Recovering Canada The Resurgence Of Indigenous Law:

Recovering Canada John Borrows, 2002-12-15 Canada is covered by a system of law and governance that largely obscures and ignores the presence of pre existing Indigenous regimes Indigenous law however has continuing relevance for both Aboriginal peoples and the Canadian state In his in depth examination of the continued existence and application of Indigenous legal values John Borrows suggests how First Nations laws could be applied by Canadian courts and tempers this by pointing out the many difficulties that would occur if the courts attempted to follow such an approach By contrasting and comparing Aboriginal stories and Canadian case law and interweaving political commentary Borrows argues that there is a better way to constitute Aboriginal Crown relations in Canada He suggests that the application of Indigenous legal perspectives to a broad spectrum of issues that confront us as humans will help Canada recover from its colonial past and help Indigenous people recover their country Borrows concludes by demonstrating how Indigenous peoples law could be more fully and consciously integrated with Canadian law to produce a society where two world views can co exist and a different vision of the Canadian constitution and citizenship can be created

A Bounded Land Cole Harris, 2020-11-01 Canada is a country of bounded spaces a nation situated between rock and cold to the north and a political border to the south In *A Bounded Land* Cole Harris seeks answers to a sweeping question How was society reorganized for Indigenous and non Indigenous people alike when Europeans resettled this distinctive land Through a series of vignettes that focus on people s experiences on the ground Harris exposes the underlying architecture of settler colonialism as it grew and evolved from the first glimpses of new lands and peoples to the immigrant experience in early Canada to the dispossession and resettlement of First Nations in British Columbia By considering the whole territory that became Canada over 500 years and focusing on sites of colonial domination rather than settler texts Harris unearths fresh insights on the continuing and growing influence of Indigenous peoples and

argues that Canada's boundedness is ultimately drawing the country toward its Indigenous roots

Gender, Power, and Representations of Cree Law Emily Snyder, 2018-04-10 Drawing on the insights of Indigenous feminist legal theory Emily Snyder examines representations of Cree law and gender in books, videos, graphic novels, educational websites, online lectures, and a video game. Although these resources promote the revitalization of Cree law and the principle of *miyo w c htowin* (good relations), Snyder argues that they do not capture the complexities of gendered power dynamics. The majority of the resources either erase women's legal authority by not mentioning them or they diminish women's agency by portraying them primarily as mothers and nurturers. Although these latter roles are celebrated, Snyder argues that Cree laws and gender roles are represented in inflexible, aesthetically pleasing ways that overlook power imbalances and difficult questions regarding interpretations of tradition. What happens when good relations are represented in ways that are oppressive? Grappling with this question, Snyder makes the case that educators need to critically engage with issues of gender and power in order to create inclusive resources that meaningfully address the everyday messiness of law. As with all legal orders, gendered oppression can be perpetuated through Cree law, but Cree law is also a dynamic resource for challenging gendered oppression.

The Oxford Handbook of Comparative Environmental Law Emma Lees, Jorge E. Viñuales, 2019-05-06 This Handbook is the first comprehensive account of comparative environmental law. It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points: country studies from all continents; responses to common problems including air pollution, water management, nature conservation, genetically modified organisms, climate change, and energy; chemicals waste; foundational components of environmental law systems including principles, property rights, administrative and judicial organisation, command and control, regulation, market mechanisms, informational techniques, and liability mechanisms; and common interactions of environmental protection with the broader public, private, and criminal law contexts. The volume brings together the foremost authorities in this field from around the world to provide a concise, self-contained, and technically rigorous account of environmental law as a single overall system.

