatness as a deep water port He remains the only veteran of the American Revolutionary War to be buried in Arlington National Cemetery **The Brief Career of Eliza Poe** Geddeh Smith,1988 When the actress Eliza Poe mother of Edgar Allen Poe died at age 24 in Richmond Virginia she had played with every important theatrical company in the country Compared to actors today her career is truly extraordinary She played nearly 300 parts in plays by Shakespeare and Sheridan a long line of heroines in 18th century sentimental comedies comic operas farces and poetic tragedies whose titles are meaningless now though they contain brilliant language and canny theatricality requiring actors of discipline and skill to present successfully Eliza left no personal documents but

available public documents relating to her professional life tell the vivid story of a gifted young actress serving her apprenticeship in the superior repertory system of late 18th and early 19th century America Eliza was a young artist who had established a national reputation with her co workers and the public just embarking on what would have been her most important work at the time of her tragically early death *Hidden Alleyways of Washington, DC* Kim Prothro Williams, 2023-11-01 The remarkable architectural and social history of DC's multifaceted alleyways Alleyways in Washington DC have always been a fundamental part of the city's life and economy Deliberately hidden from public view by the capital's early planners DC's alleys were created to provide access to stables carriage houses and other utility buildings But as the city grew and property values rose the nature of some alleys and their buildings changed resulting in a parallel world of residential manufacturing and artistic spaces Kim Prothro Williams reveals this world in a fascinating and richly illustrated history In the nineteenth and early twentieth centuries the city's inhabited alleys were often unsanitary spaces that were home to its poorest residents These conditions spurred Progressive Era campaigns to demolish alley dwellings which in turn led to the displacement of minority and disadvantaged communities Today many remaining alleyways with their intimately scaled buildings have been transformed into vibrant commercial and residential spaces Yet this new wave of development raises questions about how spaces that were once reserved for the city's poorest residents now cater to the wealthy This book is a must have for anyone with an interest in Washington social history architecture or historical preservation

Writings on American History, 1902 Ernest Cushing Richardson, Anson Ely Morse, 1904 **When Britain Burned the White House** Peter Snow, 2014-08-19 This stirring military narrative takes readers from the burning of the nation's capital to the anthem inspiring Battle of Fort McHenry In August 1814 the United States army was defeated just outside Washington D C by the world's greatest military power President James Madison and his wife had just enough time to flee the White House before the British invaders entered British troops stopped to feast on the meal still sitting on the Madisons dining room table before setting the White House on fire The extent of the destruction was massive finished in wood rather than marble everything inside the mansion was combustible Only the outer stone walls would withstand the fire The tide of the War of 1812 would quickly turn however Less than a month later American troops would stand victorious at the Battle of Fort McHenry Poet Francis Scott Key struck by the sight of the American flag waving over Fort McHenry jotted down the beginnings of a poem that would be set to music and become the U S national anthem The Star Spangled Banner In his compelling narrative style Peter Snow recounts the fast changing fortunes of that summer's extraordinary confrontations Drawing from a wealth of material including eyewitness accounts Snow describes the colorful personalities on both sides of those spectacular events including the beleaguered President James Madison and First Lady Dolley American heroes such as Joshua Barney and Sam Smith and flawed military leaders like Army Chief William Winder and War Secretary John Armstrong On the British side Snow re-creates the fiery Admiral George Cockburn the cautious but immensely popular Major
