across the province and he provides detailed coverage of records that are available online Unlike the rest of the British Isles which has very extensive civil and census records Irish ancestral research is hampered by the destruction of many of the major collections Yet Ian Maxwell shows how family historians can make good use of church records school registers and land and valuation records to trace their roots to the beginning of the nineteenth century and beyond *Tracing Your Irish Family History on the Internet* Chris Paton,2013-10-19 A thorough and informative guide with as many references to websites for Northern Irish genealogy as for the Republic of Ireland Who Do You Think You Are Magazine Ireland has experienced considerably more tragedy when it comes to the preservation of resources for family historians than its close neighbor Britain Many of the nation's primary records were lost during the civil war in 1922 and through other equally tragic means But in this new book Chris Paton the Northern Irish born author of the bestselling *Tracing Your Family History on the Internet* shows that not only has a great deal of information survived it is also increasingly being made available online Thanks to the pioneering efforts of the Public Record Office of Northern Ireland the National Archives of Ireland organizations such as FindmyPast Ireland Ancestry.co.uk and RootsIreland and the massive volunteer genealogical community more and more of Ireland's historical resources are accessible from afar As well as exploring the various categories of records that the family historian can turn to Chris Paton illustrates their use with fascinating case studies He fully explores the online records available from both the north and the south from the earliest times to the present day Many overseas collections are also included and he looks at social networking in an Irish context where many exciting projects are currently underway His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots Chris Paton has produced this much needed book for researchers tracing Irish roots pulling together all the current online resources and expert advice into one handy guide *Family Tree Magazine* *Tracing Your Family History on the Internet* Chris Paton,2011-06-13 A genealogist's practical guide to researching family history online while avoiding inaccurate incomplete or misleading information The internet has revolutionized family history research every day new records and resources are placed online and new methods of sharing research and communicating become available Never before has it been so easy to research family history and to gain a better understanding of who we are and where we came from But as British genealogist Chris Paton demonstrates in this straightforward practical guide while the internet is an enormous asset it is also something to be wary of Researchers need to take a cautious approach to the information they acquire on the web Where did the original material come from Has it been accurately reproduced Why was it put online What has been left out and what is still to come As he leads researchers through the multitude of resources that are now accessible online with an emphasis on UK and Ireland sites Chris Paton helps to answer these questions He shows what the internet can and cannot do and he warns against the various traps researchers can fall into along the way