Reconciling Canada Jennifer Henderson, Pauline Wakeham, 2013-06-17 Truth and reconciliation commissions and official governmental apologies continue to surface worldwide as mechanisms for coming to terms with human rights violations and social atrocities. As the first scholarly collection to explore the intersections and differences between a range of redress cases that have emerged in Canada in recent decades, *Reconciling Canada* provides readers with the contexts for understanding the phenomenon of reconciliation as it has played out in this multicultural settler state. In this volume, leading scholars in the humanities and social sciences relate contemporary political and social efforts to redress wrongs to the fraught history of government relations with Aboriginal and diasporic populations. The contributors offer ground-breaking perspectives on Canada's culture of redress, broaching questions of law and constitutional change, political coalitions, commemoration, testimony, and literatures of injury and its aftermath. Also assembled together for the first time is a

collection of primary documents including government reports parliamentary debates and redress movement statements prefaced with contextual information Reconciling Canada provides a vital and immensely relevant illumination of the dynamics of reconciliation apology and redress in contemporary Canada Interrupting the Legal Person Austin Sarat,2022-03-28 This special issue is part one of a two part edited collection on interrupting the legal person and what this means The chapters in this volume interrogate the role of the person and personhood in different contexts jurisdictions and legal traditions The Plural States of Recognition Michel Seymour,2010-01-20 Critical reflections by established academics on the crisis of multiculturalism that occurred in Great Britain Netherlands and Canada It provides an occasion to develop a sophisticated understanding of societies characterized by religious ethnic and cultural diversity **Flawed Precedent** Kent McNeil,2019-06-01 In 1888 the Judicial Committee of the Privy Council ruled in St Catherine s Milling and Lumber Company v The Queen a case involving the Saukteaux people s land rights in Ontario This precedent setting case would define the legal contours of Aboriginal title in Canada for almost a hundred years despite the racist assumptions about Indigenous peoples at the heart of the case In Flawed Precedent preeminent legal scholar Kent McNeil provides a compelling account of this contentious case He begins by delving into the historical and ideological context of the 1880s He then examines the trial in detail demonstrating how prejudicial attitudes towards Indigenous peoples influenced the decision He further discusses the effects that St Catherine s had on law and policy until the 1970s when its authority was finally questioned in Calder then in Delgamuukw Marshall Bernard Tsilhqot in and other key rulings He also provides an informative analysis of the current judicial understanding of Aboriginal title in Canada now driven by evidence of Indigenous law and land use rather than by the discarded prejudicial assumptions of a bygone era **Language and Identity Politics** Christina Späti,2015-11-01 In an increasingly multicultural world the relationship between language and identity remains a complicated and often fraught subject for most societies The growing political salience of questions relating to language is evident not only in the expanded implementation of new policies and legislation but also in heated public debates about national unity collective identities and the rights of linguistic minorities By taking a comprehensive approach that considers both the inclusive and exclusive dimensions of linguistic identity across Europe and North America the studies assembled here provide a sophisticated look at one of the global era s defining political dynamics Ancillary Police Powers in Canada John W. Burchill,Richard Jochelson,Akwasi Owusu-Bempah,Terry Skolnik,2024-10-15 Police enforce the law but they must also obey it Statutes circumscribe how law enforcement officers conduct their work At the same time Canadian courts have handed police many powers to stop search and otherwise investigate people in the pursuit of public safety and crime prevention Ancillary Police Powers in Canada explains what these common law police powers are how they came to be and crucially what the potential dangers are in their expanding scope What is the difference between police duty and lawful authority Should the Supreme Court rescind powers when the police tactics they enable become controversial This nuanced

Turner, 2020-08-20 For millennia plants and their habitats have been fundamental to the lives of Indigenous Peoples as sources of food and nutrition medicines and technological materials and central to ceremonial traditions spiritual beliefs narratives and language While the First Peoples of Canada and other parts of the world have developed deep cultural understandings of plants and their environments this knowledge is often underrecognized in debates about land rights and title reconciliation treaty negotiations and traditional territories Plants People and Places argues that the time is long past due to recognize and accommodate Indigenous Peoples relationships with plants and their ecosystems Essays in this volume by leading voices in philosophy Indigenous law and environmental sustainability consider the critical importance of botanical and ecological knowledge to land rights and related legal and government policy planning and decision making in Canada the United States Sweden and New Zealand Analyzing specific cases in which Indigenous Peoples inherent rights to the environment have been denied or restricted this collection promotes future prosperity through more effective and just recognition of the historical use of and care for plants in Indigenous cultures A timely book featuring Indigenous perspectives on reconciliation environmental sustainability and pathways toward ethnoecological restoration Plants People and Places reveals how much there is to learn from the history of human relationships with nature
